TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-check Payments

E-check payments now available. Please email form to info@legendauctions.com

International Buyers

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

Extended Payment Terms

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all

international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions. Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are

statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amos Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAL, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

THE REGENCY AUCTION 29 SAN ANTONIO

NOVEMBER 15 | HYATT REGENCY RIVERWALK

LOT 1

FUGIO 1787 PCGS MS64 BN CAC

STATES UNITED, 4 Cinquefoils, Pointed Rays type; Newman 13-X, W-6855 variety, rated as R-2.

Struck under the authority of the American Congress, the Fugio coppers, also referred to as Cents, are among the most popular “colonial” issues, and one of the few that, thanks to the Bank of New York Hoard, can be obtained with little difficulty in Mint State. The design is very symbolic, relating directly to Continental Currency notes from 1776 and inspired by Benjamin Franklin.

The present near-GEM likely traces its origin to that source. Steely brown surfaces are even and devoid of any serious marks or lines, and totally free of any kind of environmental damage. Glimpses of orange cling to the upper left rings of the reverse chain. Sharply struck from clashed dies, the eye appeal is excellent.

PCGS 87, NGC 40, CAC 32. This coin last sold in the 2017 FUN auction for \$3,995. Earlier, it realized \$4,888 in the 2011 FUN auction. The current PCGS value is listed at \$4,850 and this near-GEM will see very strong bidding indeed. This coin represents a lot of history!

PCGS# 883 | ESTIMATE: \$4,000+

**LOT 2****1/2C 1793 PCGS AU53 CAC**

A "GEM" of an AU! Among the first coins struck for circulation from the fledgling Philadelphia mint, the 1793 half cent is a very important and extremely popular issue, a one-year only type that is highly sought by collectors in all grades, from environmentally damaged low grade examples to GEM Mint State. Very RARE in high quality collector grades like this, even more so with such amazing eye appeal.

This coin has only the lightest traces of circulation. A few stray marks can be seen on otherwise smooth, hard copper surfaces. Unlike most of the examples of this date we see either in auction or on the bourse, which come with extensive wear or environmental issues, this coin has a very pleasing medium brown coloration, with only a touch of wear. There are a few tiny marks and scratches that can be seen under a glass, and they mostly blend into the surrounding chocolate brown and olive iridescent toning. The devices are sharply impressed into the planchet, the eye appeal is superior to the vast majority of the known survivors of the date.

The 35,334 half cents struck in this first year were all coined between May and July 1793. The design, featuring Liberty's head facing left with a liberty cap on top of a pole is directly related to the 1781 Libertas Americana medals struck in Paris on designs suggested by Ben Franklin. According to Walter Breen, a who's who of early mint employees are thought to have worked on the designs, including David Rittenhouse, Robert Birch, and Adam Eckfeldt. The present coin is from the Breen-3, Cohen-3 die pairing.

PCGS 13, NGC 10, CAC 1. This coin has the incorrect PCGS # on the insert, listed as 1001 for a 1793 with the RB designation. No CAC-approved example has ever sold in auction in AU53. The current PCGS Price Guide value is listed at \$40,000 and with its CAC-endorsement and high end look, this coin should realize in excess of that! A very desirable numismatic trophy from the infant years of the republic. Bound for a wonderful collection of half cents or early type coins.

PCGS# 1001 ESTIMATE: \$35,000+

**LOT 3****1/2C 1794 PCGS XF45 CAC**

C-1a, Large Edge Letters. A coin that deserves many Wows!

This would be a highlight in any collection of circulated grade early copper! To call this coin

a "GEM" XF does not even

begin to describe the quality;

perhaps the only thing that will

fully pass the message along

is this: LAURA SPERBER

LOVES THIS COIN! She is

obsessed with it! First off, the

color is even and light brown

with golden accents at the

periphery. You do not need a

vivid imagination to see hints of

surviving gloss. The details were deeply rendered by a strong blow from the screw press. Ms. Liberty's tresses are boldly delineated as are the dentils, the letters, and the leaves on the reverse. The surfaces are hard and with a very strong glass revealing only minor contact from circulation. There is no porosity, corrosion, or environmental damage that usually plagues these early copper coins.

Needless to say this coin is PQ+++ and is a real stunner!

PCGS 27, NGC 13 CAC 6. Only one CAC-approved XF45 ever sold in auction, realizing \$7,475 way back in December 2010. Clearly these DO NOT appear with frequency, or with this kind of high end quality. We totally believe that this coin will force the folks at Collector's Universe to adjust their Price Guide value upward. Remember--an AU50 will cost \$10,000 or more!

PCGS# 1003 | ESTIMATE: \$6,500+

LOT 4**1/2C 1804 PCGS MS64 BN CAC**

B-11, C 12. Crosslet 4, Stemless. Presented is a highly compelling early half cent, a great coin not just for the specialist, but for the type collector as well. Lustrous brown surfaces are smooth and free of any distracting marks or flecks. Nicely struck up, the devices show a crisp definition on both sides, and the strike is even, which is not always the case for this die marriage. Hints of original red cling to the peripheries and some of the protected areas of the design. There are also accents of steely blue that come out when rotated in the light. The only mark of significance we can see is a small dig in the obverse field that is so old and toned over you really cannot see it without a glass. The eye appeal is excellent!

PCGS 16, NGC 3, CAC 5. The last one to sell realized \$4,560 in the recent 2018 ANA auction and one sold in February 2018 for \$4,994. The present coin, which is clearly very fresh to the market will delight any collector. The current Collector's Universe value is listed at \$6,250 and it would not shock if this near-GEM came close. A 65 will cost \$25,000-\$30,000! Note: this coin is incorrectly numbered on the holder, it is PCGS # 1072 for the Crosslet 4, No Stems type, not PCGS 1063 (on insert) for Plain 4, No Stems.

PCGS# 1072 | ESTIMATE: \$4,000+

LOT 5

1/2C 1829 PCGS MS64 RB CAC

C-1, the only die marriage used to strike the entire mintage of 1829 half cents. This near-GEM quality example has a full, vibrant luster with about 50% original mint red color that has mellowed with accents of violet. The devices are sharply struck up and the eye appeal is spectacular for the grade.

PCGS 6, NGC 2, CAC 1. No PCGS example has sold in auction ever, while the last NGC coin sold in May 2003. The current PCGS Price Guide value is \$2,600 and that really is just conjecture, as none have sold. The Newcomb-Green-Boyd-Newman-Missouri Cabinet coin, a PCGS MS65 RB CAC sold for \$18,400 in January 2015. This coin will see very serious bidding from half cent collectors!

PCGS# 1154 ESTIMATE: \$2,400+

LOT 6

1/2C 1855 PCGS MS66 BN CAC

Quality-wise, this SUPERB quality GEM is a near twin to the one we just sold for \$2,233 in our September 2018 Regency Auction 28

Highly lustrous, medium chocolate brown shows accents of orange-red in the protected areas of the peripheries. There is a touch of a violet overtone that gives this sharply struck GEM a great look

PCGS 11, NGC 14, CAC 7. The most recent example was the one we just sold for \$2,233 and the current PCGS Price Guide value lists a value of \$2,150. There are NONE finer in the BN designation at either service and this coin has an amazing visual allure!

**LOT 7****L1C 1793 WREATH, VINE AND BARS. PCGS MS63****BN CAC**

A marvelous fully CHOICE 1793 Wreath cent. An impressive Condition Census grade S-8. Visually one of the higher end examples of this R-3- variety easily identifiable by the horizontal twig on the branch of leaves under Liberty's truncation and the triangle shaped bow on the reverse wreath. It goes without saying just how RARE these are in Mint State grades, especially so with CAC-approval and the amazing eye appeal that this coin possesses.

Sharply struck on both sides, Liberty's flowing tresses are distinctly defined, standing out with full 3 D effect. Likewise, the details of her profile are deeply rendered, with full definition in her eye, nose, and lips. Each bead at the border is complete and well centered on the planchet. The reverse design elements are also very crisply struck up. Both sides exhibit smooth, hard copper surfaces without any evidence of corrosion, pitting, or other environmental damage. A close examination reveals a single contact near the rim by hair curl 2. The coloration ranges from rich, milk chocolate brown to pale olive-tan in areas with pleasing golden accents that come to life under a light. The eye appeal is exceptional!

PCGS 7, NGC 3, CAC 1. The most recent PCGS MS63

BN to sell was in the 2018 Central States auction and realized \$78,000 (it was NOT CAC). Prior to that, one sold in November 2008 for \$115,000. Clearly these DO NOT appear with any frequency and the current Collector's Universe value of \$100,000 may well be exceeded when this beauty crosses the block. We know that early types like this will always command strong bidding from type and early copper collectors alike. What a wonderful coin for an advanced type set!

**LOT 8****L1C 1794 HEAD OF 1794. PCGS VF35**

S-44, Die State III Easily identifiable by the die crack on the obverse through the 17 and the one on the reverse that goes between STATES OF through the top of the wreath, into N of ONE.

A very pleasing, mid-grade 1794 large cent in a highly collectible grade. The details are very well defined, and there are only the most minor of marks from circulation. The planchet stock is of good overall quality with just some minor micro porosity seen with a very strong glass on the reverse, noted for total disclosure. The naked eye appeal is very nice.

The large cents of 1794 were struck from many different combinations of dies, creating a date that is very popular among the members of EAC to study and collect. Let this interesting S-44 start you off on your own specialized collection.

PCGS 103, NGC 93. The most recent VF35 graded by PCGS was a S-65, struck on a porous planchet and showing more roughness to the surfaces than the present S-44, realizing \$2,220 in April 2018, prior to that a PCGS VF35 S-46 sold for \$3,360 in February 2018. The current PCGS value is listed at \$3,300.

LOT 9**L1C 1794 HEAD OF 1794. PCGS AU58 CAC**

A "GEM" AU58 S-65 While a relatively common variety, it is very scarce in such a lofty grade. For a 1794 large cent, this coin is ever so close to a full Mint State grade, and possesses an extremely high end look.

First, the surfaces are solid and hard, devoid of any serious pitting or corrosion that often comes on large cents of the 1790s. The details are fully struck up with crisp, clean definition in Liberty's hair curls and facial features. Pleasing, even, medium brown with golden and chestnut highlights show off a lovely glossiness. There are no serious marks, ticks, or other issues that affect the overall eye appeal of this HIGH END piece. Very choice and extremely eye appealing.

PCGS 44, NGC 12, CAC 7. This is the coin that sold in the 2012 ANA auction for \$21,150. There really is a wide range of APRs for PCGS graded AU58s sold in auction, depending on variety, pedigree, and eye appeal. The current PCGS Price Guide value is listed at \$15,000 which is a suitable average, and this one will yet again see bidding in excess of that level when the hammer drops. What a great E.A.C. coin for an advanced type or date set!

PCGS AU58+ CAC

This is the **FINEST** CIRCULATED 1814 Crosslet 4 graded by PCGS, and a coin that is just on the cusp of a full Mint State grade!

The surfaces show off a wealth of glowing, frosty luster on medium brown surfaces. There are accents of burnt orange and violet-teal that come out when rotated in a light. The closest inspection with a strong glass betrays just the slightest hint of contact. This coin is of very high quality, not only for the date and type, but for the assigned grade. We have seen Mint State coins that do not have the visual allure of this GEM AU!

PCGS 26, NGC 22, CAC 4. This is the **ONLY** AU58+ graded at either service. This is not a date that usually comes nice, even in the higher grade examples. Mint State coins are indeed **VERY RARE** and AU58s are always in demand. The most recent regular AU58 sold in our January 2018 Regency Auction for \$7,050. The most recent PCGS/CAC coin in Mint State grade to sell was an MS62 BN that sold for \$10,575 over three years ago. Take this info and bid accordingly.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 11****1C 1814 CROSSLET 4. PCGS MS66 BN**

The **SOLE FINEST** certified in the BN category, this GEM S-294 is of exceptional quality in every way!

For the date and type, this wonderful GEM retains as much **ORIGINAL** cartwheel luster as you could ever imagine, especially for a coin with the BN designation. Accents of brick red blend with rich chocolate brown, violet, and tinges of olive and apricot/rose. The devices are knife sharp on both sides. Each of the details in the hair, face, stars, dimples, and wreath are very sharp and fully defined. The eye appeal is superb. The final issue of the "early" large cents, the second to last Sheldon-numbered die variety. These Classic head large cents, designed by John Reich were rarely saved at the time of issue, and most are found in lower grades. Even those graded Mint State do not display the type of lustrous surfaces that this one has. This is the **FINEST** numerically graded in ANY color designation, and the finest RB is a 65+. PCGS has graded a total of ZERO in RED.

This issue is so tough to find in nice enough grades that it was missing from the D. Brent Pogue Collection. We are pleased to present this extremely important 1814 large cent; suited for any serious cabinet of early copper or any **SUPERB** type set

PCGS 1, NGC 1. This is NOT the NGC MS66 BN from the Gene Gardner Collection sold in May 2015. Collector's Universe lists a value of \$90,000. This GEM has a great look and will see very strong bidding from type or Large Cent collectors wanting the very finest piece for their collection!

Sharply struck from an extensively cracked obverse die. With its superb eye appeal, this coin really would make a great representative for the type.

PCGS 158, NGC 127 The three most recent APRs are for CAC approved examples which have realized \$2,280 to \$2,400 and the current PCGS price is \$2,350. This GEM, despite not being CAC approved will bring a strong price for its great look!

Here is a very impressive 1827 large cent in wonderful CHOICE Mint State grade. Rich bronze surfaces show a brick-red and medium chocolate-brown with violet overtones. Lustrous surfaces show off sharply struck devices. The surfaces show a few tiny marks, none that are singularly distracting, and we believe PCGS was spot on with the 63+ grade.

PCGS 45, NGC 7, CAC 12 This is the only MS63+ BN graded at PCGS, and it has not sold in auction. This is not the NGC coin that sold in January 2016 in a weak market for \$2,233. WOW! Did we say WOW? We could not believe our eyes when we first saw this coin. No joke, this coin looks as fresh as if it just came off the dies. Of course it is SUPER HIGH END and well worthy of its lofty designation. Remarkable surfaces are just that. We looked over this coin hard and there really are NO flaws or even microscopic problems. The luster is incredibly bold! We have never seen any pre-1895 as lustrous. Both sides are an incredible SUPERB GEM Mint Red color. What is more amazing, is how stone bold original everything. There is a super slight hint of some toning dots-really visible with a glass only. The strike is full and you do not need a glass to see all the Indians feathers. You do NOT need a glass to see the fullness of all the details. The eye appeal is beyond amazing!

PCGS 40, NGC 12, CAC 12 PCGS has graded 7 in MS66+ RD and just one coin higher. We cannot find any auction records for a 66+ RD, though there is a Collector's Universe value of \$11,500. A beautiful and highly reflective GEM. Indeed, if PCGS graded CAMEOS in the RB designation, we think this would qualify! The fields are highly reflective and have bold coppery mirror reflection. They are smooth and glassy with a brilliant sheen that is a delight to behold. The devices are sharply struck and stand out with impressive sharpness, standing out wonderfully against the smooth fields. The color is a beautiful mix of original red, golden orange, and accents of violet. The 1877 is one of the important key date issues in the series. While the mintage of 900 proofs is in line with other dates, the cost of a Mint State example has always put very strong demand on the proofs that other dates do not have.

PCGS 82, NGC 68, CAC 30. The last one to sell realized \$8,225 in our May 2018 Regency Auction. **LOT 39****1C 1955 DOUBLED DIE. PCGS MS63 RB**

An original CHOICE Mint State Doubled Die cent. This famed issue has been a popular variety since its discovery and the doubling is visible to the naked eye. Housed in an early, first generation PCGS encapsulation, this lovely coin shows accents of red around the peripheries, otherwise the surfaces are toned to a lustrous steely-brown with accents of olive-tan and pale blue. Both sides are well struck and pleasing.

PCGS 265, NGC 115. The last one sold for \$3,720 in the 2018 ANA auction. Prior to that, one sold in June 2018 for \$3,600 and one in April brought \$3,360. The current PCGS value is listed at \$3,750. We anticipate strong bidding for this popular variety.

**LOT 40****1C 1909 LINCOLN. PCGS PR66+ BN CAC**

This lovely, original GEM Matte Proof Lincoln is the second highest graded at PCGS!

Rich medium brown surfaces show hints of original red along with accents of mahogany and aubergine highlights. This superb quality GEM is well preserved and devoid of any flaws.

PCGS 19, NGC 4, CAC 7. This coin has never appeared in auction and is not the one that sold in our May 2017 auction for \$1,350 hammer. Unpriced in 66+, it is certainly worth well in excess of the \$1,500 listed in the Collector's Universe guide for a 66 BN. There is just a single PR67 BN graded finer in the designation.

PCGS# 3303 | ESTIMATE: \$1,800+

**LOT 41****1C 1909 LINCOLN. PCGS PR67 BN**

This is the SOLE FINEST 1909 Matte Proof Lincoln in the Brown color category at PCGS. The first year of the Matte Proof Lincolns, a series that was not appreciated at the time of issue, but today has a strong following among collectors saw a mintage of 2,198. The sharply struck up design elements stand out nicely against the sand blast surfaces. Rich brown surfaces are accented by a lovely teal-blue overtone. The surfaces are smooth and show no distracting marks or unevenness in the toning. The eye appeal is quite nice.

PCGS 1, NGC 1. Neither this coin, nor the NGC coin have ever sold in auction. Indeed the finest BN graded 1909 Matte Proof to sell in auction was a PR66 BN. PCGS does not even list a value in its Price Guide. If you collect beautiful toned Matte Proof Lincoln cents, you need to bid on this FINEST certified example.

**LOT 42****1C 1910 PCGS PR67+ RD CAC**

A mix of heaven meeting earth here. This coin is so wild it does not deserve to even exist!

This coin looks like it was just minted! Phenomenal to the nth degree surfaces are fully satiny and bold matte like in texture. There is not a single imperfection to be found anywhere. A bold and glowing unbroken luster flames all over. The color is a stunning rich GEM Mint Red with highlights of pale gold. Lincoln and every detail look like they were carved out by a doctor's scalpel! The eye appeal is so incredible we doubt you'll ever forget this coin!

PCGS 6, NGC 2, CAC 4. There is just one other graded PR67+ RD and this is the first one ever graded. It is MORE than worthy of its designation. The current Collector's Universe value is listed at \$53,000 and this coin brought \$41,125 in our July 2017 Regency Auction. We do believe it should score a "runaway" price. Legend has owned the magnificent 1C 1909 VDB PCGS PR67+ RB CAC piece (universally acknowledged to be the FINEST of any Matte Proof 1C). This coin is the only Matte Proof we have ever seen that ranks #2 to that. If you are an advanced Matte Lincoln collector, or have been searching for an out of this world special coin, this piece represents an opportunity of a lifetime!

When Matte Proof Lincoln cents were left to tone naturally in the original tissue paper. We believe this **SUPERB GEM** sat undisturbed in the paper for a long time. The color is beautiful, with ample rosy-red/brown color with accents of brilliant violet and aqua overtones. Sharply struck devices stand out against the impressive matte surfaces, which are **FLAWLESS**. Ranking among the **FINEST** graded, this impressive beauty will see fierce bidding for sure!

PCGS 7, NGC 2. The most recent example, realizing \$5,520 in the 2018 FUN auction did not have the eye appeal of this impressive beauty. This coin realized

\$7,500 in our May 2017 Regency Auction. The current PCGS value is listed at \$10,500 and this coin should see very active bidding for sure!

This electric coin really just arrests the viewer's eyes! The look is simply **AMAZING!** We have seen modern proofs that do not look like this! This is a very high end and **RARE CAM!**

Ultra deep, wildly reflective mirrors are the ultimate in clarity. The surfaces are spotless, there is nothing worthy of mention visible to the naked eye. The entire coin is an intense, totally original **SUPERB GEM RED**. Lincoln and every detail are fully struck and have thick, iridescent frost. The eye appeal is heart pounding!

PCGS 32, NGC 19, CAC 13 There are currently five coins graded PR66+ RD CAM at PCGS. The last PCGS/CAC example to sell in auction realized \$8,813 in our December 2015 Regency Auction. There are a mere four coins finer. This **SUPERB GEM** will see considerable bidding, and will probably sell for more than the current Collector's Universe value of \$6,250. Bound for a great set!

Not your typical so/so 2C MS piece. This piece has lots of life and color.

Incredibly clean surfaces are a joy to behold. We even used a really strong glass and found zero impairments of any size, anywhere. A strong luster shows off the wonderful and totally original GEM faded Mint red/pale brown/pale blue colors. Every detail is frosty and is sharply struck. The eye appeal is phenomenal!

PCGS 19, NGC 35, CAC 19. The current Collector's Universe Value is \$1,150. We can't see why a GEM 153-year-old Civil War era copper coin is not worth at least \$2,500. This coin will be a great addition to any GEM set.

The devices are fully and crisply formed from a sharp strike, and the very eye appealing color and luster combine to create a **SUPERB** look.

PCGS 11, NGC 9, CAC 8. The most recent one sold in our November 2017 Premier Session for \$4,290 and prior to that, there are records at \$5,170 and \$6,463. We sold the **FINEST** RB in our December 2017 Regency Auction for \$5,758, a coin graded just marginally finer, MS66+ RB. The current PCGS Price Guide value is listed at \$5,500. WOW! What a highly eye appealing and truly impressive PQ GEM! This beauty is tied with perhaps 2 others for FINEST graded in the RED designation. Brilliant and fiery RED mirrors beam from all over! The mirrors are totally uninterrupted by any visually distracting imperfections. The devices are quite frosty and crisply embossed by an exacting blow from the dies. The eye appeal is very high end and will delight even the pickiest of collectors!

Only 960 were struck. PCGS 21, NGC 7, CAC 10. There are 3 coins graded PR66+ RD at PCGS and NONE are graded higher at PCGS in the RD designation. The only other one sold for \$12,338 in April 2016. We sold one in our January 2018 Regency Auction for \$11,750. There is a record for a PR67 RD in a first generation PCGS holder that sold in the 2005 FUN auction for \$51,750 but that coin is no longer on the pop report and we believe that it is now in a PR67 RD CAM holder. The current PCGS Price for a PR66+ RD is listed at \$12,500 and that may need to be adjusted upward when bidding closes on this SUPERB GEM!

HOLY COW! One glance at this amazing GEM and you clearly see how it is the second FINEST GRADED by PCGS! All the technical qualities are there and the visual appeal is all there and then some! Stunningly flashy, bold, beaming mirrors dance and glitter in the light. The depth of the reflection is spectacular making the frosted reliefs pop in a full 3-D effect. The surfaces on both sides show no haze and only the lightest dusting of indolent red-violet can be seen on the reverse. The eye appeal is stunning and this coin is truly a delight to behold!

Only 960 Proofs were struck. PCGS 1, NGC 1, CAC 2. There is a record from August 2010 for one selling for \$24,438. It is hard to tell from the photo if these are the same coin, but odds are quite likely that they are. There is one finer, a PCGS PR67 RD CAM, that last sold in March 2012 that realized \$54,500. This remarkable GEM will be a highlight in any high end set. If all 2 cent pieces looked like this, they would be so much more popular indeed.

**LOT 52****2C 1873 CLOSED 3. PCGS PR66 BN CAC**

The final date of this odd denomination also happens to be a PROOF ONLY issue. VERY flashy mirrors beam from the fields. Both sides show lots of ORIGINAL mint red that blend in with stunning blushes of magenta and violet toning. This is a coin where the color designation does not do the coin justice- there really is not much brown anywhere to be seen! The fields are ice-smooth, and close inspection does not reveal a single mark and only the most insignificant of microscopic flecks are found with the a strong glass.

Only 600 examples were struck. PCGS 11, NGC 9, CAC 10. None are graded finer in the BN designation at either service. The most recent example to sell in auction was a PCGS/CAC coin that sold for \$4,700 in June 2015. In this cataloger's opinion this coin has a better visual appeal with much more original mint red color. The current Collector's Universe value is \$5,600 and these really are VERY RARE in such lofty grades. Be sure to bid liberally if you appreciate great color and eye appeal.

One of the top survivors for the date! This coin is a SUPERB GEM without any question. This bold, GEM has just a dusting of totally original deep pewter and silver color on both sides of this satiny lustrous beauty. The surfaces are super smooth and mark free. Well struck and lacking the clash marks that so often plague this series

PCGS 14, NGC 12, CAC 12. There are only 3 coins graded 67+, and one is marginally finer. We assure you this coin is one of the finest examples of 1853 that we have ever seen-almost equal to the killer 1853 PCGS MS67+ CAC Ipswich coin we just sold for \$8,518 in our January Regency Sale. If you think about it, this is a date and grade you rarely ever see. In our opinion, a coin like this should be worth \$7,500-\$10,000 today. Time will make it happen. WOW! Did we say WOW?! Because this coin is a serious WOW SUPERB GEM! While we will not make any promises, we see no reason why PCGS only graded this coin an MS65. The surfaces are absolutely immaculate. Even if you use a strong glass you will hold the same opinion. A strong glowing luster beams from all over. Gorgeous and totally original colors of pale olive/green/gold/violet shimmer all over. There are no spots or discolorations. Most important, EVERY detail is fully struck and stands out. Yet, there is practically no die clashing which is unusual. Regardless the eye appeal is jaw dropping!

Exciting deep mirrors are a joy to behold. The mirrors beam boldly from all over. They enjoy supreme clarity and cleanliness. Even putting a strong glass to the coin yields zero imperfections. The contrast is close to Cameo. Miss Liberty and the details are fully struck and do have light frost. This is far superior to the typical 1871 you will typically see. The eye appeal is tremendous!

Beautiful rings of rainbow toning forms a concentric almost target pattern that is enlivened by bold, flashy luster on the obverse and a frosty, satiny glow on the reverse. A few major die cracks on both sides show why the design was changed in 1867. Sharply struck on both sides in most places though, there is some weakness which is natural in light of the hardness of the copper nickel alloy.

PCGS 165, NGC 174. The last few examples to sell in auction realized in the \$1,100 to \$1,200 range and the current PCGS value is listed at \$1,550. Very rare any finer, this first year of the nickel will be a great way to start off a Shield nickel set.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

WOW! This is a true MONSTER 1907 nickel! EVERYTHING about it screams SUPERB GEM! In fact, we're surprised PCGS did not + it (but this is what a real MS67 looks like).

Incredible surfaces are mind boggling to behold. Even using a strong glass you will find NO imperfections of any size (zero flecks). The surfaces have thick satiny texture. A bold glowing luster beams boldly from all over.

Mother Nature did an awesome job on this coin. She bathed it evenly with light flowing original colors of pale plum, lilac, and rose. No one ever tops Mother Nature's work! Every detail is pinpoint sharp in strike. The eye appeal is phenomenal!

PCGS 2, NGC 0, CAC 1. There are no price records of any sales for either coin. There are NO price guides either (that are correct). We compared it to a 1910 (also PCGS pop 2). The last one of those sold \$25,760 in 2008! Legend Auctions is proud to offer this magnificent Mint State Liberty Nickel. It is worthy of the finest Type or Nickel Collection.

The **FINEST** certified 1912-D nickel at PCGS—NOT tied for finest, this is the **SOLE FINEST—POP 1, NONE FINER!**

While coining operations began in Denver in 1906, it took six years until nickels were struck. Nearly 8.5 million were struck, and these are generally common in Mint State grades, even MS65. They become scarce in MS66 and it is **UNIQUE** in 67. This coin is truly **SUPERB** in every way.

Highly lustrous surfaces show off swirling cartwheels on both sides. Incandescent yellow-gold, icy-blue, and rich orange-peach tone glows with extreme brilliance on both sides. We really love the color, and would rank it among the top 1% of toned Mint State Liberty nickels we have ever handled. The devices are very crisp in definition, with an almost razor-like sharpness. Needless to say, this makes a great example for the first Denver mint issued nickel!

PCGS 1, NGC 2. Remember, that after 32 years of grading coins, this is the **ONLY MS67** graded at PCGS. That should speak volumes as to how **RARE** truly beautiful **SUPERB** quality examples are! This is **NOT** one of the NGC coins sold this decade; and the current PCGS value is way too low! For a coin of this technical and visual quality and rarity at this grade, the sky is the limit. **LOT 105****H10C 1859 PCGS MS67 CAC**

A visually seductive little jewel! Everything about this half dime is immaculate and superb! A bold vibrant luster beams from under a dusting of rich, teal-cobalt and orange-gold toning. Sharply struck devices stand out with bold crispness. The surfaces are smooth and we cannot find a single tick or mark worthy of mention that would take away from the awesome eye appeal.

PCGS 13, NGC 12, CAC 17. It has been over three years since the last CAC approved example sold, the Eliasberg-Gardner coin that realized \$3,290 in October 2015. Prior to that, one sold for \$3,819 in July 2014. The current Collector's Universe value is listed at \$3,500 and this coin should bring somewhere around that. We sold a 67+ CAC coin in May 2018's Regency Auction for \$5,405. A great example for a type set or for a SUPERB set of half dimes.

JR-4. Sharply struck, everything about this GEM screams originality and high end visual allure!

Every detail is fully and crisply struck up, with razor sharp definition throughout. A radiating silver luster booms all over, giving this jewel a great look. Bluish and gold tones blend at the rims, framing both sides. While a strong glass reveals a few minor marks, but none are distracting from very nice eye appeal.

PCGS 21, NGC 8. The most recent example sold for only \$4,320 in the 2018 ANA auction; prior to that, one sold in March 2018 for \$5,160. The current PCGS Price Guide value is listed at \$8,500. VERY RARE any finer, this GEM is well suited for any type set.

10C 1840 NO DRAPERY. PCGS MS65 CAC

A beautiful and exceptionally well preserved GEM example of this early Seated dime. Sharply struck with a satiny underlying luster that brings out a beautiful pallet of color on both sides. Rich golden tone shows accents of amber-orange, pleasing purple, and olive hues that cover both sides with an even and gorgeous tone. Sharply struck up, the details are all fully rendered and this coin is truly marvelous!

PCGS 7, NGC 11, CAC 5. This is a date that is surprisingly rare to find in auction, the last PCGS CAC MS65 sold in September 2010! More recently a 65+ sold for \$3,290 in the 2016 ANA auction. The current PCGS value is listed at \$3,750 and with this coin's awesome look, it should bring about that or more!

**LOT 112****10C 1879 PCGS MS67+ CAC**

WOW! Almost identical to the PCGS MS68 CAC we sold last year. This coin for sure is the epitome of what HIGH END and a + means! There is no question this coin sat totally undisturbed for over 139 years.

Phenomenal surfaces are both satiny and have strong traces of semi-prooflike mirrors. There are no impairments to be found-even by using a strong glass. A moderate luster is enlivened by the slight flash of the mirrors. Both sides

enjoy the ultimate in totally original toning-bull's eye toning. The obverse has a gorgeous circle of aqua blue/violet that opens into champagne centers. The reverse has stunning blue/green/violet circular toning. Miss Liberty and the details are fully struck. The eye appeal is remarkable!

PCGS 27, NGC 42, CAC 12. PCGS has graded only 3 in MS67+ PCGS has graded 3 in MS68. One sold for \$25,850 in 2017. The current Collector's Universe Value for the MS67+ is \$5,000. Seems cheap to us. LOT 113**10C 1882 PCGS MS67+ CAC**

This impressive SUPERB GEM is tied with just a single other for FINEST GRADED at PCGS. Everything about this coin is GORGEOUS and high end!

A radiant, satiny luster has a forceful vibrance. The obverse fields have a subtle prooflike flash, particularly around the date. Stunning pastel teal, gold, peach-rose toning dusts the surfaces, the various tinges of color coming out as you rotate the lustrous surfaces under a light. Sharply struck up, every device is fully and crisply rendered by a forceful blow from the dies. The eye appeal is very high end and you will be hard pressed to find a more beautiful example.

PCGS 18, NGC 26, CAC 12. There are two coins graded MS67+ and none are finer. Neither of these have ever sold via auction! We sold a PCGS MS67 CAC (no '+') for \$2,585 in our July 2017 Regency Auction. An NGC MS68 sold in July 2005 for \$5,750. The current PCGS Price Guide value is listed at \$5,500. **LOT 114****10C 1866 PCGS PR65+ DCAM**

One look at this GEM and there is no question to the DCAM classification! The mirrors are deep and beaming and offer the boldest of awesome reflection. The mirrored surfaces offer a stark contrast to the highly frosted and fully rendered devices. A light blush of the clearest of gold toning. We note a single obverse line in the field that would account for CAC not sticking this GEM

PCGS 5, NGC 2. This is the ONLY PR65+ DCAM at PCGS and there are only three coins graded finer. The last regular PR65 DCAM sold for \$2,585 in December 2015, while a PR66 DCAM sold for \$9,200 in September 2010. **LOT 116****10C 1888 PCGS PR67 CAM CAC**

This SUPERB GEM is unbeatable in every respect. It has superior quality and is really rare. Deep mirrors beam boldly from all over. They are crystal clear, clean, and are loaded with nearly blinding flash. When you twirl the coin, the mirrors look like a flowing river of flash. Both sides are white with a trace of nearly invisible gold on the reverse. Miss Liberty and every detail are crisply struck and stand out with thick frost.

Only 832 were minted. PCGS 3, NGC 6, CAC 5. PCGS has graded only one coin—a PR67+ CAC higher (it sold for \$8,700 in April 2018). An NGC piece just brought \$3,360 in June 2018. It is our strong opinion, coins like this are grossly UNDER valued in today's market. After 30+ years of grading by PCGS and there are only possibly 4 in PR67 and NO PR68's? We can't see why this is not a \$4 \$5,000 coin. Opportunity does not just knock here, it pounds deafening loud!

Wonderfully original and pretty! Satiny lustrous surfaces glow from under a delicate dusting of an amber-gold and olive-russet hues that yield before the highly lustrous silver in the centers. Sharply struck details add to this coin's great look!

PCGS 10, NGC 12, CAC 7. While this date is very scarce in MS66 and finer, it is remarkably affordable--just goes to show how great a bargain the Barber Dime series has become. The last one to sell was a dull gray color that brought only \$1,140. Prior to that, even non-CAC coins were selling in the \$1,500-\$2,000 range. The current CU value is listed at \$1,650 and with this coin's great look bidding should exceed that amount. Note only 7 grade higher on the PCGS Population reports, making this GEM a great addition for any set.

**LOT 120****10C 1899 NGC PF67 CAC**

A fantastic, classic SUPERB GEM housed in an early NGC encapsulation. Totally original, the richness of the toning comes out as you rotate the highly reflective, deeply mirrored surfaces in a light, the beautiful blue, teal, and rose hues show off the strong definition of the devices. The eye appeal is spectacular.

PCGS 18, NGC 25, CAC 14. DO NOT let the population figures fool you, the most recent NGC PR67 CAC sold in April 2009! That coin sold for \$3,738. More recently in January 2018, we sold a PCGS/CAC example for \$3,055, which is well above the current Collector's Universe value of \$2,450. This remarkable SUPERB GEM will delight any Barber dime collector.

The key date of the Mercury dime series had a low mintage of 264,000. A few coins were saved at the time of issue, but the majority went into circulation where they would stay until they were heavily worn. Any example graded Mint State is a prize for collectors.

The present frosty and CHOICE example has a pearly-silver sheen with delicate gold accents. The strike is mostly there, just slightly soft in the central devices, which

keeps this one from getting a Full Band designation. There are a few microscopic lines that can be seen with a strong glass, but none detract from the nice eye appeal. This is a coin that anyone building a Mint State set and needing this important issue.

PCGS 18, NGC 12. The most recent example sold in auction brought \$12,925 in July 2017 and prior to that a non-CAC example has not sold since the 2015 FUN auction, bringing \$13,513. The current PCGS value is \$18,000 and according to our data base, going back to 2005, the average APR for a 63 is nearly \$15,000. This coin should see very active bidding.

With a mintage of nearly 10 million, the 1919-D dime is not a particularly rare issue, but with a full strike, that includes all three bands being split and rounded, this date is among the keys. Near-Gem quality, this lively coin has a rich mint frost that accents the sharply struck devices. Original, pearly silver are undisturbed by any serious marks or ticks, offering a strong eye appeal overall.

PCGS 96, NGC 36 CAC 15 We sold the most recent PCGS/CAC example in our September 2016 Regency Auction for \$3,878 and more recently a non-CAC coin sold in June 2018 for \$4,080. Not only is this coin SUPERB in terms of eye appeal, but it is also top notch in terms of technical quality. It is one of the FINEST in the designation graded by PCGS, with just a single coin finer.

Ultra deep mirrors beam from below a blanket of wildly iridescent shades of totally original blue, purple and rose gold patina. The devices are exceptionally well struck with an exacting crispness in the definition. The mirrored surfaces are essentially flawless and stand up to intense scrutiny. No doubt this monster GEM is one of the nicest we have seen!

Only 600 Proofs were struck in this final year of the denomination. PCGS 14, NGC 22, CAC 3. There are three in PR66+ none of which have sold via auction. The current PCGS Price Guide value is listed at \$22,000 and there is no doubt that this impressive coin will surpass that level. A real prize for the advanced collector of this obsolete type.

B-7, considered R-7+ as a Proof, with five known from this die pair.

We are proud to offer this impressive early Proof quarter. Deeply toned with a dappled patina of golden brown hues with accents of lavender-dove and olive-tan that just sparkles when the highly reflective underlying mirrors catch the light. The rich patina is not too dark that it impairs the vivacity of the flash and clarity of the mirrored fields. The devices are razor sharp in definition. Upon close inspection there are a few grade defining marks in the obverse field in front of the profile, which serve as a pedigree marker.

PCGS 1, NGC 0. The present coin is ex Lester Merkin, February 1971, lot 574; RARCOA's session of Auction '82, lot 717; ANR's September 2003 Auction, lot 266, Heritage, December 2005, lot 607; Stack's January 2009, lot 317; Heritage, August 2013, lot 5577, where it realized \$25,850. The current PCGS Price Guide lists a value of \$33,000 and keep in mind that any early Proof quarter is a major rarity that is very under appreciated and under valued in today's market; despite its more modest grade, this coin is a true American numismatic treasure that very few lucky collectors will ever have the chance to own!

When we first saw this SUPERB GEM, our hearts raced. It is one of the BEST pieces we have ever seen for the Type! The quality is clearly VERY high end! In fact, we unhesitatingly state this coin is BETTER than the MS66 that sold in Pogue for only \$54,050 (and was NOT CAC). Had the Pogue coin been nice and CAC-it easily would have brought \$65,000+

Exquisite surfaces are a collector's delight. Only if you use a strong glass and look really hard will find a pinpoint tick or two and that is it. Overall, the surfaces are clean and satiny smooth. A glowing type luster illuminates the beautiful toning. Moderate and very pretty shades of totally original purple/gold/pale blue/deep champagne swirl all over Miss Liberty and the details are frosty and are boldly struck. The eye appeal is seriously gorgeous!

PCGS 3, NGC 6, CAC 3. PCGS has only graded THIS coin a MS65+. It is nearly impossible to find this date really nice like this. The last PCGS MS65 CAC sold in auction for \$32,900 in June 2014. This totally original SUPERB GEM is just outstanding in every way! If the toning were a little more colorful, we could easily see this coin grade MS67.

Full prooflike mirrors beam all over. When you twirl the coin in the right light, at first glance it looks like a toned proof. Beside the PL, there is a good luster. Both sides are evenly covered in a totally original "old time" moderate mix of color. This is NOT a dull or drab coin. Miss Liberty and the details are sharply struck and have light frost. The eye appeal is excellent!

PCGS 25, NGC 21, CAC 10. PCGS has only graded two in MS66+. Finding TRUE GEM coins like this is NOT easy these days. GEM Mint State Seated coins like this are just too cheap.

The mirrors have that deep water "liquid mercury" like swagger you can twirl all day and never get tired of watching. There is a slight hint of gold by the rims.

Miss Liberty and the details are thickly frosted and have full strikes. The eye appeal is intense!

ONLY 875 were minted. PCGS 11, NGC 11, CAC 6. This is the only PCGS PR66+ Cameo graded. It sold for \$4,113 way back in November 2012. A regular PR66 Cameo brought \$3,055 back in April 2014. As you clearly can see, these do not appear in auction often at all. We think this kind of standout coin is really cheap and overlooked today. Good luck!

**LOT 139****25C 1892 PCGS MS66+ CAC**

An amazing GEM example of this first year of issue. We have looked this coin over and over and cannot find anything that should keep it out of an even higher grade. Perhaps if the satin luster was a touch more vibrant it would grade higher. Generous amounts of pastel iridescent toning graces both sides of this Type 2 Reverse quarter.

PCGS 131, NGC 86, CAC 59. There are 14 coins graded 66+ at PCGS, and the last one two to sell in auction were in LRCA sales: \$2,035 in July 2018 and \$2,510 in May 2018. The current PCGS value is listed at \$2,650. The eye appeal of this GEM will delight any collector and may inspire a new collector to embark on building a set!

PCGS# 5601 | ESTIMATE: \$1,800+

**LOT 140****25C 1892-O PCGS MS67**

While somewhat common in Mint State, this SUPERB GEM is tied for second FINEST graded, bested by only a single MS67+ (which is housed in the R.S.D. Collection, built by a collector client of Legend Numismatics)

We are proud to offer this beauty, which is one of only four graded MS67. Well struck and boldly lustrous, this coin is virtually flawless. The satiny surfaces have a semi-reflective flash and the crisply struck devices stand out with a nice contrast. Light iridescent toning attests to the originality of this impressive Barber quarter. We note only one tiny tick in the center of the obverse, totally unobtrusive and does not affect the amazing eye appeal.

PCGS 4, NGC 1. The last NON-CAC coin to sell in auction was sold 19 years ago--nearly TWO DECADES ago! More recently a PCGS/CAC coin sold for \$9,106 in October 2015. The current PCGS Price Guide value is listed at \$11,800. With the sole FINEST now impounded in an important collection, this will likely be the FINEST available to collectors for quite some time! Good luck!

PCGS# 5602 ESTIMATE: \$6,500+

**LOT 141****25C 1898-O PCGS MS64 CAC**

This is a totally original, high end example for the grade. Rich autumnal toning is brought out by a flashy brilliant mint luster. The details are fully struck up and have full definition. A strong glass does not reveal even the slightest mark or tick, and we think if the obverse luster was a touch more lustrous we would not flinch if it was housed in a higher grade holder (no guarantees).

PCGS 16, NGC 9, CAC 6. The most recent example to sell in auction realized \$2,640 in the 2018 ANA auction. Five years have passed between that coin selling and the one prior to that, which realized \$2,703 in the 2013 ANA auction. The current Collector's Universe value is listed at \$3,400. This is a VERY RARE date any finer, so a high end 64 like this will delight any Barber collector who wants a CAC approved example that does not want to spend \$10,000+ for a CAC MS66.

PCGS# 5620 | ESTIMATE: \$2,400+

LOT 142**25C 1902 PCGS MS66+ CAC**

Wow! What an amazing, totally original SUPERB GEM!

A bold luster has a bold and brilliantly strong satin frost that brings out the wonderful peach gold and lavender toning. Generally well struck throughout and the surfaces are extremely clean. The eye appeal is exceptional and really does stand out!

PCGS 30, NGC 5, CAC 8. This is just one of two graded MS66+ at PCGS and it sold for \$4,230 in June 2016. EXTREMELY RARE any finer, with just three coins graded MS67 at PCGS. This coin will attract extreme interest from advanced Barber quarter collectors--if you are building a set, prepare to bid liberally!

PCGS# 5631 | ESTIMATE: \$3,600+

**LOT 143****25C 1892 PCGS PR65+ DCAM CAC**

You WILL need a pair of Ray Bans to view this MONSTER with. The coin is also SUPER HIGH END! If this has been in a PR66 DC holder we would no have flinched. PCGS showed NO mercy on this coin. The mirrors are deeper than most DCAM coins. They do intensely beam from all over, and are crystal clear and are super clean. Only using a really strong glass can you find a few stray lines. The contrast is way off the charts! Miss Liberty and every detail are fully and are thickly frosted and iridescent white. It looks like the features were carved from a frozen block of ice. The eye appeal is insane!

PCGS 3, NGC 1, CAC 3. PCGS has graded only this coin in PR 65+ DCAM. It has never been sold via auction. Another interesting note: NO PR66 DCAM has ever been sold via auction. The current Collector's Universe Value is only \$3,200. We know the market will set the price for this MONSTER. The intense Black and White look matches what you see on PR68's! Seeing IS believing. Good luck!

PCGS# 95678 | ESTIMATE: \$3,000+

LOT 145**25C 1906 PCGS PR67+ CAC**

A truly SUPER nice and VERY HIGH END SUPERB GEM!

Superb mirrors are bold and do flash from all over. The mirrors do have great clarity and cleanliness. Technically, this coin could grade PR68 (we make NO promises). When you twirl this coin you do see some rolling flash. Both sides have a moderate mix of lavender/gold/silver colors—all totally original. Miss Liberty and the details are fully struck and have delicate frost. There is some light contrast (note: PCGS has NO Cameo's graded in PR66 or finer). The eye appeal is very nice! ONLY 675 were minted.

PCGS 22, NGC 29, CAC 18. PCGS has graded 4 in PR67+. How cheap is too cheap? This coin is waaaaay too cheap! This should be a \$5,000+ coin. The Collector's Universe is still at \$5,000—which in our opinion seems totally correct. We think this coin "fell through the cracks". Legend Numismatics bought his coin from a dealer, not any auction. We cannot stress enough the extreme great value this coin offers.

PCGS# 5692 | ESTIMATE: \$3,500+

LOT 144**25C 1902 PCGS PR67 CAC**

This is an unquestionable SUPERB GEM that is totally original

Strong mirrors beam from both sides. The mirrors are perfect, have great clarity, and are nicely reflective. If you twirl the coin the mirrors look like a freshly made sheet of glass. The obverse has a moderate mix of totally original deep evergreen/blue while the reverse is a more muted purple/blue/green (probably from sitting on felt). Miss Liberty and the details are frosty and have needle sharp strikes. The eye appeal is excellent!

ONLY 777 were minted. PCGS 9, NGC 16, CAC 10 (we believe there are some repeats). The last PR67 to sell at auction brought \$3,120 in August 2018. The current PCGS Price Guide value is listed at \$5,250 and there are just two coins finer, none of which have ever sold. NOTE: these are NOT common at all. This date is a silent stopper in any Barber series in proof.

PCGS# 5688 | ESTIMATE: \$2,800+

**LOT 146****25C 1910 PCGS PR65 CAM CAC**

This is a fully mirrored HIGH END GEM Proof, Deep and almost endless mirrors beam from all over. The mirrors dance with supreme clarity and cleanliness. They do borderline ultra deep. Both sides have light original and peripheral splashes of green/gold/russet colors. The contrast is dramatic. Miss Liberty and the details are needle sharp in strike and are covered by sugary white frost. The eye appeal is tremendous!

ONLY 551 minted. PCGS 22, NGC 9, CAC 7. The last PCGS CAC piece to sell in auction brought only \$1,762.50 in March 2017. Prior to that you had to go all the way back to 2010 where one sold for \$2,585. With only 551 minted, these are NOT nearly as easy to find as you think. In our opinion they have become way too cheap. Opportunity Knocks loud here!

PCGS# 85696 | ESTIMATE: \$1,700+

**LOT 147****25C 1914 PCGS PR67 CAC**

A visually impressive SUPERB GEM! Everything about this coin is high end and the eye appeal is tremendous!

Soft iridescent toning is dusted over watery mirrored fields. The tone is pretty and original, and even on the reverse, while the obverse is a touch more mottled. The strike is razor sharp and the eye appeal bold

Only 380 were struck, the lowest mintage of the series. PCGS 15, NGC 14, CAC 9. Surprisingly enough these do not seem to bring a premium. This coin matches the toning pattern on the Eric Newman Collection coin that sold for \$4,406 as an NGC/CAC coin in November 2013. NOTE NO PCGS/CAC coin has ever sold in auction! Only five coins are graded finer at PCGS, making this a true prize for any high ranking set.

PCGS# 5700 | ESTIMATE: \$3,750+

**LOT 148****25C 1916 STANDING LIBERTY.
PCGS AU53 CAC**

One of the most popular KEY date issues of the 20th century, the 1916 Standing Liberty quarter was struck to the tune of only 52,000, all produced in December 1916. The first design featured a bare breasted Liberty, which was changed part way through 1917, where she was covered up with chain mail.

In demand from collectors in all grades, this very pleasing, totally original AU53 has a great look. Well struck, only the slightest hint of

friction appears on the highest points. A delicate golden tone clings to both sides, attesting to originality and adds to the visual allure.

PCGS 51, NGC 14, CAC 7. The current PCGS Price Guide value is listed at \$11,000 and the last PCGS/CAC AU53 sold in our July 2018 Regency Auction for \$9,694. This example has a similar look and is worthy of a strong bid for sure!

AU58 CAC

With just a touch of rub on the highest points of the design elements, this totally original example of the first year of Standing Liberty quarter has a superb look. Boasting nearly fully lustrous surfaces, both sides have a lovely dusting of iridescent pastel toning. This

eye appealing example is amazing. With only 52,000 struck, this super-slider has a great look, that is NOT your typical dipped and stripped AU coin.

PCGS 122, NGC 57, CAC 19. The most recent example to sell in auction realized \$11,163 in our January 2018 Regency Auction. The current PCGS Price Guide value is listed at \$13,000. The last MS60 sold in January 2013 for \$14,100. This remarkable coin will look great in any set of high end Standing Liberty quarters.

LOT 150

25C 1919-D PCGS MS63 FH

An important Condition Rarity! VERY RARE in CHOICE or finer grades with Full Head definition. Sharply struck details throughout. Brilliant white luster gleams with a light steely-pewter overtone on the reverse. The eye appeal is very nice.

PCGS 20, NGC 2. The most recent example sold in the 2017 ANA auction for \$7,638. The current PCGS value is listed at \$7,500 and keep in mind that a 64 would cost \$16,000-\$18,000! This exceptional example will see strong bidding for sure.

PCGS# 5731 ESTIMATE: \$6,500+

**LOT 151****25C 1919-S PCGS MS62 FH**

In our opinion, we do not know why this coin is "only" a 62, and why CAC did not approve it is beyond us. For a coin of such a modest grade, the eye appeal is amazing. Sharply struck throughout, this coin has FULL head detail, and complete definition throughout. A brilliant, silver luster beams in the fields accenting a light dusting of gold tone.

PCGS 11, NGC 3. In the 2017 ANA auction, the first example to sell since July 2008. That coin sold for \$6,463 and in 2008, one sold \$6,613. The current Collector's Universe value is listed at \$7,500. This date is VERY RARE any finer. A great coin that would have sold as fully CHOICE a generation ago.

PCGS# 5733 ESTIMATE: \$5,750+

**LOT 152****25C 1920-D PCGS MS65 FH**

A GLORIOUS GEM! Brilliant silver white luster glows with a superb radiance on both sides accenting the sharply struck up devices. Every detail is crisply rendered with an exacting strike even on the shield the brads are fully visible. Aside from a minor reeding mark on the reverse, this coin is essentially flawless, and would have likely graded higher. The eye appeal is excellent.

PCGS 34, NGC 12. This is a date that is very rarely offered in such high grade. Another date that has a wide range of APRs, the more recent sold in October 2016 for \$5,170 and prior to that in the 2015 ANA auction, one sold for \$10,575. The current Collector's Universe value is \$8,500 and this date is VERY RARE graded higher.

A very attractive coin that will see strong bidding when it crosses the block. Good luck.

PCGS# 5737 | ESTIMATE: \$7,500+

**LOT 153****25C 1924-D PCGS MS64 FH**

Brilliantly lustrous surfaces show off a clear gold iridescent toning on both sides. Sharply struck on the head and nicely defined on the shield. Housed in an old green tag holder, this very clean coin has a classic, old time look.

PCGS 87, NGC 49. There is a wide range of prices realized in auction, ranging from \$1,080 to \$3,055. The current PCGS value of \$1,900 is a very suitable average, and this PQ example should realize somewhere around that figure.

PCGS# 5749 | ESTIMATE. \$1,200+

**LOT 154****25C 1924-S PCGS MS64 FH CAC**

This is a date that is very tough to find with a fully struck head. This lustrous, near-GEM has good head detail, with all three leaves and full outline of the hairline and profile. All but two of the brads are fully brought up by a better strike. There are a few minor ticks and lines that keep this one from a GEM grade.

PCGS 86, NGC 57, CAC 18. The last three PCGS/CAC examples sold for \$2,585 and the current PCGS Price Guide value is listed at \$3,000. Very difficult to find any finer, especially with CAC approval.

**LOT 155****25C 1926-S PCGS MS66 FH**

Anyone who collects Standing Liberty quarters with full heads knows that the 26-S is one of the hardest dates to find with a full, crisp head. In GEM grades, it is one of the KEY dates to the series, and is highly sought after, rarely appearing on the market, usually only when a set is broken up

The present GEM has a bold strike for the date, all three leaves are crisply rendered and just a couple of the brads are not fully brought up. There is just a slight touch of weakness in the center of Liberty's torso. A glowing luster blooms on both sides accenting the design elements and bringing life to the pale golden accents over the otherwise brilliant silver surfaces. The eye appeal is very nice.

PCGS 10, NGC 1. The current PCGS Price Guide value is listed at \$37,500 and the most recent example to sell in auction was in February 2012, a CAC coin that brought \$37,375. The finest is a single 66+ FH that was ex Just Having Fun Collection that sold for \$48,175 in February 2013. This is a coin that is worthy of any high end collection of Standing Liberty quarters and will see very strong bidding when it crosses the block!

PCGS# 5759 ESTIMATE: \$30,000+

**LOT 156****25C 1952-S PCGS MS68 CAC**

It is amazing what Mother Nature and cardboard can do! This coin is all about the killer colors.

Technically this coin is all there and then some. The colors are totally original (cardboard Mint set holder type toning)

The obverse has circular rings of pearl green/amber/violet that open into a moderate gold center. We rank the obverse colors are 9+ on our 1-10 color scale (10 is the best) The reverse is just gorgeous too. There is a partial circle of pearl green/violet that opens into light sky blue color. There is a strong luster illuminating these colors The eye appeal is tremendous!

The last PCGS CAC piece to sell that was toned brought a whopping \$11,500 in April 2013. The toner buyers for sure will determine the value of this coin. Our estimate is only a guesstimate. We know there will be crazy strong bidding here!

PCGS# 5851 | ESTIMATE: \$3,500+

LOT 158**50C 1801 OVERTON 101. PCGS XF45**

Anyone who collects this series knows how difficult the 1801 half dollar is to find in attractive XF; most are lightly cleaned and are dull. This coin is a happy exception overall. Light silver-gray surfaces have a delicate, somewhat dappled rose, pewter, and coppery gold toning on both sides. Accents of surviving luster adds a depth to the eye appeal in the recesses of the design elements. There are a few tiny ticks here and there but none are detracting to the overall good eye appeal.

PCGS 20, NGC 11. The last one to sell sold very cheaply, considering previous auction results, bringing \$5,280 in the 2018 ANA auction. A CAC-approved coin brought \$9,000 in a May 2017 Internet only auction. The current PCGS value is listed at \$9,250. Keep in mind that an AU coin is worth about \$13,000-\$15,000.

PCGS# 6064 ESTIMATE: \$5,000+

**LOT 157****25C 1958 PCGS PR68+ DCAM**

It is amazing that a coin housed in the original cellophane holder could survive in such spectacular condition! Not only is this coin SUPERB in every way, it is also among the absolute finest known! Ultra deep mirrors contrast against the highly frosted devices. Visually FLAWLESS, even with a powerful loupe, there are ZERO imperfections!

PCGS 1, NGC 0. Only five coins are graded finer. While this SUPERB GEM has not sold in auction, a PR69 sold for \$6,300 in February 2018. We think this coin will sell for a price over the suggested PCGS Price Guide value of \$1,850. Good luck!

PCGS# 95990 | ESTIMATE: \$1,800+

**LOT 159****50C 1807 DRAPED BUST. NGC AU58**

A lovely, high Condition Census O-103. A brilliant frosty luster glows on both the obverse and reverse. A dusting of pale pearly-silver, gray and gold toning takes up the majority of the surfaces, while the peripheries, especially on the right sides show a deeper rose, gold and light blue iridescent toning. As typical for the date, there is some light weakness of strike in the center of the obverse, but the corresponding area of the reverse is fully rendered by a precise blow from screw press. Struck from a heavily clashed state of the dies, but before the dies began to crack, as listed for O-103a.

PCGS 67, NGC 72. We believe this to be the Queller coin, listed as CC#2 in the Spring 2018 revision of the AMBPR. The two most recent NGC AU58s were a different variety, both selling in 2014 for \$6,463. The current PCGS Price Guide value is listed at \$7,250. Keep in mind, these are very scarce in Mint State.

PCGS# 6079 ESTIMATE: \$5,000+

**LOT 160****50C 1808/7 PCGS AU50**

O-101. A wonderful, collector oriented grade, with medium pewter and lilac toning that yields to olive, gold and powder blue. Sharply struck up devices show off good definition despite some minor friction. There are a few minor scratches that we note under the tone and are totally unobtrusive to the eye appeal. This is NOT a dull example, like so many happen to be.

PCGS 29, NGC 12. The current PCGS Price Guide value is listed at \$1,775 and the most recent example sold in February 2018 for \$1,500. As the first overdate variety in the Capped Bust series, this pleasing AU coin will fit nicely in any Red Book set of collector grade Bust halves.

LOT 161**50C 1809 XXX EDGE. PCGS XF40**

O-102. Easily identifiable by the row of segments above the eagle. Delicately toned over lightly worn surfaces. The eye appeal is nice for the grade.

PCGS 38, NGC 2. The last one to sell was CAC-approved and realized \$1,020 in June 2018. This eye appealing example will bring somewhere around that level. The current CU value is listed at \$1,250.

PCGS# 6093 | ESTIMATE: \$900+

**LOT 162****50C 1811/10 PCGS AU58**

O-101. A later state of the dies the stars and legends drawn to the edges with little to no milling left on both sides. Lustrous silver surfaces are brilliant in the centers and there is a dusting of gold iridescence and richer pewter-dove. Boldly struck devices show only the slightest hint of friction keeps this lovely 1811/10 out of a Mint State holder.

PCGS 20, NGC 10. The current PCGS Price Guide value is listed at \$6,500 and the most recent examples have sold in the general \$4,000-\$6,000 range. A good looking coin like this will see strong bidding from early half dollar specialists.

PCGS# 6099 | ESTIMATE: \$4,000+

**LOT 163****50C 1811 SMALL 8. PCGS AU58**

O-106. A frosty, lustrous AU58 with all the attribution points for this R-3 variety clearly visible. A few stray lines are perhaps the reason CAC did not bear this flashy early date Bust half. The eye appeal is very nice and is not a dull AU coin.

PCGS 93, NGC 80. The current PCGS Price Guide value is listed at \$2,700 and the most recent example to sell in auction was CAC-approved and realized \$3,410 in January 2018. Non-CAC coins have sold in the \$1,500-\$2,000 range. This one will be a great addition to any set of Capped Bust half dollars or an AU58 type set.

PCGS# 6097 | ESTIMATE: \$1,300+

**LOT 164****50C 1812 PCGS AU58**

O-105a. Offering near full mint luster on both sides, this frosty AU58 has a vibrance that you normally only see on Mint State coins. Nicely struck, the devices show only the lightest touch of friction. Struck from a shattered obverse die with multiple die cracks, this coin has a lot of charm and good looks, enhanced by a touch of delicate gold-peach at the rims.

PCGS 132, NGC 86. The last one to sell realized \$1,560 in June 2018 and the current PCGS value is listed at \$2,150. An excellent example for any collector.

O-109. This is a truly noteworthy Mint State Capped Bust half dollar. Well struck with fully formed devices and legends. Fully frosted with medium lilac-dove toning with subtle golden highlights. A thoroughly pleasing example of this very popular type.

PCGS 52, NGC 3, CAC 15. The current PCGS Price Guide lists value at \$2,250. We last sold an example of this date at auction in December 2016 where it realized \$2,350 which was NOT CAC. A pleasingly original and high-end coin for the Bust Half enthusiast.

PCGS# 6166 | ESTIMATE: \$1,500+

**LOT 166****50C 1825 PCGS MS62 CAC**

A condition census O-103, which is a scarce R-4 variety. FRESH to the market and housed in a first generation PCGS slab. Wonderfully original, this coin has the initial look of a higher grade. The devices are sharply struck and there are no major marks, lines or any distractions on the satiny surfaces. Rich album toning rings both sides, and the eye appeal is exceptional. NOTE: The old PCGS encapsulation has a few cracks.

PCGS 86, NGC 76, CAC 11. The last PCGS/CAC example sold for \$1,528 in February 2017. More recently all PCGS MS62s have sold for more and the current PCGS value is listed at \$2,150. We think this example should bring a very strong price.

WOW, what a great looking GEM early Seated half! Totally original, this impressive, near-Gem early Seated half was boldly struck on both sides, with full definition of the devices impressed on both sides. A strong mint frost comes through the light pastel toning in

shades of gold, olive, sky-blue, emerald, and peach coloration. This GEM has a great old-time collection look, reminiscent of what you would see on an Eliasberg or Norweb coin. Worthy of a superb set of Seated Liberty halves or type coins.

PCGS 5, NGC 3. Just two coins are graded finer. This GEM appears to be the former NGC MS66 from the Gene Gardner auction of October 2015, which realized \$12,925. Gene's duplicate was a PCGS MS65 CAC that sold for \$8,225—a coin he paid \$11,750 in July 2013. The current PCGS value is listed at \$10,500. With just two examples graded finer at PCGS, this GEM will delight any picky collector. Good luck!

**LOT 168****50C 1861 PCGS MS66 CAC**

What a great time keeper of our Civil War era coinage. This coin is a dazzling HIGH END piece. How this survived the Civil War and 157 years is beyond comprehension. Not only did it survive, it did so in such an awesome way!

Splendid surfaces have just a tiny scattered tick or two that can only be seen with a glass.

The surfaces have a thick satiny texture. A surprising strong luster beams from all over.

Absolutely gorgeous toning consisting of original moderate hues of green, blue, gold, rose, pale magenta swirl all over on both sides.

You want a 157 years old GEM to look like this Miss Liberty and the details are delicately frosted and are fully struck. The eye appeal is beautiful!

PCGS 17, NGC 3, CAC 12 (hmmm there was clearly a resub on a coin). The last PCGS CAC piece to sell in auction brought \$13,513 in our December 2015 Regency Auction. These do not exactly grow on trees! This will make a great addition to any GEM MS Seated set, Civil War set, or Type set. We sure do not see these often.

LOT 169**50C 1873 ARROWS. PCGS MS64 CAC**

For the assigned grade, this 1873 half dollar is gorgeous and totally original. We love the look! First the obverse fields have a touch of reflective sparkle that bursts from under the highly attractive blue, green, rose, and gold toning. Crisply and fully struck up with full definition on both sides. A strong glass reveals a few minute lines, that limit the grade, but not the excellent eye appeal.

PCGS 44, NGC 19, CAC 13. The most recent example realized \$3,000 in the 2018 ANA auction and the current PCGS price is \$2,850. There are records in the \$4,000+ range from 2016 and earlier in 2018. Worth of a strong bid from type or date collectors, we love the look of this near-GEM

PCGS# 6343 | ESTIMATE: \$2,600+

**LOT 170****50C 1877 PCGS MS66+ CAC**

Visually, this 1877 half dollar is beyond incredible and high end! It has a stunning, totally original look, and its quality is all there and then some! A bold frosted, satin sheen glows with a pearly brilliance on the obverse. A dusting of clear-gold, opal-like glow. A rim tone with a richer golden hue, orange and magenta accents. While not PL, the highly frosted fields do stand out with almost a cameo like effect when viewed at different angles. The reverse has a much more flashy mint luster that radiates from all over. This coin has a stunning look that any collector, even the most jaded, will fall in love with!

PCGS 30, NGC 11, CAC 15. There are 11 graded 66+ (likely including duplication), and just two coins graded finer at PCGS. The most recent example to sell realized \$6,900 in April 2018. Prior to that, there were three sold in 2017 for \$6,300 and \$7,050. The current PCGS value is listed at \$8,950. The two finer PCGS coins have never sold in auction, so this is currently the FINEST you will be able to buy! Not only would advanced Seated Liberty half dollar collectors go crazy for the high end SUPERB GEM possesses!

PCGS# 6355 | ESTIMATE: \$5,750+

**LOT 171****50C 1878 PCGS MS66+ CAC**

A truly amazing and high end SUPERB GEM Seated half that has been carefully stored since it left the mint! It is tied for FINEST graded!

Immaculate surfaces are smooth and have not even the smallest distraction anywhere. Using a strong glass will only impress you even more. A strong luster enhances the totally original colors of olive/pale evergreen light purple that dominate the obverse. The reverse has the same shades

only darker (probably sat on felt). Miss Liberty and the details are frosty and are fully struck. The eye appeal is terrific.

PCGS 5, NGC 0, CAC 3. PCGS has graded just two in MS66+ as the FINEST they have seen, and NGC has not graded anything higher than MS65. This was the last PCGS CAC coin to sell in auction, bringing \$12,925 as a 66 in April 2017. Prior to that, it brought \$21,150 in June 2014. In MS66+ the current PCGS value is listed at \$20,000. You're certainly not going to see the others being offered in any frequency! This is a GEM bound for the FINEST of sets!

PCGS# 6358 ESTIMATE: \$16,000+

**LOT 172****50C 1884 PCGS MS66**

The original mintage of only 4,400 these 1884 halves often come with bold Prooflike surfaces. This one is quite reflective, and depending on the angle that you view it, it could be mistaken for a moment for a Proof. Sharply struck devices stand out with a nearly cameo-like look on the reverse. There is a dusting of silvery/pearly iridescent tone with accents of clear gold. The eye appeal is very pleasing.

PCGS 19, NGC 12. These do not come up for sale that often, the last non-CAC example sold in October 2015, during Part 4 of the Gene Gardner Collection; that coin brought \$5,170. More recently the 2017 ANA auction a CAC approved example sold for \$7,050. The current PCGS Price Guide value is listed at \$6,750. There are a dozen coins graded finer at PCGS. This coin will be a wonderful addition to any set!

**LOT 173**

50C 1890 PCGS MS67 CAC
An AMAZING SUPERB GEM!

Clearly this beautifully toned example is one of the FINEST KNOWN of this low mintage date. With only 12,000 struck, this was a rarity from day one.

Exceptionally lustrous fields are aglow under a sumptuous melange of rainbow iridescent toning that gently coats both sides. Impressive violet, blue, gold, orange, and teal hues blend together inspiring a wonderful eye appeal. Satin smooth surfaces and sharply

struck up devices show no imperfections, even when carefully viewed under a strong glass. What an amazing coin!

PCGS 5, NGC 5, CAC 3. Every bit as nice (or nicer) as the Malibu Collection coin sold in November 2010 for \$31,625. This coin sold more recently for \$22,800 making the current Collector's Universe value of \$17,500 useless for a high end coin like this! There is just a single MS67+ finer, a coin which has never sold in auction. A great coin for any Seated half dollar set or high end type set, we can see this coin selling well in excess of our estimate range!

PCGS# 6372 ESTIMATE: \$18,000+

50C 1862 PCGS PR64+ CAM CAC

Sharply impressed with full squared rims and strong details. The mirror fields glitter and contrast nicely with frosted central design elements. Light golden-blue toning attests to this coin's careful long-term storage. Most proof coinage in the 1850's and 1860's is scarce, including the 1862 of which 550 were produced.

PCGS 14, NGC 9, CAC 4. PCGS has graded only a single PR64+CAM. Only 22 have been graded higher. PCGS price guide lists value as \$4,000. A PCGS PR64CAM CAC appeared at auction in January 2014 and sold for \$4,348. A rare opportunity for the Seated Liberty and Civil War specialist.

PCGS# 86416 ESTIMATE: \$4,000+

**LOT 175**

50C 1892 PCGS MS65+ CAC

The first year of the Barber series is not rare in an absolute sense, but it is somewhat scarce in GEM. However, demand for a first year of issue has always kept this date very popular. The present GEM is ever so close to an even higher grade, perhaps the minor reading mark on Liberty's neck is all that keeps it from a 66. The surfaces have a rich, brilliant mint luster that ranges from satiny with a bold frost to areas of the reverse that are somewhat reflective with a near PL sheen. Both sides are untuned with a shimmering pearly-silver that is just wonderfully original and highly eye appealing.

PCGS 118, NGC 81, CAC 34. There are only FOUR coins graded MS65+ at PCGS. The most recent PCGS MS65 CAC sold for \$1,800 in June 2018 and a PCGS MS66 CAC sold for \$3,080 in our July 2018 Premier Session. In 65+ the PCGS Price Guide value is listed at \$2,450. Worthy of a home in any GEM Set and a great way to start a new collection!

PCGS# 6461 | ESTIMATE: \$1,500+

**LOT 176****50C 1895 PCGS MS65+ CAC**

Totally original and what a marvelous GEM example of this date. Obviously the first thing that attracts your attention is the original toning. Light iridescent tea, lilac, russet rose, and olive gold patina drapes over the entire surface of the obverse. The satin-frosty luster below the toning brings out the subtle differences in the hues on the obverse. The reverse has more of a strong, rolling cartwheel luster with some flashy accents. The devices are sharply struck and frosty. A halo of gold tone frames the reverse giving it a very stunning look. There are only a few tiny marks on the cheek. The eye appeal is very high end and this has a really classic look!

PCGS 21, NGC 9, CAC 6. The ONLY PCGS CAC MS65 to sell in auction was back in March 2009! Even nearly a decade ago, that coin brought \$3,738. The most recent PCGS coin sold for \$3,960 and was NOT CAC (in the 2018 ANA auction). Only 11 coins are graded finer, and this one will command a premium bid.

PCGS# 6471 | ESTIMATE: \$2,800+

**LOT 177****50C 1895-S PCGS MS63 CAC**

We like the look of this pleasing CHOICE Mint State Barber half. A very bold, luster, which is very vibrant for the assigned grade. Icy silver brilliance has some frosty, some satiny, and some cartwheel accents combining to give this coin a look that is far superior to what you would expect of a 63. The details are wonderfully crisp, and the reverse is framed by a lovely dappled eggplant and russet tone. The eye appeal is superb.

PCGS 38, NGC 21, CAC 4. The last PCGS/CAC coin sold in June 2015 for \$1,704 and the current CU value is listed at \$1,500. Scarce any finer, this coin has a great look for the grade.

PCGS# 6473 | ESTIMATE: \$1,300+

**LOT 178****50C 1896-O NGC AU55 CAC**

WOW, is this fully CHOICE AU 96-O half totally ORIGINAL. A very pleasing collector graded example that has a rich olive-pewter gray coloration with tinges of old gold. The wear is limited to just a touch of light friction on the high points and in the fields.

PCGS 11, NGC 7, CAC 5. The only CAC-approved coins sold in 2011 and 2012—that is a long time for one to not appear, the most recent was an NGC/CAC coin to sell in \$2,990 which was in July 2012. The current Collector's Universe value is \$5,000, and the value nearly doubles in AU58.

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

50C 1898 PCGS MS67

An amazing Barber half dollar, tied with just a single coin as **FINEST GRADED**, and this coin is a real **SUPERB GEM!**

A beautiful, bold, and brilliant satin mint frost blooms all over on this impressive MS67. The surfaces, as expected, are satiny smooth and display zero imperfections visible to the naked eye; even under the closest scrutiny with a strong glass, you cannot find anything more than a tiny tick or two, mostly hidden under the delicate pastel toning. Shades of light blue, lilac, olive, gold, and pearlescent iridescence dusts both sides, giving a wonderful dimension to the coin, accenting the sharply struck up devices. Every detail is rendered to its finest advantage. The eye appeal is without a doubt stunning and totally original; everything about this coin screams high end quality and you will be hard pressed to find a better one!

PCGS 2, NGC 0. The only other MS67 is the Date Friend-Greensboro coin that sold in the 2009 FUN Auction for \$57,500 before selling for \$37,600 in the weak market of October 2015. The current PCGS Price Guide value is listed at \$48,500. This coin is truly worthy of any top ranking PCGS Registry set of Barber half dollars. If you are the high bidder on this **SUPERB GEM**, we congratulate you for putting an amazing coin into your collection, well done!

PCGS# 6480 ESTIMATE: \$30,000+

**LOT 180****50C 1900-S PCGS MS64+ CAC**

A glittering near-GEM! Intense cartwheel luster rolls smoothly on both sides, accenting a moderately reflective texture in the fields. The sharply struck devices are frosted and do stand out with a strong vibrance. Copper-russet tones are delicately scattered on the surfaces giving this beauty its amazing look. A tiny tick or two are all that keep this remarkable coin from a FULL GEM grade and a five-figure price tag. Despite a generous mintage of over 2.5 million, this date is surprisingly rare in such a high grade.

PCGS 23, NGC 9, CAC 10 This is the only MS64+ graded at PCGS and is NOT the 64+ reported at NGC. That coin sold for \$4,818 in July 2017. The current PCGS Price Guide value is listed at \$4,750 and keep in mind the last PCGS/CAC MS65 sold for \$11,163 in June 2017. Bound for a GEM set, as the eye appeal is all there and then some!

PCGS# 6488 ESTIMATE: \$4,250+

**LOT 181****50C 1904-S PCGS MS64**

We are pleased to present this choice 1904 S half dollar. Scarcer than you would think based on the mintage, the 04-S is a major condition rarity in the Barber half dollar series. This date always attracts lots of attention in Mint State grades, especially as you climb the ladder. One theory we have read on this is the major 1906 San Francisco earth quake and fires were responsible for large numbers of banks, homes, and businesses being destroyed, and along with them, perhaps large quantities of these half dollars.

The surfaces are smooth and devoid of all but the most insignificant little ticks that can only be seen with the aid of a powerful loupe. Lightly toned with pastel iridescent hues that gently form a halo on the obverse rim. As you rotate the pearly-lustrous surfaces in a light, the subtle hues come out. The eye appeal is very pleasing.

PCGS 36, NGC 3, VERY RARE any finer! The last time a non-CAC PCGS coin sold in auction was back in November 2009, realizing \$18,400. The two most recent were CAC approved and sold for \$20,400. The current Collector's Universe value is listed at \$25,000. These are extremely rare any finer, with just nine coins finer at PCGS. A great addition to any set of Barber halves, good luck!

PCGS# 6500 ESTIMATE: \$16,000+

**LOT 182****50C 1907-S PCGS MS64 CAC**

This is a very appealing near-GEM example. While 1,250,000 were struck, most were placed directly into circulation and are very rare in MS64 or finer grades. Radiating mint luster blooms on both sides that swirls with bold rolling cartwheels. The only reason we can see that this brilliant silver coin is not graded higher are a few minor marks on Liberty's cheek, but the eye appeal is overall very nice for the assigned grade.

PCGS 9, NGC 8, CAC 2. The last CAC approved example sold in auction back in March 2014 selling for \$6,463. More recently two non-CAC coins sold for \$7,315 and \$7,638 (that the most recent in April 2015). The current PCGS value is listed at \$8,500. VERY RARE finer, just 18 are graded finer at PCGS.

PCGS# 6511 | ESTIMATE: \$5,250+

LOT 183**50C 1913-S PCGS MS65+ CAC**

A lower mintage date, with only 604,000 struck and needless to say, this is a conditionally RARE issue with few that survive in GEM or finer grades. This coin is very pleasing and satiny with a great pearly-silver and gold look. Sharply struck up, the surfaces show only the slightest hint of contact with other coins that can be seen with a strong glass. None of these have any impact on the superb eye appeal.

PCGS 13, NGC 18, CAC 5. This is the ONLY MS65+ graded at either service and has not sold in auction. There has not been a PCGS MS65 sold in auction in almost nine years--we told you they are rare! The current PCGS Price Guide value is listed at \$5,000 and keep in mind that a PCGS/CAC MS66 would likely cost \$15,000. This coin presents a great value as well as great look and will fit in very nicely into any GEM set of Barber halves.

**LOT 184****50C 1900 PCGS PR65 CAM CAC**

Beautiful, GEM CAMEO Barber half! Fully frosted devices stand out against deeply reflective mirrored fields, in fact the reverse borders on a DCAM classification if taken on its own. A touch of peripheral toning at the rims frames both sides and gives the eye appeal a little extra "pop."

Only 912 proofs were struck. PCGS 20, NGC 7, CAC 6. The most recent example to sell in auction realized \$1,939 in our July 2018 Regency Auction. Prior to that even non-CAC coins were selling in the \$2,280 to \$2,760 range. The current PCGS Price Guide value is listed at \$3,150. A nice, original coin like this will attract strong bidding.

"Totally magnificent! You can tell the collector who consigned this coin had a very good eye. The mirrors are super deep, crystal clear, incredibly reflective, and have amazing clarity. A killer mix of original golden brown/ honey/ blue/ pale green swirls all over. Miss Liberty and the details are frosted a silvery white and have needed sharp strikes This is a really special 1907 Proof Barber Half!"

Only 575 proofs were struck. PCGS 18, NGC 36, CAC 7. This coin is the only CAC approved example to sell in auction, realizing \$4,600 in the December 2013 Regency Auction. A totally original example of this early date, conditionally scarce Walker. Vibrant, satiny surfaces show off a wonderful blend of gold and iridescent lilac-silver hues. Showing a better than average striking definition, this near-gem quality 18-S has a great look that will delight any collector of early Walkers.

PCGS 641, NGC 242, CAC 59. The last two PCGS/CAC examples sold for \$2,640 the 2018 ANA being the most recent. The current PCGS Price Guide value is \$2,350. VERY RARE in GEM grades, the last PCGS/CAC MS65 sold for \$38,400! This coin represents a great value for the collector!

**LOT 188****50C 1918-S PCGS MS64+ CAC**

The booming wartime economy required lots of coins in circulation, and the mint obliged with over 10 million half dollars churned out of the San Francisco mint in 1918. While not rare in low grades, it becomes scarce in MS64 and progressively rarer the higher on the grading scale you go. The present 64+ is a great coin for the collector.

Brilliant, satiny mint luster blooms throughout the surfaces, which are of essentially GEM quality. We see no distracting marks or lines, but the central devices show some typical weakness of strike. The eye appeal is nice for the grade.

PCGS 520, NGC 254, CAC 60. There are 59 graded MS64+, the most recent of which sold in August 2017 for \$3,525. The current PCGS Price Guide value is listed at \$4,350. **LOT 189****50C 1919-D PCGS MS64+ CAC**

Sometimes we wonder what the services were thinking when a coin crosses the grader's desk. What did they see when grading this coin? To us, 64+ looks conservative! While we make no guarantees, we think this 1919-D is closer to MS65 grade than MS64. One look at this high quality example and you will agree its very HIGH END!

This is a major condition rarity in this series! A strong luster gleams and glows from all over on this totally original early Walker. The satiny surfaces are smooth and incredibly clean. If this was a common date, it would have likely graded higher. The devices are all sharply struck up, there is just a hint of the slightest weakness on Liberty's head. There is a tiny tick in the obverse but it does not affect the amazing eye appeal. The luster brings out the subtle lilac, icy blue, pale gold and light rose comes out in the light. Overall this is one of the nicest examples we have had the pleasure of offering!

PCGS 91, NGC 77, CAC 22. There are seven coins listed in 64+, and we believe that there is some duplication in the pops. The Population in MS65 is 11 and 1 in 66. While MS64+s have sold in the \$32,000 to \$41,125 range these are \$200,000+ coins in MS65. This one, being so high end for the grade is certainly worthy of a premium bid and will sell for more than the current PCGS value of \$42,500. A great coin for any PCGS Registry Set.

If this coin were handed to us in a MS65 holder, we would not flinch. We fully grade this coin MS64.8+++. Prior to certification, we can see this coin being called an MS65. Obviously, we are more pinpoint today.

Extremely clean surfaces are a delight to behold. Even the dreaded right obverse field is clean. All the surfaces are super clean and are satiny. A full booming luster screams

out from all over. Both sides are a booming white. Miss Liberty and the details are above average in strike. You do not need a glass to see her head or thumb's fullness. The eye appeal is jaw dropping for a 20-S!

Truly a special 34-S! While the sharp strike and brilliant satin luster are both dynamic characteristics of this GEM, what is really special about this AMAZING coin is the bold, beautiful multicolored toning that adorns both sides. Shades of blue, gold, rose, orange, and magenta frame the obverse, while a swath of sky blue dramatically graces the central obverse. The reverse is dusted with a pastel blue iridescent toning that really delights the eye.

PCGS 305, NGC 112, CAC 31 Here is a coin that you can just toss out the price guides and ignore the auction records, except for the \$7,931 that this coin that sold in our May 2018 Regency Auction. 50C 1942 PCGS MS67+ CAC

Impeccably preserved and intensely lustrous **SUPERB GEM**. A vibrant, glowing, mint blooms on both sides bringing the satin smooth surfaces to life and accenting the delicate lilac-gold toning. The devices are boldly impressed, showing crisply defined details. Extremely rare any finer!

PCGS 370, NGC 373, CAC 196. The PCGS Population in 67+ is 32, and only half a dozen coins have graded finer, all MS68. The most recent MS67+ to sell in auction was a PCGS/CAC coin that sold in our May 2018 Regency Auction for \$2,350 and the current PCGS Price Guide value is listed at \$2,750. The last MS68 sold for \$16,450 and that was nearly five years ago! Good luck!

**LOT 200****50C 1943-S PCGS MS67**

Here is a wonderfully lustrous and SUPERB 43-S half. The sharply struck devices are accented by a visually impressive luster that beams from the fields on both sides. A touch of pastel toning forms an arch of color at the upper obverse periphery. We note just a tiny touch of softness in strike in the centers and a strong glass reveals a tiny mark on the eagle's chest.

PCGS 45, NGC 26. The last non-CAC example to sell in auction brought \$5,738 in our September 2015 Regency Auction. The current Collector's Universe value is listed at \$5,000. There is just a SINGLE coin finer at PCGS, graded 67+. This SUPERB GEM will attract fierce bidding to be sure! Good luck!

LOT 201**50C 1946-D PCGS MS67+ CAC**

One of just seven graded MS67+ with NONE FINER, this remarkable SUPERB GEM has a spectacular look!

This is a truly amazing and SUPERB GEM. Boasting swirling, brilliant mint frost blazes on both sides, the obverse has a stunning arch of rich crimson and pine-green. Looking at this coin with a strong glass you will be unable to find even the slightest flaw of any kind! The details are fully struck up and the eye appeal is excellent!

PCGS 119, NGC 131, CAC 58. There are only seven coins graded MS67+ and the last CAC-approved example sold for \$9,600 in June 2018 and prior to that, one brought \$10,575 in April 2017. Neither of those had the stunning looks imparted by the impressive luster and toning. Worthy of a very strong bid indeed!

LOT 202**50C 1947 PCGS MS67+ CAC**

Mother Nature got a hold of this piece and did some of her best work here. Plus, technically this coin is all there and then some! You can clearly see the surfaces are smooth and have no problems. A full glowing luster also beams all over. Miss Liberty and every detail are so sharply struck you do NOT need a glass to see them with. There is no question this coin has sat totally undisturbed for 71 years -most likely in a cardboard Mint Set holder. For sure this coin has never been messed with. Now for the absolute highlight of this coin-its incredible

colors. Both sides enjoy moderate shades of totally original reddish brown/reddish gold/pearl green/violet/amber colors that are evenly spread all over. The colors are iridescent and are far from dull. The eye appeal is just jaw dropping!

PCGS 80, NGC 70, CAC 25. PCGS has graded 6 pieces in MS67+. The last one to sell in auction brought \$9,400 in February 2015 (this coin had no colors anywhere close to the coin offered here). We expect fierce bidding on this killer toned Walker.

Don't forget, it's a real MS67+ too!

**LOT 203****50C 1941 PCGS PR68**

SUPERB! WOW! This beautiful example is totally original and offering a wonderful look. The mirrors are deep and bold, offering an exceptional clarity below the iridescent tone. Remarkably well preserved and we are not exactly sure why CAC did not sticker this handsome coin.

PCGS 27, NGC 51. The last example to sell without CAC approval realized \$6,463 in July 2017. The current PCGS Price Guide value is \$6,500 and there are just three coins graded higher, all PR68+ (and one of those sold for \$18,800 in our May 2018 Regency Auction). A highly appealing coin that would be a great addition to any set of Proof Walkers.

Blistering mirrors dance in the light and provide dramatic contrast to the frosty white reliefs. The eye appeal is superb, and keep in mind that in DCAM this date is very rare.

PCGS 78, NGC 213, CAC 50. In the Cameo designation, there is just a SINGLE coin numerically finer at PCGS. The last two PCGS/CAC coins sold in our October 2017 auctions, realizing \$1,028 and the PCGS Price Guide is listed at \$1,050. Keep in mind that a PR68 DCAM would cost \$10,000+.

Among the finest certified examples, this Premium Quality GEM has a great look. Highly lustrous surfaces coin has multicolored, dappled toning on the rims and brilliant silver on the central obverse, while the central reverse has wonderful orange, rose, red, gold, and green melange. The surfaces are essentially pristine and the eye appeal is very high end and original.

PCGS 172, NGC 42, CAC 29. There are only 15 in MS66+ FBL with just a 67 and a 67+ finer. We sold an example in our December 2016 Regency Auction for \$1,645. This coin brought \$1,560 in March 2018. The current PCGS value is \$2,000 and keep in mind that the two finer examples have never sold in auction, and may not for quite some time!

A truly SUPERB GEM JFK half dollar! With just four others graded MS67+ and a single coin graded finer, this is among the absolute FINEST 64-D halves in existence!

Highly lustrous surfaces gleam with a visually arresting vibrance. Pastel salmon, lime, and olive tone accents the boldly struck devices. It is amazing how few SUPERB GEMs survive, despite the huge mintage.

PCGS 5, NGC 1. Only two have ever sold in auction, one for \$2,101 and the other brought \$5,405. A single MS68 has ever been graded, selling for a record \$22,325 in our February 2016 Regency Auction. Bidding for this super JFK will see intense bidding for sure.

**LOT 207****50C 1964 PCGS PR69 DCAM**

A PERFECT example of the final 90% regular issue half dollar. After President Kennedy was killed in 1963, legislation was passed to replace the Franklin half with one featuring JFK's portrait. This beautiful example is tied for finest graded, there are NONE graded PR70 DCAM. The DEEP mirrored fields are FLAWLESS. Studying them closely with a strong glass you cannot find anything.

PCGS 100, NGC 131. The current PCGS Price Guide value is listed at \$1,250 and the most recent example brought \$1,560 in the 2018 ANA auction. We sold one in our January 2018 Regency Auction for \$2,233. A great example for a type set or to start a set of Proof Kennedy halves.

LOT 208**50C 1966 S.M.S. PCGS SP67 DCAM**

First off, this highly reflective SUPERB GEM looks like a real proof, not the hybrid that these Special Mint Set issues actually are. Bold, deep, watery reflective mirrors are certainly without flaw contrasting wonderfully against the frosted mirrors.

PCGS 38, NGC 205. The most recent example realized \$870, but earlier these were selling for \$1,440 and \$1,260. The current PCGS value is listed at \$1,850. RARE any finer, this coin will see strong bidding.

A SUPERLATIVE example with ULTRA deep mirrors that shine against the frosted devices. The SMS coins were a sort of hybrid between business strikes and proofs in an era when the mint was not producing proofs. This FLAWLESS beauty, at first glance does look like a full proof!

PCGS 18, NGC 20. The most recent example brought \$3,000 in the 2018 ANA auction (it may represent a buy back, as we sold \$4,818 in our October 2017 Regency Auction, and the current

**LOT 210****1C-50C 1942 6-PIECE PROOF SET. PCGS PR64**

A very cool set housed in FIRST GENERATION PCGS holders. Clearly a set that was graded 30+ years ago and just recently offered to us for auction. Each coin is totally original and has a great look, well matched, and graded PR64. For some reason (perhaps the obverse toning dots), the Type 1 nickel and the dime did not garner a CAC bean, all other coins have a green bean. The current combined PCGS Price Guide value is listed at \$915, but a set like this, in the first generation PCGS slabs should attract strong bidder participation—this lot is as FRESH as can be!

PCGS# 3353 ESTIMATE: \$800+

**LOT 211****\$1 1798 LARGE EAGLE. PCGS XF40**

B 25, BB 123 A very cool variety, noted as the Blundered Stars Reverse, where the stars were punched too high up in the design.

Struck from Die state III, with multiple obverse and reverse die breaks. Deep pewter and dove gray tone gives this large silver coin a great look. Despite the moderate wear the details show off a crisp strike that must have been nearly complete when the dies came together. There are a few unobtrusive, minor marks, all natural to the amount of wear this coin possesses.

PCGS 250, NGC 148. The most recent example realized \$3,300 in our May 2018 Premier Session auction, and we sold one in November 2017 for \$3,740. The current PCGS value is listed at \$4,000. A great type coin!

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 212****\$1 1801 PCGS AU58 CAC**

Ex. Flannagan Collection. This is one of the **FINEST** B-1, BB-211 dollars that exist!

This is not an AU55 scrubbed up to be an AU58! This coin is a **VERY** real AU58 1801 dollar! We can not stress enough the extreme rarity of this date in this condition.

Remember, our sister firm, Legend Numismatics, exclusively built the all time **FINEST EVER** Mint State Bust Dollar set-The Legend Collection. We know how these should come in AU and higher! This date does not come all that nice! This coin is from the Flannagan Collection—a complete set (yes, an 1804 \$1 was in it) we exclusively built and sold via auction in 1999! Overall, this coin has a remarkably clean and remarkably smooth surfaces. Even using a strong glass will only impress you more. A surprising luster beams from all over. Both sides are a totally original golden brown/deep pewter/purple coloration. Most important, the high points display minimal light wear/rub. There really are **NO** major discolorations. Miss Liberty and her details are extremely well defined and do stand out. The eye appeal is wonderful!

PCGS 23, NGC 18, CAC 5 **NO** PCGS CAC piece have ever been sold via auction, but we know this coin last sold in March 2009 for \$27,000 according to the PCGS Cert verify page. We can not stress enough how many Bust Dollars have been cleaned or played with over the years. Plus, grade inflation has made so many nice coins into so/so weak pieces. This 1801 is the real deal. Good luck finding another!

**LOT 213****\$1 1840 PCGS MS63+ CAC**

Legend Rare Coin Auctions is pleased to represent one of the greatest toned Seated Dollars it has ever seen. Not only does this coin have killer colors, it has VERY high-end quality.

Using a strong glass, we can see there are a few tiny ticks in the right obverse field. The balance of the coin's surfaces are exceedingly clean and smooth. A glowing luster can be seen all over. Of course, the luster enhances the toning. The obverse is blessed with magical and totally original colors of navy/evergreen/violet/gold which over 2/3 of the surfaces. The reverse has some splashes of toning. These are NOT dull or drab colors. Miss Liberty and the details are sharply struck. The eye appeal is amazing!

PCGS 8, NGC 8, CAC 4. PCGS has graded 2 in MS63+ (both handled by Legend at one time-including this coin). Of course, neither MS63+ has sold via auction. The current Collector's Universe Value is \$23,000. The last MS64 we handled sold in excess of \$65,000! Keep in mind, this special piece not only a real VERY HIGH END MS63+, it has something you ever ever see-real sparkling original colors. This coin would enhance any Type or Mint State Seated Dollar Collection. We assure you, there is nothing else like it (remember our sister company Legend Numismatics has built the world's FINEST EVER Mint State collections, and have seen it all). Opportunity knocks so loud you really need to be prepared here!

\$1 1855 PCGS MS62

This is a brilliant, frosty Mint State example of this scarce Seated Dollar date. Only 26,000 were struck and precious few were saved at the time of issue, this date is **RARE** in any Mint State grade.

Struck with the typical weakness seen on the wings, this lustrous coin has a great look. The grade in our opinion is spot on, with just a few light lines that keep it from a full **CHOICE** grade. The surfaces have a pearly-silver luster with

a pale, shimmering iridescent type of look that is better than decent.

PCGS 12, NGC 7. The last one to sell was CAC-approved and sold for \$14,400. A non-CAC PCGS coin sold in the 2017 FUN auction for \$13,513. We sold a PCGS/CAC MS61 in our April 2017 Premier Session for \$12,000 hammer. The current Collector's Universe value is listed at \$16,500 and keep in mind these are **VERY RARE** any finer! This is a great opportunity to add a nice Mint State piece for their date or type set.

PCGS# 6943 ESTIMATE: \$10,000+

\$1 1860-O PCGS MS64+

This is a very lovely example of this final New Orleans mint Seated dollar date. Many of the Mint State survivors were discovered in bags that were discovered in a treasury basement vault. Most survivors were heavily bag marked and grade MS60-MS62. Near-Gem examples like this are **VERY RARE** indeed!

Pearly silver lustrous surfaces glint in the light. Sharply struck devices stand out on the smooth surfaces. There is only the slightest hint of contact on both sides. The eye appeal is decent overall and should fit nicely in any set of Seated dollars.

PCGS 1, NGC 5. The last regular MS64 was CAC and sold for \$13,750 in an online only auction. F.Y.I. Legend paid \$65,000 for a 65 in 2013. We think the current PCGS value of \$9,500 may well prove to be low! Good luck!

PCGS# 6950 ESTIMATE: \$8,000+

**LOT 216****\$1 1873 SEATED. NGC PR65+ CAC**

Visually, this coin is worthy of its coveted "Star" designation for eye appeal. The obverse of this highly reflective beauty is a full cameo. The details are sharply struck up and have full white frost on them. A beautiful halo of blue and gold toning frame the brilliantly flashy, glass-like mirrors on the obverse. The reverse mirrors are likewise watery, but have much more depth to the overtone of blue and rose tones. The eye appeal is very strong, so it is easy to overlook the ancient lines on Liberty's torso. A delightful GEM that will be a real prize for the Seated dollar collector.

Only 600 were struck, PCGS 12, NGC 15, CAC 2. This coin recently sold for \$12,000 in the 2018 ANA auction and the other CAC coin, also an NGC-graded coin sold in June 2014 for \$11,750. Anything finer is going to cost about double (or more!), so this represents a great opportunity to acquire a great example of the final year of the series.

\$1 1873-CC TRADE, PCGS MS64

Legend Rare Coin Auctions is proud to offer one of the **FINEST GRADED 73-CC Trade Dollars!** This is a series that we are very intimately familiar with, as our sister firm, Legend Numismatics, helped our partner, Bruce Morelan build the **FINEST** set. We know how each date comes. With that expertise and experience in mind, we can say with confidence that this coin is really all there!

A brilliant underlying mint luster blooms through the dappled, multihued blue, gold, peach, rose, and lilac-silver toning. The eye appeal is augmented by a crisp strike with just a hint of softness on the eagle. Only under intense scrutiny can you see any marks, but they are tiny, hidden, and essentially invisible to the naked eye.

The Trade Dollar was introduced as a way to convert excess silver supplies being mined from the Comstock Lode in Nevada. In 1873, the mintage of silver dollars for domestic use was ended, and the Trade Dollar was introduced to export silver to the Far East, where Mexican Pesos were the dominant trade coin. In all 124,500 Trade Dollars were produced in Carson City in 1873. This is a fairly available date in circulated grades, in Choice Mint State or finer, this date is **VERY RARE**.

PCGS 6, NGC 7. This coin last sold as an NGC MS64 in April 2018, realizing \$38,400. It is very visually alluring, and should bring more than the frosty silver example that brought \$31,200 in the 2018 ANA auction. The NGC MS64 CAC that sold in the 2018 FUN auction for \$55,200 has also since crossed to PCGS. The current PCGS Price Guide lists a value of \$56,500. Only a single coin is finer (The Vermeule-Morelan Collection coin).

PCGS/CAC MS65 is now residing in the Black Cat Collection and will not be available anytime soon. Bound for a **GREAT** collection of Trade Dollars, this near GEM will see very spirited bidding. Good luck and congratulations!

Here is a very high end Trade dollar for the type or date collector. Showing off a frosty mint luster that blooms on both sides (unusual for an 1877). Delicately toned with a hint of pearly clear gold tone that dusts over the highly lustrous surfaces. Each detail is fully rendered from an exacting blow from the dies and the surfaces show only a few light marks, that are only visible with a strong glass. The eye appeal is very nice, great for any collection

PCGS 80, NGC 63, CAC 16. There has not been a PCGS/CAC example sold in auction since April 2013, when one sold for \$3,819 and another for \$3,290. A great looking coin like this does not appear very often and this date is VERY RARE any finer!

This coin is not only SUPER HIGH END, but it is also FULL Legend quality, and even full Bruce Morelan quality (former owner of the #1 all-time Mint State set). If all MS63's looked like this, they be \$5,000 coins! The surfaces are amazing. Ticks and lines are so few that unless you look really hard, you don't see any. You will still be impressed by the smooth surfaces and cleanliness even when using a strong glass. The luster is bold and you can see the totally unbroken cartwheel from across the room. There is a slight hint of auburn like toning on the rims only. The balance of the coin is a vibrant silvery white. Clearly this coin has never been messed with. ALL of the details are heavily frosted and are fully struck. The eye appeal is super gorgeous!

PCGS 221, NGC 143, CAC 21. The last PCGS CAC piece to sell in auction brought \$1,410 in August 2017. We will challenge this coin's quality and eye appeal vs ANY MS63! Even if you do not collect Trade Dollars and wanted one special really nice coin-here it is! Seemingly believing!

This is a beautiful Premium Quality GEM 78 Trade Dollar in a spectacular grade. What an amazing Proof! Dusky gold and rose shades cover both sides with a regal elegance seldom found and always appreciated. The rims offer deeper blue which lightens to crimson and russet in the fields. Glorious reflectivity in the fields which is undiminished by handling marks!

The mirrors offer a bold, flashy, watery reflection that is stunning. Only 900 Proofs were struck and this is one of the absolute FINEST, not just in terms of technical

quality, but in terms of eye appeal as well! Only six are graded this high with a cameo designation with a scant three finer! That gives the buyer a pretty clear indication of how rare this Trade Dollar is when found so well preserved.

PCGS 6, NGC 3, CAC 1. This is the only CAC coin at this grade level with the CAMEO designation. We sold this GEM in our October 2015 Regency Auction for \$10,869 and there was a previous record for this coin at \$11,750.00 (1/15) which we feel is too low! The current PCGS value is listed at \$14,000 and in the CAM designation, PCGS has graded just two coins finer. Just one look at this impressive Trade dollar, and you will fall in love for sure!

The surfaces show off an iridescent silvery gold on both sides attest to the originality. We do like the look and since this date is **VERY RARE** any finer, it will find itself at home in any GEM set.

We saw this coin from the table next door. At first we thought it was a full MS66 DMPL (we have seen worse in holders). When it was passed over to us, we were **WOWed**. This is one **VERY** high end MS66PL! Extremely deep mirrors are near miss 8" and DMPL status. They blaze bold from all over. The mirrors are also super clean and super clear. The cameo contrast is really strong. The minor grease dot (from striking) is light. Miss Liberty and the details are thickly frosted and are fully struck. What can we say? At first glance it looks like a DMPL. The eye appeal is great!

PCGS 29, NGC 14, CAC 11. The last one to sell in auction brought \$3,240 in the 2018 FUN auction. Because of its flash and quality, we paid much more than that!

**LOT 230****\$1 1881-O PCGS MS66**

If we owned CAC, we really would have stickered this coin. To us, we just do not see what they did but of course they win.

Remarkably clean and sleek surfaces are a joy to behold. We have seen countless examples of this date hacked up with deep bag marks. This coin only displays some minor lines and a few widely scattered tiny ticks. The luster on this piece is amazing. It's like a full booming sky light you can see from yards away. Both sides

are a beautiful classic white color. This coin does not look like it was messed with in any way. Miss Liberty and every detail are sharply struck and have lots of frost. Her check is way above average in cleanliness. The eye appeal is remarkable!

PCGS 45, NGC 9. The last PCGS MS66 to sell in auction brought \$6,756 in July 2018. The current Collector's Universe Value is \$10,000. We can see this coin easily enjoy strong bidding-especially from people who see it in hand. We invite you to check it out!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

Tied for **FINEST** graded! This coin has such an original look, it will delight any collector that wants their coins to have character!

Extremely clean surfaces show off a strong, blazing mint luster that rolls from all over. The boldly struck devices are quite crisp for an O-mint, with just the slightest touch of weakness in the hair curls above Liberty's ear and eagle's breast feathers, everything else is fully and crisply struck up and fully rendered. The surfaces are especially clean and free of any marks, and the only lines are mint made die striations on the reverse. A dusting of toning on the obverse and reverse, the most eye catching of which is a tab of rainbow over **DOLLAR**.

PCGS 51, NGC 8, CAC 7. There are only MS66+ graded at PCGS as **FINEST** for the date. The only one to have ever sold in auction is the Coronet Collection coin that we sold for \$39,950 in our June 2015 Regency Auction. This coin has a totally different look, that coin having been blast white. The current PCGS value is listed at \$35,000.

This lightly toned example will entice strong bidding from collectors looking for the **FINEST** Morgans graded!

**LOT 232****\$1 1881-O PCGS MS64+ DMPL CAC**

Whoa! The mirrors on this sharply struck DMPL 81-O really catch the light and have a seriously bold flash. The raised reliefs have a great frost, that provide a decent contrast against the mirrored fields. The delicate nature of the DMPL surfaces does amplify the few tiny scuffs, but nothing is serious to negatively affect the high end eye appeal.

PCGS 456, NGC 131, CAC 110. PCGS has graded 57 in MS64+ DMPL. The last few specimens that have sold in auction realized between \$1,400 and \$1,800. The current PCGS Price Guide value is \$1,750 and keep in mind that the value jumps to \$11,000 in MS65 DMPL! Good luck!

\$1 1882-O/S STRONG. PCGS MS65+

Legend Rare Coin Auctions is proud to offer the FINEST graded 1882-O, S Morgan. Think about it-it took 33 + years for this coin to surface.

We do agree this coin is worthy of its lofty grade. The surfaces are exceedingly clean and smooth. Even using a strong glass, we found NO serious issues-only a light frost break or two. For an O/S the luster is above average and is glowing and unbroken. A thin band of original blue/deep gold frames the rim. The centers are a creamy white that mixes with gold colors. The strike is so full and sharp you do not need a glass to see anything-including the O/S Miss Liberty's cheek is also exceptionally clean and rounded. The eye appeal is great!

PCSG 2, NGC 1. This is the ONLY MS65+ graded. The current Collector's Universe Value is \$75,000. If you are building the best Morgan set, this coin is must have. Even in MS65, the last example of one of those sold way back in 2012. We assure you, this coin is NOT any retread or that coin! This coin represents an amazing opportunity!

\$1 1882-S PCGS MS67+ CAC

No question, this is a real MS67+.

Overall the surfaces are very clean and sleek. Only with a strong glass can you find a microscopic hidden tick or grease dot. Nothing stands out. Not only does this piece have full booming luster, it has light semi-prooflike mirrors. Both sides are a totally original creamy white. Miss Liberty and the details are fully struck and have delicate frost. Her cheek is very clean too. The eye appeal is terrific!

PCGS 991, NGC 1823, CAC 474. PCGS has graded 132 in MS67+. The last one to sell in auction brought \$1,560 in February 2018. These are not as common as an 80-S (PCGS 287). This coin will be great to add to any GEM Morgan set.

\$1 1883-CC NGC MS67*

While not noted on the holder, this SUPERB GEM, with its textile pattern toning, most likely came out of a GSA holder. Rich olive-green patina blends with gold, teal, crimson, and violet accents. The color ranks as an 8 on our color scale, and we rarely see 83-CCs with attractive toning, normally it is a dull gold overtone. The underlying luster is bold on the obverse with accents of semi-PL reflection, while the reverse is more frosty. The details are all nicely impressed and have a neat frost.

PCGS 232, NGC 120. This coin has a great look, so previous auction prices will not be a great guide to the value for this SUPERB GEM. Worthy of a strong bid from collectors of bag-toned Carson City Morgan dollars.

**LOT 238****\$1 1884-CC NGC MS67***

This is a whirlwind of color! Very rarely do you ever see 84-CCs with this kind of color! The colors are rich, but not dark. Shades of emerald, gold, ruby, amber, smoky-topaz, and aquamarine all blend together across the lustrous obverse. The entire surface is awash in this dramatic blend of color, which ranks as an 8 on our 10-point scale. The devices are sharply struck and even using a strong glass we cannot find anything more than the typical tiny tick or two.

PCGS 127, NGC 135 The most recent examples sold for \$2,640 in September 2018 and the current CU value is listed at \$4,500. This dramatically toned 84-CC will delight anyone working on a colorful set of Morgans.

This coin is a monster near miss DMPL! There is not even a teeny reason to not call it fully prooflike!

Full 4" + mirrors beam boldly all over. The mirrors are remarkably clean. You can see only a few minor and widely scattered ticks and lines (like you would on any flashy DMPL). When you twirl this coin you really do get tons of swirling flash all over. Miss Liberty and the details are thickly frosted and have tremendous full strikes. Her cheek will please the pickiest buyer. The eye appeal is nothing less than phenomenal!

PCGS 2, NGC 9, CAC 1. This coin has never been sold in auction. An FYI, there is only 1 MS67 CAC DMPL-and that has never sold in auction (we figure that to be worth \$40G++). The coin listed here has a current Collector's Universe Value of \$10,000. We can see a great HIGH END coin like this easily exceeding that price. Be prepared, we expect really strong interest and bidding on it!

Sharply struck and offering a bold rolling cartwheel luster this coin ranks among the top three dozen examples graded by PCGS. A halo of mottled amber, blue, gold, and olive-russet frames the brilliant silver center of the obverse, the reverse totally untuned with a delicate touch of semi-PL reflection. A strong glass reveals a tiny tick or two on the otherwise frosted and clean cheek. The eye appeal is very nice

PCGS 31, NGC 9. There are just five coins graded finer. The last one sold in our May 2018 Regency Auction for \$5,053 and prior to that, there were two APRs in 2018 for \$3,900 and \$4,080. The current PCGS value is listed at \$6,000 and keep in mind that we sold two MS66+ examples this year for \$28,200 in January and \$44,650 in July. We grade the obverse a full MS63+ DMPL and the reverse a full MS64 DMPL PCGS says NO, 63 DMPL.

The mirrors are a full 8" +. There are NO shiny dead mirror patches anywhere. Just a few tiny and widely scattered ticks can be seen. There is nothing to draw your eye to that is negative. When you twirl the coin, you are nearly blinded by the mirror's blast. This coin has major league pop! Miss Liberty and every detail are fully struck and boldly stand out with thick frost. No quest on this coin was ever messed with in any way.

The eye appeal is stunning!

PCGS 50, NGC 32, CAC 12. The last PCGS CAC MS63 DMPL to sell in auction brought \$75,000 in May 2018. We'd be shocked if this HIGH END coin did not bring at least that. We know of an MS64 DMPL PCGS CAC that traded hands privately last year for \$135,000 (we had just missed out on it). If you notice true DMPL's -especially CAC DMPL's do NOT appear with any frequency. Bright white and completely bathed in satin luster. As usual, the central strike is limp with the central area of Liberty's ear and curl above poorly brought up. There are some feathers partially defined on the eagle's breast. Again, the 1892-O is one of the most notoriously weakly struck Morgan Dollars of the series, so expecting to find a bold center is likely not going to happen!

PCGS 2,528, NGC 1,508, CAC 264 In MS64+ PCGS has graded 188 examples. With the populations dropping off dramatically in MS65, it is highly likely that there is a large number of resubmissions trying to obtain an MS65 grade. Most MS64+ examples in PCGS/CAC holders bring in the \$900-\$1,500 range; the most recent example we sold was in October 2017, realizing \$1,469, the current CU value is \$1,350. The KEY date circulation strike Morgan dollar. Only 100,000 were ever struck, and unlike most other Morgans, there were no mint bags discovered in the 1950s or 1960s. Today, the 93-S is scarce and in demand in all grades, and this VG is perfect for the grade with no signs of damage or serious flaws of any kind. Just wholesome, honest wear. Many lower grade pieces have signs of harsh cleaning or some other major problem. This one is a great example for the budget minded collector.

PCGS 684, NGC 314, CAC 37. The last PCGS CAC coin sold in our March 2017 Premier Session for \$2,400 hammer and the current CU value is listed at \$3,000.

**LOT 250****\$1 1895-S PCGS MS62+ CAC**

In the aftermath of the Panic of 1893, the mintages of silver dollars dropped dramatically. Every issue from 1893 to 1895 is considered either a KEY or semi-key date in the series. With a mintage of only 400,000, the 95-S is a semi-key that is scarce in Mint State grades.

Flashy and brilliant lustrous surfaces beam from all over. Well struck devices do stand out, but there are a few bag marks which account for the grade, evenly distributed on

the obverse, none of which are singularly distracting. Both sides are accented by a flashy, semi-reflective texture to the fields. The quality is above average for what you might expect for the grade level.

PCGS 257, NGC 139, CAC 16. There are only four PCGS MS62+ graded at PCGS. None have ever sold in auction. The current PCGS value is \$5,450. This stunning coin sold in our December 2017 Regency Auction where it was sold as part of the Bubba Bells Collection, lot 41, and described as:

"Virtual perfection! It is hard to imagine a finer 03-O! A very strong cartwheel luster rolls along the exceptionally smooth and seductive surfaces. Miss Liberty and the details offer fully struck and crisply defined devices. A pale silver-white

iridescent tone attests to its unmolested originality. The oft-told story about this coin's former rarity shows how things in the market can change instantaneously if a hoard is found. The 03-O was one of the rarest dates in mint state in the Morgan series, that was until the Treasury found a hoard of original bags in a vault, and released them into circulation in the early 1960s. Luckily today for collectors, it is a generally available date in most Mint State grades that has a neat historical story."

PCGS 91, NGC 49, CAC 24. On an estimate of \$3,500-\$3,800, this coin realized \$8,519. Since then the RanJack PCGS MS67 CAC sold for \$8,225, far exceeding the current CU value is listed at \$4,000. Again, this beauty should certainly see its bids exceed that level when it crosses the block. PCGS has graded only a single MS67+ finer, which has never sold in auction. This is a SUPERB GEM Morgan from the PFM Collection sold by Legend Auctions in May 2018. The owner had a change of heart. Exquisite surfaces have no real hits. A few trivial frost breaks/light ticks are all you can see. The surfaces are super sleek and smooth. For an O Mint, the luster is unusually bold and is full cartwheel like. Both sides are mostly white with a splash of pale gold. Miss Liberty and the details are sharply struck and do stand out. The eye appeal is wonderful!

PCGS 50, NGC 32, CAC 17. PCGS has graded NONE higher. What an engaging high end Proof Morgan! The grade could not be more spot on!

Super deep mirrors beam forcefully from all over. The mirrors exhibit bold clarity, are super clean, and are so reflective you almost need Ray Bans on view the coin. You don't even have to twirl the coin to see the stunning "liquid mercury" like rolling of the mirrors. There is some light original golden brown toning

around the rims and are some faint gold toning in the centers. This coin does have a silvery black and white cameo appearance. Miss Liberty and the details are thickly frosted and are fully struck. The eye appeal is tremendous!

ONLY 500 were minted. PCGS 9, NGC 5, CAC 7. There are four graded PR64+ CAM at PCGS and we are highly suspect this coin has been in a few times seeking a PR65 designation. Examples of the 8 TF in PR64 and higher have so few auction appearances at all since 2004. Finding a PCGS CAC piece-impossible! In fact, the last PR64 Cameo (no +) Legend Numismatics sold, was in 2015 for \$15,000 from a long time dealer who was buying it for his personal collection. This coin presents a welcome opportunity for any serious Proof Morgan collector to enhance their set. PCGS 22, NGC 28, CAC 7. There are four graded PCGS PR67+ and only four are graded higher. The last regular PCGS PR67 was NOT CAC and sold in our July 2013 Regency Auction for \$17,250 and a PCGS/CAC PR68 sold for \$38,188 in the 2015 ANA auction. An NGC PR67+ CAC sold in April 2013 for just a hair under \$20,000. The current PCGS value is listed at \$21,000 and it is worthy of a very strong bid and is fresh to the auction market, it is NOT a retread or recent upgrade, cross over, etc. This SUPERB GEM will delight any Proof Morgan collector!

**LOT 258****\$1 1880 PCGS PR66+ CAM CAC**

This is a fantastic CAMEO Proof Morgan that borders on DCAM quality. It is also very high end for the assigned grade, essentially SUPERB in technical quality—you can be assured that it is superb in terms of eye appeal! Deep, highly chromatic reflective mirrored fields have a blazing clarity and boldness. They are sleek and have a stunning flash. The highly frosted and sharply struck devices stand out with intense contrast, as noted, bordering on a DCAM category. The surfaces are totally untuned and brilliant. There is an amazing visual allure with this

coin and there are virtually no visible anything on the surfaces, save for a mint made lint mark.

PCGS 31, NGC 33, CAC 14. PCGS has graded just three coins in PR66+ CAM and the most recent example to sell in auction was this coin, selling over four years ago in the 2014, realizing \$12,926. Prior to that, one sold for \$18,400 in August 2011. Today's Collector's Universe value is listed at \$12,500. We sold a non-CAC PR67 CAM in our recent Regency Auction for \$15,863.

LOT 259**\$1 1881 PCGS PR64 CAC**

Wonderful watery-reflective mirrors offer a bold flash under the warm autumnal toning. Both sides are awash in a dappled melange of russet, olive, rose, and pale blue toning. The devices are sharply struck and the eye appeal is quite nice for the grade. This coin is totally original too!

Only 984 Proofs were struck. PCGS 80, NGC 55, CAC 9. The current PCGS Price Guide value is listed at \$3,750 and this near-gem coin is a very nice Proof Morgan for the budget minded collector.

**LOT 260****\$1 1885 PCGS PR66 CAM CAC**

A marvelous GEM 1885 Proof Morgan, with an extremely dramatic contrast that borders on the DCAM category.

The fields are deeply mirrored and have an ultra bold depth of clarity. They are sleek and icy with a chrome-like brilliance that is blinding in the light. The design elements are razor sharp in strike and richly frosted.

The visual allure of this seductive PQ GEM is incredible!

Only 930 Proofs were struck. PCGS 18, NGC 13, CAC 11. This coin is so high end it sold in its last auction appearance for \$15,600. While the current PCGS value is listed at only \$10,500, clearly this impressive coin is worthy of a strong bid! Keep in mind DCAMS are extremely rare, so a borderline DCAM like the present coin will excite many collectors and will see fierce bidding!

\$1 1885 PCGS PR66+ CAM CAC

A coin that is totally unlike what you normally see for an 1885. This coin has a SUPERB look with exceptionally deep contrast. The eye appeal is very high end! Deep, highly reflective mirrored fields beam from all over and have a headlight-like blazing look when viewed in a light. The highly frosted devices are razor sharp in strike and stand out vividly from the fields. Totally untoned, both sides are a blistering brilliant silver. The eye appeal is very high end and wonderful!

Only 930 Proofs were struck. PCGS 22, NGC 13, CAC 11. There are only TWO PCGS PR66+ CAMs on the Population Report; the last one to sell in auction was CAC approved and brought \$14,688 in the 2017 FUN auction. The only other one to sell in auction was back in October 2012 for \$14,100 (was not CAC). Only three examples have graded finer, the finest being a single PR68 CAM. The finest to ever sell was a PR67 CAM, a coin that did not have CAC approval. A great coin for any collector of high end Proof Morgans.

\$1 1889 PCGS PR65 CAM CAC

A gloriously toned and highly reflective GEM Proof Morgan dollar. Every thing about this coin screams high end quality and originality.

The fields are highly reflective with a bold clarity and brilliant depth. The surfaces are glassy smooth and devoid of any distracting marks or lines. Richly and deeply toned surfaces are not too dark, and offer beautiful violet, blue, orange-gold, and rose tone. The sharply struck

devices are frosty and stand out wonderfully against the mirrored fields. The contrast is great!

Only 811 Proof dollars were struck in 1889. PCGS 17, NGC 9, CAC 5. Two examples in November 2017 realizing \$6,300 and \$5,880. This GEM sold in March 2012 for \$6,613 and the current PCGS Price Guide value is listed at \$7,750. There are a mere 14 coins graded finer in the CAMEO designation at PCGS. A real prize for the Proof Morgan collector.

**LOT 263****\$1 1891 PCGS PR67 CAM CAC**

WOW, WOW, WOW! This outstanding coin has multiple WOW factors going for it. The quality is just amazing!

Incredible deep mirrors boom (not just beam) from all over. The mirrors have tremendous clarity and are super clean. When you twirl this coin, the mirrors look like free-flowing liquid mercury rolling around. The flash of the mirrors is nearly blinding too. The contrast is awesome. You can see some faint gold by the rims. Miss Liberty and the details are sharply struck and do stand out with extra thick frost. The eye appeal is tremendous!

Only 650 were ever minted PCGS 2, NGC 15, CAC 2. PCGS has graded one 67+ and 2 PR68's. The last time a PR67 Cameo crossed the auction block-2010. That was 8 years ago! At the time that coin brought only \$20,700.

Today the current Collector's Universe Value is only \$25,000 and we think it's WRONG! Because none have traded, no one has bothered to update the value. Keep in mind, there are probably many collections that need this date and grade. Be prepared for strong bidding!

The eye appeal is quite nice, with just the slightest hint of clear gold that frames both sides.

PCGS 9, NGC 17, CAC 6. There are two PCGS PR65+ CAM graded, neither has ever sold in auction. The last PCGS/CAC PR65 CAM sold in January 2013 for \$11,750 and no PCGS PR66 CAM CAC ever sold in auction. Starting in 1902 the mint changed the way Proof dies were prepared, and rather than having a frosty devices and highly polished mirrored fields, the entire surface of the dies were polished, leaving every part of the design reflective.

This stunning PR65 has a great look! The fields are richly mirrored and the devices are sharply struck up. There are a couple of tiny toning dots on the reverse which will identify it for posterity.

Only 777 Proofs were struck. PCGS 27, NGC 45, CAC 8. The most recent PCGS/CAC PR65 to sell in auction realized \$6,900 in October 2011. This coin has been off the market since 2012. \$1 1921 CHAPMAN. PCGS PR67

Legend Numismatics and Legend Rare Coin Auctions are proud to have accepted this MONSTER Chapman Proof for our November Regency Sale. We all unhesitatingly pronounce this coin to be unquestionably the FINEST EVER Chapman Proof that exists.

Full proof mirrors beam endlessly from all over. The mirrors enjoy great clarity and cleanliness. In fact the only mark we can find-is on the holder. All the die polishing marks are as light as we have ever seen (you really need a strong glass to see them). The contrast on this coin is amazing and here too we don't see why it is not called cameo. Miss Liberty and every detail are sharply struck. These features also have silvery white frost. The eye appeal is amazing, and your jaw will drop and lock!

It is estimated only 40 were minted by special request by the Chapman Brothers, coin dealers in Philadelphia in the late 1800s and early 1900s. Like Farran Zerbe, who also had specially issued Morgan dollars in 1921, they had connections in the Philadelphia mint, and they were obliged. The Chapman Proofs look more like the Proofs that were struck in 1878-1904, while the Zerbe Proofs (which are more "common" have more of a "Specimen" finish

PCGS 1, NGC 1. We believe this is the same coin as the NGC PR67. And get this-the LAST PR66 to sell, sold for \$60,375 in 2000! Think these are incredibly rare or what? If you are building a top or #1 Proof set, this is your only chance at a great Chapman Proof. The current Collector Universe Value is \$275,000. We can see this coin easily reaching that number. Even if you offered \$500,000, you have zero chance of another appearing. Good luck and be prepared!

We've handled some of the world's greatest toned Morgan and Peace Dollars. When this coin came into our office, our eyes popped out and rolled around. In fact it took us a day to catch them and put them back in. The colors and the color scheme are unbelievable and best of ANY we have ever seen for a Peace Dollar. Also, technically, the quality is SUPER HIGH END.

We do NOT know why CAC did not sticker this coin, but we do know CAC (as well as several other known toned experts including us) all agree the toning is 100% original. Peter Max (the world-famous wild color artist) could not have created the patterns of color that coin has. Both the obverse and reverse have mind boggling rings of electric violet/amber/pearl green/lime/sky blue that open into white centers with some awesome gold sprays all over. Some might consider this bulls eye toning. This really is not a rare coin, it's more like a wildly colored masterpiece you frame and put on your wall.

We have never seen anything remotely close to these colors or the color pattern on a Peace Dollar before. There are no printed prices anywhere that would even be within 1000% of what this coin is worth. The value is totally in the colors. We sort of equate this to the runaway 50C 1958 PCGS MS67 CAC we just sold for \$129,250.00. It's near impossible to figure its worth. If you are a toned Peace buyer, you will know to figure this coin incredibly strong. We unhesitatingly pronounce this coin to be a once-in-a-lifetime opportunity!

Despite a mintage of over 1,000,000 the 34-S is a tough date to find in Mint State. In MS64 and finer grades it is truly very scarce. This very pleasing near GEM example has a vibrant, frosty luster that glows in the fields and on the devices. The design elements are crisply rendered and fully brought up by a forceful blow of the dies.

Indescent silver-white tone yields to the lightest pastel tone. Minimally marked, the surfaces are wonderfully preserved and the eye appeal is excellent.

PCGS 670, NGC 315, CAC 139. PCGS has graded 48 in MS64+. The most recent PCGS/CAC example brought \$5,760 in September 2018. SHIP OF GOLD COLLECTION

Legend Rare Coin Auctions is proud to offer this incredible selection of gold coins from the famed "Ship of Gold" the S.S. Central America. Included are pieces that are among the **FINEST KNOWN** examples of their respective issues that, if not for the time capsule, preserved at the depths of the Atlantic Ocean off the Carolinas, collectors would never be able to obtain such high-grade specimens for their collections!

The story of the sidewheel steamer Central America is well known among collectors, ever since the treasure was discovered on September 11, 1987. Much has been written about the shipwreck, volumes of pages, many articles, etc. Here is the brief story.

After gold was discovered in the America River at Sutter's Mill, California in 1848, a mass migration of people went west, looking to stake their claims and reap fortunes in the gold fields. Those lucky enough to find gold needed a way to convert the raw gold into currency. The overland journey to the closest federal mint would take months, so enterprising business men established local assay offices and coining operations. Some of these were legitimate firms whose coins were widely accepted, while others were downright fraudulent. Something needed to be done, so in 1854, a federal mint was established in San Francisco, tasked with churning out millions of gold coins per year from freshly mined ore, and gold from other sources (such as earlier "territorial" coins that were assayed and converted to federal coinage).

Travel was very primitive, with overland treks being taken in Conestoga and other covered wagons and coaches. Taking this

route would involve lots of risks, including starvation, disease, and possible attacks from Native American tribes. The trip could take months over uninviting terrain and hostile areas. The other option favored by many was to take a steam ship from San Francisco to Panama. A newly completed rail line crossed the isthmus at its narrowest point, and another ship would take passengers along the eastern route, through the Gulf of Mexico to Cuba, then to the Eastern coast of the United States.

One of the ships that made the eastern leg was the side-wheel steamer, the S.S. Central America. The 272-foot ship had made the voyage 43 times before, and its September 1857 trip should have been routine. Carrying a massive cargo of gold, valued at \$16 million dollars in 1857 dollars, and 578 passengers and crew members, it was heading to New York City. The gold was to be delivered in an effort to shore up eastern and northern financial institutions that had been caught in a speculative bubble involving rail roads and insurance.

While sailing up the eastern seaboard from Havana, Cuba, the ship encountered a massive hurricane off the Carolina coast. On September 12, 1857, the ship foundered, taking on too much water that put out the fires in the boilers. The ship went down, taking with it all that gold and 425 souls. The loss caused a massive panic on Wall Street, with a major run on the banks. Without the precious cargo of gold coins, many banks had to close. The Panic of 1857 was one of the worst financial crises in the history of the United States. As the panic deepened, it further drove a wedge between the industrial and commercial interests of the north and the agrarian based economy of the south. Less than four years later, these

differences led to the Civil War

In the 1980s, a team of deep-water explorers using state of the art equipment searched for the wreckage of the S.S. Central America, and nearly 130 years to the day, they found the shipwreck. Within a year or two, three tons of gold had been recovered. The find proved to be an excellent time capsule, revealing much about the coins and ingots of gold that were used between banks, as well as what was in people's personal possessions. Awe inspiring amounts of gold, from sacks of gold dust, individual rare coins from various U.S., Territorial, and even foreign issues, to large quantities of double eagles direct from the mint, to gold bricks assayed by various San Francisco firms that weighed from a few to hundreds of ounces, were discovered.

A long legal battle took place. The successor firms of those that insured the ship wanted to recover their payout. Finally, in 1999, the first coins and ingots hit the market in a December auction conducted by Sotheby's in New York City. A second sale, conducted by Christie's and Spink America took place in December the following year. The remaining coins, mostly 1856 and 1857 double eagles from the San Francisco mint were sold by a group of major dealers that formed the California Gold Marketing Group. A big splash was made at various numismatic conventions in 2000 with the Ship of Gold display, one of the most popular exhibits at that year's ANA convention in Philadelphia.

Another expedition took place in 2014. Again, after much legal drama, additional coins were brought up, and again,

conserved by the experts at PCGS. This time, only 3,154 coins total were salvaged. Our sister firm, Legend Numismatics, was given an opportunity to buy some of the **FINEST** examples from this second round, including the majority of the CAC-approved pieces, and many sold quickly. We have been honored with a consignment of coins from this second round. Included in this sale are some of the best known examples of 1856-S gold dollar, 1857-S quarter eagle, 1857-S half eagle, eagle, and double eagle. However, to this cataloger, the coolest, most historic piece is the near-Mint State 1853 U.S. Assay Office of Gold \$20.

Lots of great information is out there for collectors. In 2002, Q. David Bowers authored a 1,000+ page tome, *A California Gold Rush History*, featuring treasure from the S.S. Central America, that was published by the California Gold Marketing Group. The leader of the expeditions, Tommy Thompson wrote about the shipwreck and its recovery in a wonderfully illustrated book called *America's Lost Treasure*. A more novel like read is Gary Kinder's colorfully titled, *Ship of Gold in the Deep Blue Sea*, gives a fuller, more descriptive accounting of the saga.

The lots that follow represent relics from one of the most historically relevant shipwrecks in American history. While all shipwreck recovered coins attract lots of attention from advanced collectors and non-numismatic buyers as well, few have had the historical impact of the S.S. Central America. This is the last group to come up from the ocean floor, so this is your last opportunity to acquire these genuine treasure ship coins!

THE SHIP OF GOLD COLLECTION

LOT 271 GS1 1856-S PCGS AU58+ CAC EX S.S. CENTRAL AMERICA

From the second round of recovery from the Ship of Gold, the S.S. Central America.

This truly is a wonderful example from the shipwreck recovery. Regardless of where it came from, the 56-S is a very scarce date coin with a mintage of only 24,600.

This lightly circulated coin was recovered after spending 157 years on the floor of the Atlantic

Ocean off the Carolina coast. Surprisingly clean surfaces do have only a few extremely light ticks and giggles. There are no problems that are eye catching. A bold luster beams from all over. Both sides are a brilliant yellow gold color. There are no spots or discolorations. Miss Liberty and the details are incredibly struck and do stand out. The eye appeal is super sweet!

These are in a class all their own. PCGS has graded all the coins from the 2014 recovery, and only 5 1856-S gold dollars recovered graded AU58+, and there are only 17 coins graded finer. Regardless of whether it was from the S.S.C.A. or not, no AU58+ has ever sold via auction. The last regular AU 58 to sell was NOT CAC approved and sold for \$5,400 and it has been 18 years since the last MS61 sold! This is a very rare opportunity to acquire a coin that likely was in the pocket of one of the passengers of the ship, not one of the coins that was weighing down the cargo hold. The eye appeal is awesome and this is a wonderful historic relic!

LOT 272 GS1 1856-S/S PCGS AU58+ EX S.S. CENTRAL AMERICA

FS-501, the popular repunched mintmark variety. While not a rarity, this is the ONLY AU58+ of the variety that was found on the shipwreck.

Sharply struck the details of this Type 2 gold dollar really do stand out. Even S/S variety is clearly seen with the naked eye. Bold luster blooms near the peripheries with accents of a reflective flash. The light friction in the fields can be seen with a glass, but none are too distracting. The obverse was shattered when this one was made, with several die cracks that are noted.

Only four 1856-S/S were recovered and graded by PCGS: AU53; this one; MS62; and MS64. The current PCGS value for an AU58 1856-S/S is \$5,950. With its historic provenance, this coin should bring close to that! Good luck!

GS1 1856-S PCGS MS64 CAC EX S.S. CENTRAL AMERICA

It is amazing to know that even after over a century and a half at the bottom of the Atlantic Ocean that a coin like this can survive in such PRISTINE condition. Indeed, when the powerful hurricane struck the sidewheel steamer in September 1857 it created a time capsule, which luckily for collectors preserved some of the FINEST examples of these rare gold coins. The finest known 1856-S gold dollars came from this source.

This coin looks like it was just struck! The luster is dramatic and flashy. Bold satiny fields are generally smooth and offer a great brilliant golden look. A strong glass reveals only the lightest tick, otherwise anything else in the fields are mint made, including some roughness in the central reverse, clash marks, and die cracks. Every detail is crisply struck up and the eye appeal is exceptional!

PCGS graded just this single MS64 from the ship wreck and just two finer, a 64+ and a 65+. PCGS lists a value of \$72,500 for a non S.S.C.A. example, but does not list a value for a recovery coin. No doubt a coin like this is truly worthy of a premium bid from the advanced collector. This may be a once in a lifetime opportunity!

\$2.50 1856-S PCGS MS64+ CAC EX S.S CENTRAL AMERICA

It is not hard to see why this is one of the absolute finest 1856-S quarter eagles that survives to this day. The quality is SUPERB! What is surprising is that after spending 155 years on the ocean floor, it can exist in such a pristine state of preservation.

Just a few tiny ticks keep this coin from a full MS65 designation. Overall, the surfaces are pretty clean. A full booming luster beams all over. Both sides are a brilliant gold color. There are NO spots or discolorations (remember this coin had sea floor crust all over it). Miss Liberty and the details are sharply struck and do stand out. The eye appeal is great!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

This date and grade are as rare as any classic rarity. The quality is absolutely stunning! Surprising fully prooflike surfaces have deep mirrors that beam all over. Only under a strong glass can you see a little roughness of the planchet from where they took off 155+ years of muck. The color is a deeper orange gold and there are **NO** discolorations. Miss Liberty and the details are so sharply struck they look sculpted. The eye appeal is jaw dropping for sure!

The Ship Wreck pop is 2, none higher. The regular NON Ship Wreck pop is 1 in MS64 with NONE higher. CAC has beamed 2 in MS64 (obviously this coin is one). The rarity of this date can not be disputed. Its amazing this coin even exists. If you are building a great \$2.5 Collection, this coin is a "must buy:". For its rarity, there really is no premium. The other MS64+ is in the #1 Ship Wreck Type set that is being shopped around for insane money and will be sold only as a set. Once this coin here is sold, you will never find another. Good luck!

\$5 1857-S PCGS MS63+ CAC EX S.S. CENTRAL AMERICA

Forget about it being a Ship Wreck piece, this is one HIGH END and really neat coin! Not only is it fully CHOICE, it has a superb look!

Only a few trivial ticks and marks can be seen and they do not stand out-you really need a glass to see them. Indeed, they only show up because the surfaces are fully prooflike, and no, the prooflike mirrors are not from the conservation. Obviously several of these pieces were early strikes and there actually is a touch of contrast. Miss Liberty and the details have thick frosting and are sharply struck. The eye appeal is fabulous!

This is the ONLY MS63+ from the wreck. In higher grades from the ship PCGS has graded only 7 more. It should be noted that regular MS63 pieces are a pop of 4. The Collector's Universe Value for those is only \$29,000, which seems very cheap to us; for this coin, Collector's Universe suggests a value of \$32,500, which again, seems cheap. The historic importance of this shipwreck on American history really should add a strong premium!

\$10 1857-S PCGS MS64 CAC EX S.S. CENTRAL AMERICA

Wow! This coin is simply amazing. Its bold, booming luster swirls around the surfaces like a 1901-S! The surfaces are exceptionally clean and were it not for a single thin hairline and a strike through on the cheek, we believe this coin would have at least gotten a '+'. The strike is simply AMAZING, with full definition to the devices. As mentioned the only real mark of consequence, we believe was made by the mint; there might have been a scrap of metal or other debris on the die that was struck into the cheek and then fell out. This is not a scratch, the texture is not smooth or shiny. The color is brilliant and bright yellow-gold with a superb look!

The shipwreck population is 1, with just a single MS64+ finer. Collector's Universe value is listed at \$90,000 and keep in mind that the last MS64 to sell was from the first round of S.S. Central America recovery coins, that was not CAC and it sold for \$53,188 nearly a decade ago! Bested by just a single coin, this is worthy of the FINEST \$10 Lib set, not just ship wreck coins!

The initial eye appeal is of a higher grade coin for sure. There is a strong eye appeal especially for a coin of this grade, that often does not possess so much surviving luster. There are some minor marks, easy to forgive on a coin that was lightly circulated before going down with the ship.

PCGS 151, NGC 182, Cert# 6386, also AU53

Ex S.S. Central America and housed in the original gold foil slab with cert# 5304. Very high end for the assigned grade, there is just the slightest hint of friction on the highly lustrous surfaces. There is a bold luster that still survives in the fields and has a distinctive reflective texture that you just do not often see on a no motto double eagle in 53. There is some shipwreck residue on the reverse, showing how mildly conserved these were when they were brought up off the ocean floor. There are a few minor marks, but nothing you would not expect for a mildly circulated early double eagle.

PCGS 288, NGC 192. As a shipwreck coin, the market value exceeds that of the PCGS price, the most recent APR we can find for an ex S.S.C.A. AU53 was in June 2015, where one sold for \$4,700. Very much worthy of any collection of double eagles or a specialized collection of shipwreck gold coins. What a neat and historic relic!

The devices are very sharply struck up and have a great look, despite the small scuffs and ticks. The eye appeal really is very nice for the grade. The Broken A is clearly a scarcer variant of 57 S. The number graded pales in comparison to the Spike Shield varieties which made up a large number of double eagles recovered.

PCGS 83, NGC 8. PCGS has graded 8 from this variety in MS60. No MS60 has sold in auction before. The current PCGS value is listed at \$5,600. This is a much better looking coin than the grade might suggest. A very neat coin for any gold collector. The appeal of this coin is high end and should garner lots of bidding activity.

Legend Rare Coin Auctions is proud to offer this magnificent and extremely historical **SUPERB GEM** Type 1 \$20. We shake our heads in bewilderment that this coin actually sat on the ocean floor for so many years and survived in an unheard of condition like this defies logic!

We consider this coin to be a legit MS67 9+! We can not imagine a finer Type 1 Double Eagle could ever exist (none do). Clearly this is one of the **FINEST** Type 1 Double Eagles that exists!

Unbelievable surfaces are exactly that. Even using a strong glass and skimming the satiny surfaces for a few minutes will yield you **NO** imperfections-not even tiny ones. A full glowing luster beams boldly from all over.

Both sides have a crisp and deeper orange gold on the rims that opens into lighter yellow gold centers. There are **NO** spots or discolorations. Miss Liberty and every detail are frosty and are fully struck. The eye appeal is jaw dropping and then some!

For this group from the wreck, the PCGS pop is 3 with just the + as higher. The pre 2014 dive pop is PCGS 8, NGC 0. CAC has beamed a total of only 3 coins. Our sister firm, Legend Numismatics, has sold one MS67 from the original batch and one from this new batch.

There is this coin, another and the MS67+ (for crazy money) that are the only MS67's available. **ALL** coins are now graded and are accounted for. Prior to this wreck being discovered, there was no such thing as even an MS64! Clearly this is a once in a life time opportunity.

\$20 1853 U.S.A.O.G. 900 FINE. PCGS AU58+ CAC
EX S.S. CENTRAL AMERICA.

The U.S. Assay Office of Gold essentially operated as a provisional U.S. mint from 1851 to 1853, first under the supervision of Moffat & Co and Augustus Humbert, then under Curtis, Perry, and Ward after Moffat retired in early 1852. With their strong reputation, the U.S.A.O.G. churned out millions of coins, according to Kagin, from March 1853 to October 1853, about 2.5 million were struck. This K-18 variety was struck from a large number of dies, which were destroyed during the Great Fire of 1906. While the mintage was very large, many of these \$20 gold pieces were returned to the mint and melted, then restruck into federal issued double eagles.

This is a great example of a very popular type that really should be considered a federally issued coin. While more than four years had passed between the time the coin was struck and the S.S. Central America sank, the present coin saw virtually no circulation. We highly believe that it was in the pocket of some poor soul who went into the turbulent, storm tossed waters in September 1857, perhaps as a good luck charm. Both sides show a full, glowing, satiny lustrous frost that rolls uninterrupted across the obverse. Sharply struck up devices show full definition in all of the details. This large coin is devoid of any major scuffs or scrapes. The eye appeal of this awesome territorial is very high end!

The Ship Wreck had a PCGS pop of 4 in AU58+ and only 4 coins higher. In regular NON Ship Wreck, the PCGS AU58+ pop is zero. We estimate CAC has beamed only 2 in AU58+ (and we have the other). It should be noted the last PCGS AU58 (no +) CAC piece to sell in auction brought \$13,200 in April 2018, and that coin did not have the cache of being from this historic ship wreck.

**LOT 287****G\$1 1849-D PCGS MS62 CAC**

This is a great coin for the gold coin collector. The gold dollar was authorized in 1849, and the first year of issue in Dahlonega, saw a fairly generous mintage of 21,588, making this the most available in Mint State (although they are quite scarce). PCGS CoinFacts estimates 35 Mint State coins survive, which is probably on the lower side, as there are more certified examples than that. The presently offered coin is almost fully Prooflike on the obverse and the reverse is a little more frosty. The devices are sharply struck and Longacre's Liberty Head is frosted and stands out with a cameo-like appeal. Struck from clashed and cracked dies, this beauty has a very high end and totally original look. Very rare any finer, this MS62 looks better than the grade would suggest and will be a delightful addition to any set!

PCGS 30, NGC 30, CAC 6. We think there is quite a bit of duplication in the population reports, where coins have been cracked and crossed and their tags not returned. Based on auction appearances, there are probably less than 50 individual examples in 62. Four PCGS/CAC coins have sold in the \$6,169 to \$11,163 range, with the last two bringing \$8,2252 and \$7,500. The current Collector's Universe value of \$7,400 reflects the lower prices that non CAC coins have sold for. This coin is truly worthy of a strong bid and will delight any collector of Southern branch gold.

That said, many 51-D's have been cleaned, damaged, or conserved that are not as visually alluring as the present CHOICE XF. Graded ages ago, and encapsulated in a first generation PCGS slab, a wealth of luster survives in the protected areas. Light wear can be seen on the highest points of the obverse, but the details are bold and crisp. Rich orange-gold patina graces both sides and we see only a light mark in the obverse field, which we note for accuracy. The eye appeal is excellent for the assigned grade.

A lovely GEM example of this New Orleans mint gold dollar. Vibrantly lustrous surfaces have a satiny/frosty glow that gives the obverse a lovely contrast between the devices and the smooth, surrounding fields. Both sides are indeed crisply struck up with very little weakness seen anywhere. The surfaces are clean and free of any marks, lines, or discolorations. There is a minor planchet flake on the reverse, which may be why CAC did not bear this GEM. The eye appeal, otherwise, is very high end.

PCGS 24, NGC 14. The last non-CAC approved example sold in auction back in August 2010—seems like yesterday, but was eight years ago! The most recent example to sell was a CAC-approved coin that brought \$12,925 in August 2015. The current PCGS Price Guide value is \$9,500. This coin ranks among the **FINEST KNOWN** of this very scarce New Orleans mint quarter eagle. Estimates suggest that about nine and twelve Mint State coins survive and this one ranks as third finest graded at NGC, PCGS has graded just two coins finer. This is a particularly attractive, fully **CHOICE** example.

Boasting a very strong strike for the date, the details are each very well defined, except for some light weakness on the central reverse. Even with that, it is very crisp for a 46-O. The surfaces are delicately toned and there are just a few minor scuffs and ticks that account for the assigned grade, but none are distracting. The eye appeal is very high end!

PCGS 1, NGC 3, CAC 2. It is interesting to note that NO PCGS coin in MS63 or MS64 has sold in auction since 2004. An NGC MS63 sold in the 2017 FUN auction for \$12,925 and an NGC MS64 in October 2011 for \$23,000. The current Collector's Universe value is listed at \$21,000. This may well be the **FINEST** example that you will be able to obtain in quite some time. Just a touch of friction on the highest points and in the semi-reflective luster in the fields. Satiny throughout, the strike is strong and contrasts with the richness of the orange gold color. There are a few minor marks, the most serious of which is seen on the reverse.

PCGS 21, NGC 44. The most recent example sold in August 2015 for \$4,994 and the current PCGS Price Guide value is listed at \$5,000. Prior to that, one sold for \$6,325. Only 22 coins are graded finer at PCGS. This one has not sold in auction for at least eight years. Good luck!

**LOT 294****\$2.50 1848 CAL. PCGS MS62+ CAC**

LRCA is proud to offer this almost once in a lifetime amazing coin. Between us and our sister company Legend Numismatics, we have only seen two others total in our 40+ year career in Mint State (and one was the MS68 we badly regret not buying many years ago). In addition to being ultra-rare, this coin is a no question SUPER HIGH END piece.

Amazing prooflike surfaces catch your attention unexpectedly. The surfaces are remarkably clean and smooth. Only if you use a strong glass can you find a few light lines and a small tick on the lower right obverse. Nothing stands out. The mirrors beam from all over and actually are highly reflective. No question this coin is original and never has been messed with. Miss Liberty and every detail has been fully struck and stands out. The CAL is amazing to see. There actually is slight contrast on this coin too. The eye appeal is exceptional!

An incredibly historic and important coin, a classic in the annals of American numismatics. After gold was discovered in the America River in California in 1848 near Sutter's Mill, 228 ounces were sent back east in December of that year by the military governor, Col. R.B. Mason, directed to the Secretary of War, William Marcy. The gold was to be used to strike gold medals for General Zachary Taylor and General Winfield Scott--any remaining metal was to be used to strike quarter eagles, with "CAL." stamped in the field to recognize the historical significance of the source of the gold, resulting in a mintage of 1,389 pieces. The gold rush that ensued created one of the largest mass migrations in history, and changed the course of not just American history, but also world history.

PCGS 7, NGC 3, CAC 1. This is the ONLY MS62+-and the ONLY MS62 that is CAC. In MS63 PCGS has graded 3 with 3 beans (where heck are they) and 5 in MS64-NONE beamed and of course the sick MS68-which would beam. In true Mint State you have very few to choose from. That is why cleaned AU58's sell for as much as \$75,000 -there are no Mint State pieces to be found. It is our strong opinion, this coin is a once in a few years piece. Think hard to when the last time was you saw ANY Mint State piece especially one that was CAC. Opportunity knocks loud here!

**LOT 297****\$2.50 1876 PCGS PR67 DCAM**

We can unhesitatingly call this **SUPERB** 1876 quarter eagle as the **FINEST KNOWN**. Truly a treasure of the centennial year, a coin that is always popular among collectors. Only 45 Proofs were struck, more than double that of the 1875 and 1877, but these appear about as often in auction. John Dannreuther opines that perhaps in celebration of the centennial, non-numismatic buyers bought Proofs from the mint, and they were not cared for in the same way those bought by collectors were, so today, about 20-25 are thought to survive in all grades.

The deep beaming mirrors and stunning ultra cameo contrast arrest the viewer's gaze from a mile away. Traces of orange-peel texture in the fields remain, suggesting that this was a somewhat later strike when the initial finish on the dies wore off. The mirrors are deep and bold, with a clarity that is uninterrupted by any lines.

A very powerful glass reveals a couple of natural, mint made planchet flakes that do not detract from the simply stunning and **SUPERB** eye appeal. The devices are razor sharp in strike and are fully frosted, which developed the exciting cameo contrast that is about as complete as can be imagined. This coin is so beautifully preserved it can be called a miracle.

PCGS 1, NGC 1. Obviously the majority of ALL Proof Liberty Head quarter eagles in **SUPERB** grades are from the 1890s and 1900. For a major **RARITY** like this, you cannot look at type prices. The Collector's Universe value is listed at \$120,000. This is an **AMAZING** opportunity for any advanced collector! Do not let it pass you by! The **FINEST CAMEO** graded at PCGS, and one of the highest numerically graded 1888 Proof quarter eagle that exists. We are proud to offer this numismatic treasure, a coin that is bound to excite any serious collector

Deeply mirrored fields gleam with a bold and highly desirable orange peel effect. Even at arm's length, the facets of the textured surfaces glimmer, glint, and gleam from all over. The razor sharp devices show a delicate frostiness that stands out in stark contrast with the surrounding mirrors. Clearly a coin that comes from an old holding, the surfaces show a touch of iridescent haze over the rich orange-gold patina attesting to the originality. A strong glass reveals no serious marks of any kind; this coin really is a delight to behold and look at. You will have a hard time putting this coin down.

Only 92 Proofs were struck, perhaps 35-45 examples survive for collectors today. PCGS 1, NGC 0, CAC 1. There is only one PR67 CAM at NGC, which does not appear to be this coin. There is one PR66 (no mention of designation) at PCGS, that has not sold in 15 years. In PR66 DCAM, PCGS has graded 3 and one in 67 DCAM (none of these have ever sold in auction). The only relevant APRs we can find are as follows: PCGS PR65+ CAM CAC that sold in the November 2010 Stack's Sale of the W.C. Carson Collection, which realized \$27,600 and the aforementioned NGC PR67 CAM that brought \$39,950 in May 2016 (a weaker market). The current PCGS Price Guide value is listed at \$50,000 and we can see this one selling for a level near that when the gavel finally drops. It looks like this coin was carved from a block of frosted gold. The eye appeal is simply breath taking!

ONLY 205 minted. PCGS 8, NGC 8, CAC 11. Prior to this one selling in our July 2018 Regency Auction for \$37,600, the last PCGS CAC piece to sell in auction brought \$39,950 in the 2018 FUN auction. Our collector has upgraded this type in his set and is selling this one again. But as time goes on, Proof Gold has turned out to be one of the most difficult types of coins to find. You can't beat buying unmessed with better gold at any premium! This coin will be a stand out in ANY GEM Proof \$2.50 set or any Type set. It's also okay just to buy as one heck of a neat coin!

**LOT 302****\$2.50 1901 PCGS PR67 DCAM CAC**

WOW! THIS IS GODZILLA! What a sensational Ultra Black and Gold Proof piece. We have no idea why this coin is not at the very least a +. Ultra deep and virtually endless mirrors explode from all over. The mirrors display the ultimate in clarity and cleanliness. You can't ask for any more flash. When you twirl the coin, the mirrors look like an intense river of molten yellow gold streaming around the surfaces. The contrast is mind boggling! Miss Liberty and every detail are needle sharp in strike and have GEMMY thick iridescent gold frost. Your eyes will pop out and roll all over when the lay eyes on this monster! This is the final date that was struck with the heavily polished fields and frosted reliefs, starting in 1902, the method of preparation of Proof dies changed, making them the polished brilliant look from 1902 to 1907.

ONLY 223 minted. PCGS 8, NGC 9, CAC 7, Hard to believe PCGS may have graded 2 in PR68 DCameo-WOW (neither are beamed)! We can't say enough how desirable all PCGS GEM Proof gold is these days. This coin will improve ANY SUPERB GEM set while creating a higher bar of quality and eye appeal!

LOT 303
\$2.50 1908 PCGS MS65

A GEM example of the first year of Bela Pratt's unique, incuse Indian Head design. Lovely olive-gold accents over rose-gold fields, this frosty quarter eagle has a great look. Only a few tiny ticks are noted, but none that are distracting. Fresh to the market, housed in a first generation PCGS holder.

PCGS 565, NGC 354. The last one sold in June 2018 for \$2,400, prior to that, one sold in March for \$2,040. The current PCGS value is \$2,500 and these are very scarce finer.

PCGS# 7939 | ESTIMATE \$2,000+

LOT 304
\$2.50 1911 PCGS MS65+ CAC

This is a special 1911 quarter eagle, among the FINEST graded, just a single MS66 finer at PCGS.

We love the coin's look! Satiny brilliance can be seen on both sides accentuating the smooth fields. The details are crisply impressed into the planchet. The eye appeal is excellent.

PCGS 162, NGC 163, CAC 56. There are fifteen graded in 65+ with a SINGLE MS66 finer. There hasn't been a PCGS MS65+ CAC sold in auction since February 2016, which realized \$5,405. Since then, two PCGS MS65 CAC have sold in excess of that, one from the AJ Vanderbilt collection that brought \$9,000 in March 2018 and one in November 2017 for \$7,200. Today, if the MS66 was to sell in auction it would likely sell for \$45,000-\$50,000! What a great opportunity for the advanced collector of Indian Head quarter eagles.

LOT 305
\$2.50 1912 PCGS MS64 CAC

A vibrant golden luster blooms on both sides of this pleasing, well struck, near-GEM example. Some minor contact and a single toning spot on the obverse but the eye appeal is very strong for the assigned grade.

PCGS 599, NGC 636, CAC 126. The most recent PCGS/CAC example to sell in auction realized \$2,056 in July 2018 and before that one sold for \$2,880 in December 2017 and the prior one sold in November 2016 for \$3,055. The current PCGS price is \$2,350. Keep in mind at PCGS/CAC MS65 will cost \$11,000 or more! If you are building a set of \$2.50 Indians, this 1912 will fit nicely in any GEM set without breaking the bank.

LOT 306
\$2.50 1914-D PCGS MS64

Here is a nice example of this semi-scarce date--it is common in lower grade Mint State, but RARE in GEM, making MS64 a great level for most collectors. The present coin is just a single abrasion from CAC approval and perhaps an even higher grade. Frosty surfaces show a honey wheat gold with accents of olive that contrast with the sharply struck, incuse devices.

PCGS 800, NGC 1044. The current Collector's Universe value is \$2,250 and the most recent to sell brought \$1,680 in September 2018. Keep in mind that the CU value in MS65 is \$20,000! This handsome coin will fit nicely in any Mint State set.

**LOT 307****\$2.50 1915 PCGS MS65+ CAC**

An exceptional GEM example. While not a rare date, they are scarce in MS65 and RARE any finer. Indeed, only six coins have been graded finer at PCGS. A glowing, radiant mint luster blooms brilliantly on both sides in smooth surfaces and the deeply unpressed devices. Boasting a wonderful eye appeal, this coin has an amazing fresh look.

PCGS 201, NGC 199, CAC 62. PCGS has graded 13 in MS65+ and only six finer. The last PCGS/CAC coin to sell in auction realized \$5,760 in September 2017. The current PCGS Price Guide value is listed at \$5,250. Keep in mind a PCGS/CAC MS66 will likely cost \$25,000+ if you could find one! This is a great coin for any advanced collector.

**LOT 308****\$2.50 1927 PCGS MS65**

Satiny luster blooms on the GEM quality surfaces. Sharply impressed, the incuse devices are crisp and fully rendered. Wonderful, highly original surfaces have a rich golden-orange hue, we are not 100% sure why CAC did not bean this one. Housed in a first generation PCGS slab.

PCGS 514, NGC 429. The current Collector's Universe value is listed at \$1,750 and the recent APRs are \$1,680; \$1,560; and \$1,800. This old holdered GEM should bring in that range.

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 309****\$2.50 1908 PCGS PR67**

Representing the first major Quarter Eagle design change since 1840, only 236 Proofs were struck in 1908. The surfaces on this **SUPERB GEM** are virtually perfect, with the classic mustard hue and finely granular matte surface undisturbed! A high fin or wire edge is seen around most of the coin, both obverse and reverse. An absolutely extraordinary example of this rare Proof coin.

The matte surface is completely different from anything done at the Philadelphia Mint before. Up until this time proof coins had always been "shiny", with the fields offering mirror reflectivity and the devices offset by frosted texture. Here on this 1908 Quarter Eagle the fields and devices were completely uniform in color and texture. A strong loupe reveals minute interlocking facets that create the "sandblast" texture and appearance. When examined under a light, these facets flash and twinkle

like a galaxy of stars! Of course this radical change, introduced at other world Mints soon after 1900, was met with stiff resistance in America, as collectors had grown used to the bright and flashy proofs of the past. Hence sales declined year after year starting in 1909 through the end of Proof production. Today with the benefit of time and artistic appreciation, modern collectors highly covet these exceptional matte proof coins, especially when they are found so perfectly preserved!

PCGS 6, NGC 29 The last one sold for \$40,800 in the recent ANA auction. Prior to that, we sold one in our September 2015 Regency Auction for \$58,750 Even a non-CAC 66+ sold in February for \$42,888. The current PCGS value is listed at \$55,000 and this one should bring a bid near that, as it possesses an **AMAZING** look. **NONE** are graded finer at PCGS, making this a real prize for anyone building a set of Matte Proof Indian Heads, or wanting an example for a type set!

**LOT 310****\$2.50 1909 PCGS PR65 CAC**

LRCA is honored to have the chance to offer a real GEM example of one of the rarest Proof Indians that exist. we marvel every time we look at this coin. No question this coin is SUPER HIGH END too.

Outstanding surfaces are evenly covered by a pure Roman finish. There are NO defects or shiny spots to be found. After examining it closely with a strong glass we see no reason why PCGS just graded it a PR 65. We can't ever promise it will grade higher, but this coin certainly looks much better than its current grade. The surfaces are a deep original Roman gold color. There are ZERO spots or imperfections. If you ever want to see what the dreaded reverse right field should look like-check this coin out. Every detail is pinpoint sharp in strike. The eye appeal is phenomenal!

Only 139 were minted. PCGS 3, NGC 9, CAC 1. PCGS has graded only 1 coin higher (a 66+) but CAC has beamed none. It is our extreme opinion that ALL pricing guides are plain wrong. They have thrown imaginary numbers out for a coin that last possibly appeared in 2006! So we call the current Collectors Universe value ridiculous. We're sure this date and grade is a hole in all sets. Considering after all the years now CAC has been in business, and this is still the lone CAC piece, that is tremendous proof as to its extreme rarity. We can see this as a six figure coin. All we can say to prospective bidders, don't think cheap and be prepared to bid strong! Good luck, it is unlikely you will get another chance any time soon!

PCGS# 7958 ESTIMATE: \$80,000+

**LOT 311****\$2.50 1910 PCGS PR66+ CAC**

A majestic example of this very popular Proof Indian \$2.50. The quality is off the charts, and the eye appeal is simply stunning. NOTE: THIS IS NOT THE NGC PR66+ CAC that we sold in May 2018.

Ranking among the TOP THREE graded at PCGS, this coin has all the hallmarks of a SUPERB GEM! The delicate satin finish is totally intact, uninterrupted by any surface disturbance or flaw that we can see with our powerful loupes. Every detail is fully embossed in the surfaces, and crisply defined throughout the incuse design. The rich, totally original orange-gold color is as fresh and pleasing as the day it came off the dies.

The mintage of 1910 Proof quarter eagles was reported at 682, a whopping sum for any Proof gold coin. It is said that many of these may have been spent by their owners as no 1910 circulation strike quarter eagles were produced until the end of the year. Obviously the number of coins that went into circulation, or melted as unsold were never taken out, or there could have been a mistake in reporting. The current combined PCGS and NGC populations come to about 200 pieces, and the recent Proof Gold reference by John Dannreuther suggests that 90-110 survive.

PCGS 12, NGC 31, CAC 14. This is the SOLE PR66+ graded at PCGS, and there are two at NGC. The ONLY PR66+ to sell was the coin mentioned above, graded by NGC in our May 2018 Regency Auction, that realized \$43,475. A PCGS/CAC PR66 (no +) sold for \$45,825 in March 2016. The most recent non-CAC PCGS PR67 sold for \$64,625 in the 2015 FUN auction. The current PCGS value is listed at \$52,500, but this coin will surpass that amount when it crosses the block; it is SUPERB, and will certainly attract huge attention from specialists. Good luck finding a better one in a PCGS/CAC holder!

PCGS# 7959 ESTIMATE. \$50,000+

**LOT 312****\$3 1860-S PCGS AU53 CAC**

This is one of the rarest and most UNDER rated dates in better grades (AU and higher). The quality of this coin is VERY HIGH END! Overall, the surfaces appear clean. Only with a strong glass can you find a scattered tiny tick or two along with a light old cut on the face. Nothing is major or stands out. A surprising luster mixes with semi-prooflike mirrors and beams boldly from all over. That is unusual for a 60-S. Both sides are an original deep gold/orange color. There are NO spots or discolorations. Miss Liberty and the details are well struck and do have strong frost. The eye appeal is fantastic!

PCGS 12, NGC 12, CAC 3. The last PCGS AU 53 to sell in auction brought \$5,875 in December 2015—a long time ago! The current Collector's Universe Value is \$7,900. We expect this beautiful coin to bring closer to the CU value.

PCGS# 7981 | ESTIMATE: \$6,000+

**LOT 313****\$3 1874 PCGS MS64+ CAC**

Exquisite! This "common" \$3 is anything but in GEM grade. This 64+ is oh so close to GEM quality and we have seen coins in 65 holders that look the same. We think PCGS got this one 100% right!

The luster is blistering in its fiery brilliance. The dramatic satin sheen grabs the viewer from across the room. Up close, the radial luster rolls along with a superb vibrance. Impressive striking definition on both sides, the dies imparted full details with an exacting blow. The glowing fields are marred by just the most microscopic ticks that are only visible using

a strong glass, but none of these have any affect on the exceptional eye appeal.

PCGS 106, NGC 74, CAC 25. PCGS has graded just 9 in MS64+, the most recent of which sold in March 2014 in an online only auction for \$8,250. More recently a regular MS64 CAC sold for \$11,400 in March 2018 and a PCGS MS65 CAC sold in November 2017 for \$12,000. We know the current PCGS value is too low for this coin! A great example for the date or type!

PCGS# 7998 | ESTIMATE: \$6,000+

LOT 314**\$3 1878 PCGS MS64**

The \$3 gold series is full of low mintage issues, leaving only a few dates that in Mint State, are considered type coins, and the 1878 is one of them. This one is a pleasing deep orange-gold with hints of rose and steely blue. Well struck and very eye appealing, there are just the slightest of tiny ticks noted under close scrutiny. Bold and satiny, this coin has a great look!

PCGS 788, NGC 438. The most recent PCGS-graded coin to sell brought \$4,800 in the recent ANA auction, and the current PCGS value is listed at \$4,850. This original coin should find itself at home in a nice gold type set.

\$3 1888 PCGS PR66+ CAM CAC

WOW, WOW, WOW! The WOW factor here is off the charts! What a stunning HIGH-END GEM this coin is. It is tied for FINEST graded by PCGS in the CAMEO category.

Intense deep mirrors blaze from all over; they have sensational clarity, cleanliness, and have the ultimate in reflection. When you twirl the coin, the mirrors roll like a river of molten gold. The contrast is mind boggling too! Some light gold toning can be seen on the reverse. There is NO haze here. Miss Liberty and every detail are thickly frosted and are fully struck. The eye appeal is spectacular!

291 were struck. PCGS 8, NGC 9, CAC 5. PCGS has graded only 2 in PR66+ CAM and NONE ARE FINER in the designation!. The current Collector's Universe value is \$65,000. With so little GEM PCGS CAC gold around, we can see this coin easily selling for that. We know at the major shows we have attended this year, Proof Gold certainly was not anything we saw much of at all!

PCGS# 88052 ESTIMATE: \$57,500+

**LOT 316****\$5 1795 SMALL EAGLE PCGS MS62 CAC**

BD-3. If all 1795 \$5 looked like this, they'd be \$250,000 coins. We think so much of this coin we even put it on the cover of this sale's catalog! The quality is as SUPER HIGH END as you get. We wonder if it had been sent to PCGS on a bad day. We know that our sister company thinks extremely highly of this coin, as when it was last in auction, they were the underbidder. They graded it MS62+ (we make no promises).

Remarkable surfaces appear clean and smooth to the naked eye. When using a strong glass you can see light lines and some scattered ticks. NONE stand out in any way. The surfaces are slightly semi prooflike too. A surprising strong glowing luster beams boldly from all over. There is actually light cameo contrast on both sides. Miss Liberty and every detail look amazing. They are thickly frosted and are strong strikes. The eye appeal is like everything else about this coin phenomenal!

PCGS 28, NGC 22, CAC 3. It is important to note, the last PCGS auction record was for a NON-CAC piece that brought \$120,000. A PCGS CAC piece has not sold since 2012-according to our records. The current Collector's Universe Value is \$135,000. This coin really is far superior to almost all 1795's in MS62. We have seen MS63's that look worse! This coin will make a fantastic addition to ANY choice set! You can't buy a stunning SUPER HIGH END coin like this cheap.

PCGS# 8066 ESTIMATE: \$120,000+

**LOT 317****\$5 1800 PCGS AU58 CAC**

BD-5, a moderately scarce variety rated as R-3+ in the Bass Dannreuther reference.

This is a great looking slider early \$5. The surfaces seem to be totally unmet with and unmolested. Natural, honey gold with nice overtones of olive-green and orange-gold stand out when the satin sheen is brought out in a light. Both sides display the slightest hint of friction on the surfaces. The strike is bold throughout with strong definition to the devices. A few ancient, miniscule, stray marks are acceptable for a 218 year old gold coin that saw brief use in circulation.

PCGS 49, NGC 69, CAC 20. Many have been conserved, cleaned, or are otherwise not original. The most recent PCGS/CAC example to sell via auction was back in the 2016 ANA auction bringing \$13,513 and the current PCGS value is listed at \$14,500. Scarce in all grades, even more so in CHOICE AU and finer. A great type coin for any collector wanting an affordable and high end example.

PCGS# 8082 ESTIMATE: \$12,500+

LOT 318**\$5 1803/2 NGC XF45 CAC**

BD-3. A scarce R-4 variety, this one presents very nicely. Light wear has not taken away all vestiges of the original mint luster, including some reflective accents that survive in the protected areas of the devices. There are some light friction lines and a few ticks, all appropriate for an early \$5 in this XF45 grade.

PCGS 31, NGC 13, CAC 7. The most recent NGC/CAC coin to sell in auction brought \$8,700 in February 2018 and the current Collector's Universe value is listed at \$10,250. CAC approved early gold is quite scarce and always in demand!

PCGS# 8084 | ESTIMATE: \$7,500+

**LOT 319****\$5 1803/2 NGC AU58**

BD-1, considered to be R-4 with perhaps 150-200 known in all grades. Pleasing khaki gold color with ample olive accents that grace both sides. Generally attractive with hints of original bloom that come out in the protected areas of the nicely struck devices. Some old friction can be seen with a glass.

The reverse was struck from a later die state with a number of bold die cracks that transect that side.

PCGS 77, NGC 88. The last AU58 to sell was a PCGS coin that brought \$10,800. The current Collector's Universe value is listed at \$14,500. A nice collector example of this early \$5—perfect for a type or date collection.

PCGS# 8084 ESTIMATE: \$11,000+

**LOT 320****\$5 1811 BD-2. SMALL 5. PCGS MS64 CAC**

This coin really is super HIGH END! We truly love everything about this near miss GEM!

Remarkable surfaces are pretty clean and smooth to the naked eye. Only using a strong glass can you see a few microscopic ticks and a frost break or two. We assure you, there is very little holding this coin back from FULL GEM MS65 status. There even are very faint traces of semi prooflike mirrors towards the centers. The luster is unusually strong and beams vividly from all over. Both sides have unquestionable and totally original "skin" colors of deep yellow go.d/orange gold (by the date) and faint greenish gold on the reverse. There are NO spots or discolorations anywhere. Miss Liberty and every detail are frosted and are sharply struck. The eye appeal is fully wonderful!

PCGS 17, NGC 12, CAC 8. The last one to sell in auction brought \$46,201 in April 2018. Prior that PCGS/CAC coin sold in July 2013 for \$64,625. The current PCGS Price Guide value is listed at \$57,500 and there are only four coins marginally finer, graded MS64+ at PCGS. This coin is a great coin for a type or date set of early gold. One look and you will love this near-GEM as much as we do!

PCGS# 8109 ESTIMATE: \$45,000+

**LOT 321****\$5 1836 PCGS MS64 CAC**

This is a gorgeous Classic Head half eagle! As a type, these rarely come so fine. The short lived series, struck from 1834 to 1838, can be quite the challenge to collect in Choice Mint State, especially with a CAC bean. The Classic Head design by William Kneass is a transitional type, straddling the old tenor gold coins (1795-1834) and the long running Liberty head series. By the 1820s, the value of gold in the half eagle exceeded the \$5 face value. The majority of the mintages were exported and melted, the profit pocketed. In 1834, the content of gold coins was changed, and the design changed.

The Classic Head half eagle saw much more extensive circulation than the earlier types, so finding a CHOICE Mint State piece is indeed a challenge.

The present coin has a great look. Sharply struck devices stand out with a strong definition, on both sides. The obverse die had broken by the time this one was struck with a bold bisecting die crack. The golden surfaces are frosty and offer a strong satin sheen to them, accented by a swirling cartwheel bloom. There are a few minor hints of contact, which are not serious and do not detract from the otherwise stunning eye appeal. This near-GEM is bested by perhaps as many as four coins graded at PCGS, making this one perfect for any high grade type set or specialized set of Classic Head fives.

PCGS 16, NGC 7, CAC 3. The only PCGS/CAC coin to ever sell in auction realized \$25,201 in June 2018. The current PCGS Price Guide value is listed at \$26,000. The Pogue coin was just marginally finer, graded MS64+. A GEM will cost \$70,000+! Good luck!

PCGS#8174 ESTIMATE: \$22,000+

**LOT 322****\$5 1846-C PCGS AU55+ CAC**

Looks are deceiving. At first glance we thought this coin was Uncirculated. No, we don't need stronger glasses. The coin actually looks that good. It is HIGH END for sure. Amazing surfaces are almost full Mint State quality. Save for one small tick, the surfaces are super clean. The surfaces also have a thick satiny texture. A surprising luster beams vividly from all over. You can tell nothing has ever been done to this coin. Both sides are a wonderful and totally original deeper yellow gold color. The clear reason why this is not an AU 58+, there is some weakness in the strike on the eagle's neck. All other details are super frosty and are fully struck. The eye appeal is beyond exceptional especially since this is C mint!

PCGS 7, NGC 12, CAC 3. This is the ONLY PCGS AU55+ graded. It has never been sold via auction. The consignor told us it is fresh to the market. It should be known that the last AU55 sold in 2006! The rarity of this date and grade cannot be disputed. We think the Collector's Universe estimate of \$7,900 is way off as are all the AU values. If you collect C Mint \$5 or just \$5, this is a coin that will thrill you. It belongs in a great collection!

PCGS# 8227 | ESTIMATE: \$7,500+

**LOT 323****\$5 1846-D PCGS AU53**

This is a rare AU survivor of this difficult date. PCGS CoinFacts estimates a survival of 140 examples in all grades, and David Akers and Doug Winter both observed that most survivors are VF or XF grade. This example shows just a few minor marks, the most noticeable is on Liberty's cheek. A bright golden color shows ample surviving satiny luster in the fields. The devices are sharply struck up and the eye appeal is better than most you will see, as this date often comes highly abraded and many have been cleaned or otherwise impaired.

PCGS 16, NGC 18. There has not been one sold in auction since October 2011, realizing \$4,169. The current PCGS Price Guide value is \$4,500. Rarely appearing in auction any finer, the last AU55 graded by PCGS sold in July 2006 and the last PCGS AU58 sold in March 2006! If you are collecting AU half eagles from the Dahlonega mint, be sure to bid on this one!

PCGS# 8228 | ESTIMATE: \$3,600+

LOT 324**\$5 1850-D NGC AU55 CAC**

Here is a highly collectible, and very scarce southern branch mint half eagle. Anyone who has studied Dahlonega and Charlotte mint gold coins knows that they are extremely hard to find in ORIGINAL, uncleaned, dipped, and/or conserved condition. This is evidenced by the CAC population figures, as well as notes from David Akers, Doug Winter, and other authorities. This nice AU55 has a great look overall, with great orange-gold coloration with accents of olive patination in the fields. Nicely struck up in most places, there is just a touch of weakness, as usual at the right left obverse periphery. There are some minor marks from its brief stay in commerce, none of which impede the wonderful eye appeal.

PCGS 16, NGC 28, CAC 4. This coin sold for \$6,000 in November 2017 before selling in April 2018 for \$5,520.; as the ONLY CAC-approved AU55 to sell in auction, we think it really should sell for more; the current Collector's Universe value is \$6,500. A very challenging issue that displays a look that even the pickiest of collectors will enjoy!

PCGS# 8245 | ESTIMATE: \$5,000+

**LOT 325****\$5 1901 NGC MS66**

Bright, shimmering with light yellow gold luster that gleams all over. Satiny-smooth surfaces are generally free from distraction and possess a great eye appeal.

PCGS 19, NGC 25. The most recent example to sell in auction realized \$2,520 in February 2018 and the current CU value is listed at \$3,750. VERY RARE any finer.

PCGS# 8402 | ESTIMATE: \$2,800+

LOT 326**\$5 1881 PCGS PR61 CAM**

This is a very affordable, and very pleasing for the more modest grade Proof Gold Rarity! Only 42 examples were struck, all delivered on March 26, 1881, and today, perhaps 16-20 survive in all grades, two of which are permanently impounded in institutional collections, one in the N.N.C. at the Smithsonian and one at the ANS

Rich, reflective mirrors survive despite the light mishandling. It is likely that someone unknowingly spent it, and shortly after, a sharp eyed collector recognized the different finish to the surfaces, saving it for posterity. There are a few minor nicks and lines, but the eye appeal is certainly aided by the bold mirror sheen and frosted devices that stand out with nice contrast. The eye appeal is much stronger than you might expect at this grade level.

PCGS 1, NGC 0. We cannot trace this coin in auction, and it may be a coin that was purchased over the counter in a coin shop, graded, and held by the owner, before making its way into the marketplace. Proof Gold coins are the caviar of numismatics, and this important rarity is certainly in the budget range of most advanced collectors. If you never dreamed you could afford an earlier, larger denomination proof gold coin here is your opportunity. The current Collector's Universe value is listed at \$8,750, and this one should bring around that amount

PCGS# 88476 | ESTIMATE: \$7,000+

**LOT 327****\$5 1908 INDIAN. NGC MS65 CAC**

A lovely GEM Indian Head half eagle! Anyone who has collected gold coins knows that these are VERY difficult to find in GEM.

The present example has a nice light gold tone over highly lustrous surfaces. The incuse devices are deeply impressed into the planchet, offering full definition of all the details. A strong glass reveals a tiny tick or two, but none that are distracting. Even the dreaded field above the eagle is clean! How rare is that!

PCGS 237, NGC 111, CAC 50. The last two NGC/CAC coins to sell realized \$9,600, one was in our April 2018 Premier Session and the other in a June 2018 auction. The prices for CAC coins are much higher than those for non-CAC and this is one series where it does make a huge difference!

LOT 328

\$5 1910-S PCGS MS64

Despite a mintage of 770,200, this is a VERY RARE date in MS64 and is excessively so any finer, with fewer than 10 graded higher at PCGS

The present near-GEM 10-S half eagle is very high end for the grade and has a great orange-gold glow. Satiny brilliance brings out the details in the fully rendered incuse devices. The fields are generally very clean and free of anything more than a few tiny ticks seen with a strong glass. The eye appeal is very nice.

PCGS 20, NGC 18 The last PCGS coin without CAC approval sold in 2007. The most recent example sold in September 2018 for \$36,500. This is not the NGC coin that sold in the 2018 FUN auction. The current PCGS Price Guide value is listed at \$40,000. This date is excessively rare any finer, with just nine coins so graded. This coin presents an important opportunity for the Indian Head half eagle collector looking for a high grade example for their set. We know this coin will see intense bidding. Good luck!

PCGS# 8519 ESTIMATE: \$25,000+

**LOT 329****\$5 1913 PCGS MS64 CAC**

Beautiful and totally original, this Indian Head half eagle has a great look. Housed in a first generation PCGS slab, this coin is satiny and exceptionally well struck, a few microscopic marks kept it from grading higher.

PCGS 620, NGC 435, CAC 104. The most recent CAC example was sold for \$2,145 in our June 2018 Premier Session. The bid for CAC-approved coins is \$2,200.

Good luck!

PCGS# 8525 | ESTIMATE: \$1,800+

LOT 330**\$5 1914-D PCGS MS64+ CAC**

A very pleasing example of the type or the date. Only 247,000 were struck and precious few survive in GEM, making a 64+ like this a great option for most collectors.

Rich, totally original golden surfaces have a warm lustrous glow. The incuse devices are sharp and essentially fully impressed. Both sides show some very minor ticks, but they are accounted for in the assigned grade and the eye appeal is wonderful.

PCGS 297, NGC 254, CAC 47. PCGS has graded 40 in MS64+ and only 16 in MS65, making us think that there is a good number of resubmissions of the same coin in hopes of getting a 65 grade. The last PCGS to sell was not CAC and realized \$4,700 in June 2017. A CAC approved example sold in August 2016 for \$7,873. The current CU value is listed at \$6,100, and remember the value jumps to \$20,000+ in 65—if you can find one, there has not been one sold in nearly 6 years!

PCGS# 8528 | ESTIMATE: \$4,000+

**LOT 331****\$5 1914-S PCGS AU55 CAC**

With just a touch of rub in the fields, this pleasing AU has all the hallmarks of a PQ example. Good glossy luster and nicely preserved surfaces show no serious marks.

PCGS 134, NGC 254, CAC 8. This PQ example should bring well in excess of the current CU value of \$785, and the only CAC-approved example to sell was NGC-graded and brought \$718 in a January 2017 internet only auction.

PCGS# 8529 | ESTIMATE: \$800+

**LOT 332****\$5 1913 PCGS PR66+ CAC**

What an amazing PQ Matte Proof. Everything about this coin SCREAMS quality and eye appeal. We are so proud to offer this important rarity in this auction!

From an original mintage of just 99, all delivered on January 13, 1913, perhaps a total of 60-75 survive today, which include those impounded in institutional collections such as the Smithsonian and American Numismatic Society. PCGS and NGC have combined graded 52 examples and likely includes duplication. This one is tied for second finest graded at PCGS.

Awesome orange-gold coloration is the epitome of originality. Sharply struck devices are impressively pressed into the planchet. The sand blast finish leaves the surfaces with thousands of sparkling facets. A strong glass reveals perhaps one or two minor lines that do not detract and can only be seen at certain angles and we mention this only for full disclosure.

PCGS 11, NGC 11, CAC 10. There are 3 listed in 66+ on the population report, but it is doubtful that three separate examples exist. Only 3 are graded finer. This is NOT the one that sold in the 2017 ANA auction. The current Collector's Universe value is listed at \$79,500 and while PCGS has graded 3 finer, all PR67, none have sold in nearly a dozen years! This coin, and the 1914 that follows presents a very rare opportunity for the advanced Proof gold collector. Who knows when you will have another chance to buy these two amazing 20th century rarities!

PCGS# 8544 ESTIMATE: \$70,000+

LOT 333

\$5 1914 PCGS PR67 CAC

What an honor it is for LRCA to offer this stunning beauty! This is such an impressive SUPERB GEM Matte Proof Half Eagle. Tied for second FINEST graded, and one look at this AMAZING coin, and you can easily see why!

This is a very RARE date, from an original mintage of only 125, and perhaps today, around 60-75 survive in all grades. Keep in mind that at least three examples are permanently impounded in museum collections.

The matte surfaces are wonderful with their fine, sand blast texture; the thousands of tiny facets sparkle when they are hit by the light. It is also totally original showing off a great, olive gold color with rich tan overtones. This is not your typical bright yellow conserved example that has lost all of its original character. Every detail is sharply struck and the eye appeal cannot be beat. For the advanced collector of 20th century gold, this amazing coin presents a very rare bidding opportunity.

PCGS 2, NGC 5, CAC 2. ONLY a single PCGS PR67 CAC has ever sold in auction, realizing \$111,625 in November 2015. There is a single PCGS PR68 CAC that sold in March 2017 for nearly \$250,000. This coin has a SUPERB stunning look, that will delight even the most jaded of collectors--we have had a hard time putting it down--you will too! After 30+ years of operations, the fact PCGS has only graded two examples this high and one finer speaks volumes to the rarity of this date and the infrequency they appear in auction! Congratulations to the winning bidder, you just bought an amazing gold rarity!

PCGS# 8545 | ESTIMATE: \$100,000+

**LOT 334****\$10 1847-O PCGS AU58 CAC**

This exceptional quality 47-O eagle has a totally original array of rich orange-gold and olive accents over the satiny lustrous surfaces. Nicely struck devices show just the slightest hint of rub on both sides, but the details show essentially full definition. There is some slight friction in the fields, but we do not see any distracting marks or anything that would displease even the pickiest of collectors. This date is relatively easy to find in grades up to AU53, but it is scarce in AU58 and as the Population Reports show that CAC-approved examples are extremely rare.

PCGS 13, NGC 97, CAC 5. NO CAC approved example has ever sold in auction! There is a record for a non CAC PCGS example in February 2018 for \$5,520. If you collect CAC-approved New Orleans mint gold coins, you know how difficult they can be to obtain, even on the so-called "common" dates. This is a great example that has never been conserved and will fit nicely in any amazing set

PCGS# 8598 | ESTIMATE: \$5,000+

LOT 335**\$10 1848-O PCGS AU50 CAC**

This is a truly eye appealing and CHOICE AU 48-O eagle. The coin is totally original and this date is rare in AU and higher grades. The surfaces show a light trace of wear, and the eye appeal is better than you might expect for a 50.

Olive-green patinated gold has a light satiny look. There are no serious marks, just a few stray ticks from its time in commerce. The crustiness of the surfaces give this coin a truly superb look for the grade.

PCGS 17, NGC 21, CAC 4. The most recent example sold for \$5,040 in the recent ANA

auction. Prior to that, even a non CAC example sold for \$5,280 in February 2018. The current Collector's Universe value is listed at \$4,500. A 53 will cost around \$6,000 if you can find a CAC-approved example. What a great opportunity to add this rare date to your set!

PCGS# 8600 | ESTIMATE: \$4,500+

**LOT 336****\$10 1854 PCGS MS62 CAC**

This is a major condition rarity in the No Motto Liberty series.

There is just something about No Motto eagles from the 1850s that are very charming. They are truly conditionally scarce coins, the vast majority disappearing into circulation during the Antebellum, with very few quality pieces for collectors to pursue. The 1854 is a great example, the original mintage was modest, only 54,250 were struck. David Akers wrote that the "1854 is a rare date in any condition, and in AU or uncirculated condition it is very rare."

Between PCGS and NGC there are about two dozen Mint State coins graded, including some likely duplication. The presently offered coin has a choice look! A thick mint frost blooms with a warm glow on original surfaces. The fields and devices show some very minor ticks that account for the assigned grade. The design elements on both sides are generally crisp in definition. The eye appeal is excellent for the modest grade, and a true prize for the specialist!

PCGS 6, NGC 1, CAC 3. The most recent example to sell in auction realized \$18,001 in April 2018, and in August 2016 one sold for \$15,275. The current Collector's Universe value is listed at \$19,000 and there are only two coins finer at PCGS, all MS64 and none have ever sold in auction. This is about as fine as you will ever see. Good luck!

PCGS# 8613 | ESTIMATE: \$14,000+

LOT 337**\$10 1860-O PCGS AU55**

The final New Orleans mint \$10 struck before the Civil War, the 1860-O had a mintage of only 11,100. Like many AU and higher survivors, there is a distinctly reflective luster in the fields. The light friction is accentuated by the semi-PL nature of the luster. The devices are fully struck up and the definition is very sharp. A stray line or two are noted for full disclosure. The eye appeal is better than usually seen and we really do like the look of this CHOICE AU 1860-O \$10!

PCGS 17, NGC 39. The most recent non-CAC example sold in October 2016 for \$4,935; we sold one for \$6,169 in our June 2015 Regency Auction. The current PCGS Price Guide value is listed at \$6,750. This one is housed in an older blue tag holder and has not appeared in any auction we can find. Keep in mind that any grade higher is RARE and will cost into the five figures based on the PCGS values. A great No Motto \$10!

PCGS# 98631 | ESTIMATE: \$5,000+

**LOT 338****\$10 1868 PCGS AU55 CAC**

Due to a limited mintage of 10,630, this date is VERY RARE in any grade. The present orange-gold toned example is very pleasing and high end with only a touch of rub on the surfaces. Accents of peach, orange, and rose impart a strong, original eye appeal. This coin is very high end and worthy of a great collection of Liberty \$10s.

PCGS 19, NGC 25, CAC 6. The last PCGS/CAC example sold back in April 2012, bringing \$4,025. The current PCGS value is listed at \$3,800 and it would not come as a shock if this RARE \$10 brings a price in excess of that. Keep in mind that the Halt-Simpson Collection contained an AU58, and the finest is only MS62.

PCGS# 8653 ESTIMATE: \$3,200+

**LOT 339****\$10 1869 PCGS AU55**

Here is a VERY RARE early Motto eagle, one of the FINEST graded from an original mintage of 1,830 and PCGS estimates a total survival of 57. Typically seen in VF and XF grades, there are just three examples graded higher than the present AU55 at PCGS

While the fields show some friction and marks from circulation and bag storage, they do show a wealth of reflective sparkle that you would expect to see on a coin

that saw such a low mintage. The devices show bold striking definition with barely any perceptible wear on the reliefs. Olive-peach hues over orange-gold patinated surfaces give this coin a totally original and high end look

PCGS 7, NGC 7. The last one to sell realized \$12,925 in the 2016 ANA auction. More recently an NGC example, from the Admiral Collection, realized \$10,200. The current PCGS Price Guide value is listed at \$14,000 of Extreme Rarity any finer, this is about as fine as any collector could ever hope to own. Bound for an advanced collection and worthy of a serious bid

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

**LOT 340****\$10 1874-CC NGC VF35 CAC**

This is a visually impressive collector grade coin! We love the natural tone over the moderately worn surfaces. There is a remarkable amount of retained luster that survives in the fields. There is a wealth of detail to the design elements with just honest wear on the surfaces. While a more available date than others from Carson City, only 16,767 were struck.

PCGS 31, NGC 8, CAC 5. NO NGC VF35 has ever sold in auction, the last two CAC-approved auction appearances sold for \$4,320, one in August and one in February 2018.

This is an affordable early CC mint ten that will attract serious attention from the collector. Good luck!

PCGS# 8670 | ESTIMATE: \$4,000+

LOT 341**\$10 1880-O PCGS AU53 CAC**

A low mintage date, only 9,200 were struck, and today perhaps about 275 survivors are estimated known in all grades. Scarce in AU grades, this one is very original with a nice, old time collection look. Under the "crusty" (not a negative term) tone, a rich olive-green and golden hue glows with a shimmering luster. The devices are razor sharp, despite the minor wear on the highest points. The eye appeal is quite nice for the grade, and worthy of a premium bid from the specialist collector.

PCGS 27, NGC 25, CAC 4. The last one to sell was in the 2018 ANA auction, realizing \$4,920. We sold a non-CAC AU50 in our November 2016 for a hammer price of \$5,750. High end examples like this are worthy of placement in a high end collection!

PCGS# 8689 | ESTIMATE: \$4,600+

**LOT 342****\$10 1894 PCGS MS64+ CAC**

With such a large mintage, you would think these would be more common in GEM grade. Would you believe that in 30+ years of grading PCGS has graded only a single MS65 finer! This MS64+ is truly deserving of its near-GEM grade. Brilliant cartwheel luster boldly rolls over the honey-gold toned surfaces on both sides. The devices are sharply struck and are boldly defined. A strong glass reveals just the slightest sign of contact, none of the microscopic ticks impair the wondrous eye appeal.

PCGS 207, NGC 442, CAC 31. There are 14 graded 64+

at PCGS. Back when there were three MS64+s graded, this near-GEM sold for \$4,600 in November 2011. They have been selling between \$1,880 and \$2,820 in 2017 (none have sold in 2018). The current PCGS value is listed at \$3,250 and we think this coin could well bring close to that. The SOLE PCGS MS65 is CAC approved and sold in April 2011 for \$26,450--a gorgeous 64+ is a great value at today's levels!

PCGS# 8729 | ESTIMATE: \$2,200+

**LOT 343****\$10 1907 NO MOTTO. PCGS MS65 CAC**

A lustrous GEM example of this first year issue. A radiant satin frost sets the smooth surfaces aglow in golden vibrance. Well struck, with crisp definition throughout. A small patch of deeper, reddish toning at the reverse rim serves to identify this beauty.

PCGS 243, NGC 318, CAC 65. The last one sold in our July 2018 Regency Auction for \$8,225 and prior to that one sold for \$8,555 in an online auction. The current CU value is listed at \$8,500. What a great type coin or way to start your set! Good luck!

PCGS# 8852 ESTIMATE: \$7,500+

**LOT 344****\$10 1908-D NO MOTTO. PCGS MS63**

This is a rather scarce issue, despite a mintage of 210,000. Overall, the surfaces are very clean for the assigned grade. Both sides show off a pleasing satin frost, clearly above average in quality. Using a strong glass does not reduce the strong choice quality. Both sides are a beautiful even original gold color, and there are no spots or discoloration. Miss Liberty and the details are sharply struck and do stand out. The eye appeal is excellent!

PCGS 128, NGC 39. The most recent example sold cheap at the ANA auction, realizing \$3,840. Examples sold earlier this year

brought between \$4,080 and \$5,520 with the current Collector's Universe value being listed at \$6,150. Anything finer is going to cost into the five figures, making a CHOICE coin like this worthy of any Mint State set of Indian Head \$10s.

PCGS# 8854 ESTIMATE: \$3,600+

LOT 345**\$10 1909-S PCGS MS64+ CAC**

This coin is SUPER HIGH END!

Only a tiny "strike through" piece of lint (MINT MADE) on the reverse is all we see as keeping this coin from being a full MS65. Overall, the surfaces are really immaculate and have a satiny texture. A full luster shows off the gorgeous, even, and totally original gold colors. There are NO spots or stains. Miss Liberty and the details are lightly frosty and have crisp full strikes. Her face is NOT hacked up like you typically see. The eye appeal is super!

PCGS 47, NGC 33, CAC 6. How is this for hard to find? The last PCGS CAC piece to sell in auction brought \$9,987 January 2013! Recently, Legend WHOLESALD a nice regular MS64 (no plus) for \$8,500. This coin isn't really priced at any super premium even though there actually is a large quality difference. A PCGS CAC MS65 would cost at least \$20,000.00-and NONE have ever been sold via auction. The price list values for a coin like this are all wrong (lack of trades). We know we do NOT see any at all (if we did, we would buy them)! If you are building a great \$10 Indian set, here is a beauty!

PCGS# 8864 ESTIMATE: \$8,750+

LOT 346

\$10 1910-D PCGS MS66+ CAC

This is an excellent, high end 1910-D Eagle. No question this coin has been lovingly cared for since it came off the dies!

The superb quality surfaces are exceedingly clean and smooth; indeed only with a strong glass can you see some very light and scattered small contact. The coin looks more like a P Mint than a D Mint. A strong luster beams from all over. Both sides enjoy a stunning golden allure and there are NO spots or discolorations. Miss Liberty and every detail are sharply struck. The eye appeal is wonderful!

PCGS 45, NGC 43, CAC 21. PCGS has graded 9 in MS66+. The most recent example sold in our October 2017 Regency Auction and was part of the Crow River Collection for \$29,375. Extremely RARE any finer, with just three coins graded MS67 finer, the last one selling in 2010 for \$86,250. This is about as fine as you can ever hope to get for your world class collection, and will see very strong bidding! Good luck!

PCGS# 8866 ESTIMATE: \$22,000+

**LOT 347****\$10 1911-D PCGS AU58+ CAC**

The definition of a SUPER SLIDER! The 11-D \$10, like the \$2.50 and \$5 of this date is a key date issue, only 30,100 were struck and there are just not enough to go around in Mint State. Even AUs are very scarce and popular for collectors. The presently offered example has just the slightest touch of friction on the highest points, barely detectable to the naked eye. The surfaces are nicely patinated with an olive-gold that accents the nicely struck up devices. There is a minor mark or two that we note for accuracy, but they do not detract from the eye appeal. A perfect coin for the "everyman" collector.

PCGS 185, NGC 276, CAC 52. There are only TWO AU58+ graded at PCGS. The last one to sell brought \$6,600 in July 2018 and the other one sold for \$7,800 in September 2017. The current Collector's Universe value is \$8,000 and with Mint State coins being so scarce, this coin will delight many collectors looking for a high end piece to fill the hole. Good luck!

PCGS# 8869 ESTIMATE: \$6,000+

LOT 348**\$10 1911-D PCGS MS62**

A RARE date in Mint State, as most of the 30,100 mintage went into circulation. We believe that there is duplication in the Population Reports at this grade level in hopes of getting a 63 grade.

The present coin has a glowing satin luster that beams all over. Light honey-gold with a light rose coloration

accents the sharply struck up design elements. Typical surface quality as expected for the grade, with a few tiny ticks and lines seen, but none of them are singularly distracting or take away from the essentially CHOICE eye appeal.

PCGS 92, NGC 59. There are a wide range of prices realized just in 2018, two sold in March 2018, realizing \$10,200 and \$19,200 and one in June 2018 for \$12,600. The current PCGS value is listed at \$17,000. A 63 will cost in the \$20,000-\$25,000 range.

\$10 1911-D PCGS MS63

We looked really hard all over to see why CAC did not bean it. We are still wondering. However, they saw something, and they are firm. This is not your typical 11 D. Also, we do rate it VERY high end.

This coin is seriously superior to the typically dull and crusty 11 Ds we usually see. We looked really hard and saw exceedingly clean and smooth surfaces. There is some luster that sort of glows off the coin. Both sides are a deep gold color. There are zero spots or imperfections. Miss Liberty and the details are sharply struck and do stand out. The eye appeal is great especially for this date.

PCGS 42, NGC 11. The last one to sell in auction brought \$21,600 in August 2018. The current Collector's Universe Value is \$29,000. If you think you want a higher grade-good luck and expect to pay a ton (an MS64 NO CAC sold for \$70,500 in April 2017). We invite you or your representative to inspect this coin. If you are building a set, opportunity sure knocks loud here!

**LOT 350****\$10 1914 PCGS MS66+ CAC**

What an amazing SUPERB GEM piece. The quality absolutely is SUPER high end! Remarkable surfaces look like they have never been touched. Only using a strong glass and looking hard, can you find a small light tick on the reverse (which is all that keeps this GEM from MS67). There are no whacks or other issues typical to this date. A strong luster enlivens the crisp totally original deep yellow/orange gold color. Miss Liberty and the details are sharply struck and do stand out. The eye appeal is awesome!

PCGS 12, NGC 10, CAC 10. PCGS has graded only 5 in MS66+ and 3 in MS67. The last MS66+ PCGS CAC to sell in auction brought \$36,425 in our October 2017 sale of the Crow River Collection. Prior to that, one realized \$44,650 in April 2016 (this is not that coin). We can't stress enough how impossible pieces like this are to find today-especially with demand so strong. If you are building a SUPERB GEM \$10 set, this is a coin you do not want to miss!

Our sister firm, Legend Numismatics, has built the top 2 \$10 Indian sets ever (one is not registered). We know our GEM Indians! Do not think this date and grade are easy to find.

This coin is nothing but fabulous! We think only a tiny tick on the reverse keeps this coin from being an MS67.

Overall, the surfaces are satiny and do appear clean. A strong unbroken luster beams from all over. Both sides are a two tone original gold/deeper gold color. Miss Liberty and the details are sharply struck and stand out. The eye appeal is terrific!

PCGS 11, NGC 23, CAC 11. PCGS has graded 5 higher of which NONE are beamed in MS67. Prior to this coin selling, the last 1915 to sell in auction brought: \$29,375 in the 2017 ANA auction, and another brought \$30,550 in the 2017 FUN auction. As you can see, there is a dip in the market. With gold off, now is the time to buy coins like this. Opportunity could not knock any louder!

**LOT 352****\$20 1852-O PCGS MS61 CAC**

All New Orleans mint double eagles are RARE in Mint State grades, the present date is no exception! This coin ranks among the FINEST graded at PCGS, with just eight coins graded finer. In all, Doug Winter has opined that there are 15-20 Uncirculated survivors, and PCGS CoinFacts suggests 13. There is likely duplication in the population reports, and as they sit, the number of Mint State coins graded at both services is very small.

The present coin has a light golden-orange hue that glows with a semi-reflective prooflike luster that beams in the fields. The devices are sharply struck up and nicely frosted. We note some minor lines on the fields, but they do not detract from the superb eye appeal.

PCGS 7, NGC 7, CAC 1. While this may be one of the more available dates from this mint, it is very rare in Mint State. No PCGS MS61 has sold in the last decade. The Bass Gilded Age coin, a non CAC PCGS coin sold in the 2014 ANA auction for \$94,000. In MS61, the current Collector's Universe value is listed at \$55,000 and this one, with CAC endorsement should bring a premium bid! Worthy of one of the finest collections of double eagles!

**LOT 353****\$20 1853/2' PCGS MS61 CAC**

The only "overdate" in the double eagle series, the 53/2 is a very popular variety for advanced collectors. VERY RARE in high grade, this MS61 is tied for FINEST graded at PCGS.

Rich and totally original olive and "dirty" orange-gold toning on both sides. Clearly a coin that sat for a long time in either an old collector envelope or in a European bank board, as it boasts surfaces that possess what this cataloger refers to as "vault dust." Some minor bag marks are noted, but the surfaces are not as hacked up or choppy as you would expect on a coin of such modest Mint State grade.

The details are full, and they do not show any signs of wear. There is a lovely mint frosty bloom that can be seen in the fields that gives vibrance to the surfaces.

Walter Breen claims to have discovered this variety in 1959 and described it in his Complete Encyclopedia published in 1988. There is some recutting or something else seen under the three, leading to the 3/2 overdate. There is some debate as to whether it is a true overdate today. Dave Bowers says it is not, Doug Winter includes it in his book on Type I Double

Eagles, but says he can see merit in both sides. PCGS for its part continues to list it as a separate variety, but puts the underdigit in quotes. This condition Census example will delight any advanced collectors.

PCGS 10, NGC 3, CAC 6. The most recent example sold for \$26,400 in June 2018. Prior to that, the "Pueblo Collection" coin, which sold in the 2012 ANA auction realized \$46,000. The current PCGS value is listed at \$34,000 and we think this one will bring closer to that amount, its purley original look will delight any advanced \$20 collector. Good luck!

PCGS# 8909 ESTIMATE: \$25,000+

**LOT 354****\$20 1858 PCGS AU58 CAC**

This is NOT a dull, lifeless AU coin, nor is it horribly hacked up like so many examples you see. While over 200,000 were struck, most went into circulation. Unlike other Type 1 twenties that were recovered in the last 20 or so years from ship wrecks, no large hoard of 1858 double eagles has ever come out. This date is actually VERY RARE in Mint State. This one has a lot of surviving luster that brings the surfaces of this impressive coin to life, and it does look better than many low end MS graded coins we have seen.

PCGS 33, NGC 96, CAC 13. Two PCGS/CAC 1858 double eagles sold in 2018, one in February for \$10,200 and another in June for \$8,100. The current Collector's Universe value is listed at \$9,250. Quite RARE in any Mint State grade, this is about as high a grade as most collectors will ever hope to own. Best of luck in bidding, this GEM AU will delight any collector of gold coins!

PCGS# 8923 ESTIMATE: \$7,000+

**LOT 355****\$20 1859-S PCGS MS61**

This is your typical survivor of the 59-S, which almost always comes with abrasions. There are a few that we see on the obverse, which account for the grade.

The frosty lustrous surfaces grow throughout the fields and in the design elements, the pale orange-gold color is very pleasing. Typical bluntness of strike is seen, and should not be confused with wear, this coin is free of any actual wear and the eye appeal is really not at all bad.

There are perhaps 40-50 examples known in Mint State, but only one of those is from the wrecks of either the Brother Jonathan or the Republic.

PCGS 26, NGC 9. The most recent example to sell in auction realized \$11,400 in June 2018. Prior to that the sole CAC-approved example brought \$14,100 in February 2018. The current PCGS Price Guide value is listed at \$17,500 and the value jumps to \$25,000 in MS62. NONE are graded finer than MS63.

PCGS# 8928 ESTIMATE: \$9,500+

**LOT 356****\$20 1860 PCGS MS61**

WOW! For "only" a MS61, this coin has a look that in the days before grading would have been described as CHOICE BU! Take the image of a hacked up, baggy double eagle out of your mind, this is NOT that coin! The highly lustrous surfaces show only a few minor lines and ticks, none that are singularly distracting nor do they impair the bold Mint State eye appeal.

PCGS 42, NGC 27. This date is VERY RARE any finer, with just about two dozen graded higher at PCGS (including, no doubt, resubmissions). Three examples have sold in 2018, between \$4,800 and \$5,000. Prior to

that, these were selling, consistently, for between \$7,000 and \$8,000 (which is the current CU value). Anything finer will likely be a five figure rarity. A great antebellum Mint State double eagle that is not from the S.S. Central America.

PCGS# 8929 | ESTIMATE: \$4,500+

LOT 357**\$20 1864 PCGS AU58**

Civil War date gold, especially double eagles are always popular; while not as scarce as the 1862 and 1863 issues, in high grade, the 1864 is a very tough coin to find! Until the discovery of the S.S. Republic, there were precious few to go around.

Today, including those, about 275-280 examples in all AU grades are estimated to survive.

The fields are highly lustrous and have a sparkling, nearly prooflike flash as you rotate the coin in a light. A few minor abrasions are noted, but we really do not see any actual wear on the highest points, indeed, in the days before PCGS and NGC, it is likely this coin would have sold as Brilliant Uncirculated. The eye appeal is exceptional, better than normally seen.

PCGS 38, NGC 66. The most recent PCGS-graded coin had a CAC bean and brought \$18,000 in June 2018. The current PCGS Price Guide value is listed at \$20,000. VERY RARE in Mint State, this beautiful coin will delight any collector of Civil War numismatics or double eagles.

PCGS# 8941 | ESTIMATE: \$15,000+

**LOT 358****\$20 1864 PCGS AU58 CAC**

A very impressive example of this important Civil War double eagle! Offering a very original high end look, this coin has just the slightest touch of rub from a Mint State grade. Like most known examples, the surfaces are mildly abraded with a few minor marks, the most serious of which is in the lower right reverse. The surfaces are otherwise totally unlike many that you see, in that the surfaces are not conserved and show a rich, orange-gold with a superb glowing satin mint luster that gleams in the fields and in the protected devices. The eye appeal of this, despite the marks on the reverse, are extremely high end, and will fit into any advanced collection of Liberty Head double eagles, especially those focused on Civil War era coins.

PCGS 38, NGC 66, CAC 9. The most recent example sold in June 2018 for \$18,000, prior to that a non-CAC example sold in March 2016 for \$17,625. The current PCGS Price Guide value is listed at \$20,000 and this date is very rare in Mint State grades. We can see this highly desirable double eagle bringing a very strong price when it crosses the block. Good luck!

PCGS# 8941 ESTIMATE: \$18,000+

**LOT 359****\$20 1866-S NO MOTTO. PCGS AU55 CAC**

A very RARE and highly desirable double eagle issue, the last of the Type Ones. While the reported mintage was 120,000, many experts believe that a large number were melted and never released and while we may never know for sure how many were released into circulation, what we know is there are very few to go around in all grades (PCGS CoinFacts estimates about 300, while Doug Winter estimates 175-225). Regardless, this GEM AU55 ranks among the top 20 graded by PCGS. These were all struck in February 1866, before the new With Motto dies arrived.

The surfaces show a light friction in the fields and the highest portions of the devices, artifacts of a brief stay in commerce. A few ancient stray ticks can be noted, but they do not detract the eye. A bold satiny mint frost blooms on the obverse, while the luster on the reverse is distinctly reflective with a very attractive, semi-prooflike flash.

PCGS 10, NGC 24, CAC 3. The other PCGS/CAC sold in auction in November 2013 for \$88,125 and that is the only other recorded auction price for a PCGS AU55. The current

PCGS Price Guide value is listed at \$87,500. There are only eight coins graded finer at PCGS; a PCGS AU58 is a six-figure coin, the last one sold back in 2009 and the finest is the ex Saddle Ridge Hoard example that graded MS62. This is a real prize for any advanced double eagle specialist, among the finest PCGS coins available in the open market.

We wish every interested bidder luck as there will be intense bidding competition for this beauty—and we offer, in advance, a hearty congratulations to the successful bidder!

PCGS# 8945 ESTIMATE: \$65,000+

**LOT 360****\$20 1866-S MOTTO. PCGS AU58 CAC**

This is a great match to the previous lot, and would make a great transitional pair for the advanced gold collector. Early in 1866, the design was modified slightly to include IN GOD WE TRUST in the circle of stars on the reverse, however, the new reverse dies did not arrive in San Francisco until after some older No Motto dies were employed and coins put out into circulation.

The present near-Mint State coin is really a wonderful "super slider." Rich orange gold color dominates with areas of lighter gold that contrasts. The luster is essentially unbroken and glows over the satiny surfaces. Really the evidence of any time in circulation is so microscopic, the friction is barely noticeable on either side. There are a few tiny contact marks that we can see only with the help of a strong glass, none of which are inappropriate for the grade, nor do they affect the superb eye appeal.

PCGS 39, NGC 116, CAC 14. Typically these have been selling in the \$13,000-\$15,000 range and the current PCGS Price Guide value is listed at \$15,000. As expected this date is RARE any finer, and a CHOICE AU58 will fit nicely in any carefully selected set.

PCGS# 8950 | ESTIMATE: \$12,500+

**LOT 361****\$20 1867 PCGS AU55**

A lovely, original Choice AU example with just a touch of friction on the highest surfaces. Nicely struck and possessing a pleasing olive-gold patina on both sides. There are very few lines or marks to distract the eye. This date is scarcer in AU than you might expect for the mintage of 251,015.

PCGS 39, NGC 42. The last example sold in March 2018, which was CAC, and realized \$2,640 and the current PCGS value is \$3,000. With its wholesome look, this piece should see a similar result. A nice addition to any holding of With Motto Double Eagles.

PCGS# 8951 | ESTIMATE: \$2,200+

LOT 362**\$20 1869-S PCGS AU55 CAC**

Very eye appealing for the grade, this Type II double eagle is totally original and offers a great look. Rich orange-gold color comes to life with a pleasing satiny sheen. Well executed in terms of strike, the details are nicely rendered. The surfaces show just a touch of friction and there are only a few tiny ticks noted under a strong glass, typical for the grade.

PCGS 127, NGC 364, CAC 31. Do not let the populations fool you, these do not come up for auction too often. The most recent PCGS/CAC example to sell in auction realized \$2,468 in June 2017. The current PCGS value is listed at \$3,000. A collection of Philadelphia and San Francisco mint Type II double eagles in CHOICE AU grades would make a very neat short set to work on.

PCGS# 8956 | ESTIMATE: \$2,000+

**LOT 363****\$20 1872 PCGS AU58 CAC**

A very attractive, near Mint State 1872 Double Eagle with a lovely orange gold color and nearly complete mint luster. The grade is accounted for more by moderate contact marks than actual wear, which can be seen only with the most determined viewing with a glass. Most coins of this date assigned low Mint State grades will be nearly indistinguishable from this one!

PCGS 132, NGC 264, CAC 34. The current PCGS Price Guide value is listed at \$2,750, and recent APRs are right in that range. Typically the best one can hope for is a choice AU such as the present coin, or a low mint state coin that will be only marginally better. AU58 represents a great value and should be bid accordingly.

PCGS# 8963 | ESTIMATE: \$2,500+

**LOT 364****\$20 1872 PCGS AU58 CAC**

If you are looking for a really sweet and HIGH END Type II \$20, here you go! The totally original surfaces display some scattered ticks from bag storage. A surprisingly strong original and unbroken luster beams boldly from all over. The surfaces are a refreshing original gold color. This is NOT a dirty coin and there are no spots or discoloration anywhere. Miss Liberty and the details are well struck. The eye appeal is really great!

PCGS 132, NGC 263, CAC 34. The last PCGS CAC piece to sell in auction brought \$2,760 in the 2018 ANA auction. The current Collectors Universe Value is \$2,750. We can't say enough how we rarely see these as clean and colorful as this coin. Good luck!

PCGS# 8963 | ESTIMATE: \$2,500+

LOT 365**\$20 1872-S PCGS MS61 CAC**

While not a rare date in the absolute sense, it is scarce in MS61, and incredibly RARE any finer. Dave Akers and Ron Guth both say that you can find an example, but to find a nice one is very difficult, a fact borne out by the CAC populations.

The present coin is totally original, with the dusty look of a coin that was recently brought out of a European or South American holding. Remember, lots of double eagles were used for overseas payment and in many cases have been held in bank vaults ever since. There are a few minor abrasions from bag storage, but they are totally appropriate for the assigned grade and do not detract from the excellent eye appeal that this lovely Mint State example possesses. This is what a natural Liberty Double eagle looks like!

PCGS 75, NGC 92, CAC 12. This date is VERY, VERY RARE any finer! PCGS has graded just 10 coins finer, the finest being a single MS63. The last PCGS/CAC coin sold in auction back in June 2011, that is AGES ago! Even then, it realized \$4,888. More recently an NGC/CAC sold in 2013 FUN auction for \$7,638. The current Collector's Universe value is listed at \$4,250. Anything finer is clearly a five figure coin, so if you need a Mint State example but do not want to pay \$10,000+ here is a great coin for you!

PCGS# 8965 | ESTIMATE: \$3,600+

**LOT 366****\$20 1874-CC PCGS XF45**

A popular collector grade early date CC \$20. While many of the gold coins from Carson City are very scarce to very rare in all grades, the 1874-CC saw a mintage of 115,085, making it a great representative for the mint.

Decent quality surfaces show only moderate wear. The honey-wheat gold coloration shows rich accents of orange tone in areas. A glass reveals some minor old bag marks acquired during its stay in commerce, but it is not at all hacked up or unappealing visually in any way.

PCGS 286, NGC 282. A very cool piece for any gold coin holding, and keep in mind most other dates from this mint will cost much more in this grade. The current PCGS value is listed at \$4,150. Good luck!

PCGS# 8971 | ESTIMATE: \$3,500+

**LOT 367****\$20 1882-CC PCGS XF45 CAC**

A pleasing Choice XF Carson City double eagle that will delight any collector. The eye appeal is excellent for an XF, which normally comes cleaned or hacked up. This coin just shows some minor friction in the fields and light wear on the devices. The quality is beyond what you normally see.

PCGS 190, NGC 132, CAC 16. NO PCGS/CAC example has ever sold in auction. Only 4 NGC/CAC coins have ever sold, selling in the \$3,400-\$4,100 range since 2013. The most recent PCGS coin brought \$3,480 in September 2018. The current CU value is \$3,750. CC gold is always popular and adding some to any collection of U.S. gold is a great idea!

PCGS# 8997 | ESTIMATE: \$3,200+

**LOT 368****\$20 1884-CC PCGS AU58 CAC**

This is a gorgeous, high end for the AU58 grade 84-CC \$20. Exhibiting nearly full mint brilliance in the fields, the surfaces show just the most minute touch of rub. The details are fully rendered and have bold definition throughout. Accents of rose caress the rich golden color on both sides. There are a few minor ticks from bag storage none of which are distracting or affect the "GEM AU" eye appeal. If you are looking for a single \$20 from the Carson City mint, the 84-CC is a great year, as it is one of the more readily available; but in AU58 it is truly scarce, and Mint State coins are even more so.

PCGS 228, NGC 474, CAC 57. There must be much duplication in the population figures in attempts to garner a Mint State grade. The current PCGS Price is \$7,500 and there are a wide range of auction prices realized for PCGS/CAC examples, the most recent of which sold for \$6,360 and others have sold in the \$7,000-\$8,000 range. This is a great looking coin that will realize a strong bid!

PCGS# 9001 | ESTIMATE: \$7,000+

**LOT 369****\$20 1889-CC PCGS AU58 CAC**

There is something extremely romantic about Carson City double eagles, big gold coins that have the aura of the wild west and the myths of bandits, bank robberies, stage coach chases, and the like.

This eye appealing AU58, combines that romance with a numismatic quality that will entice any collector.

Nice underlying luster has nearly full rolling cartwheels on both sides.

There is just the slightest touch of friction on the highest points of the well struck devices. There are a few

minor contact marks, common enough on such a large gold coin. The eye appeal is excellent for the grade.

PCGS 123, NGC 238, CAC 25. The last PCGS/CAC coin sold in auction for \$9,900 in February 2018. Prior to that, an NGC/CAC coin sold for \$12,925 in April 2017. The current PCGS value is listed at \$10,500 and this coin will see fierce bidding when it crosses the block!

PCGS# 9011 ESTIMATE: \$8,000+

**LOT 370****\$20 1892-CC PCGS XF40 CAC**

Here is another "common" Carson City \$20, that is not as common as the populations might have you think. This date and grade is very rare with CAC endorsement, there are only TWO on their population report.

The surfaces show light to moderate wear and a very pleasing orange-olive tone on the surfaces. The eye appeal is great and totally original!

PCGS 62, NGC 40, CAC 2. NONE have ever sold in auction. The current PCGS value is listed at \$3,650 and this coin, with its exceptionally high end eye appeal should bring close to that!

PCGS# 9020 | ESTIMATE: \$2,800+

LOT 371**\$20 1893-CC PCGS AU55**

Here is a sharply struck, lustrous example of the final double eagle issue coined at this popular western mint. All the romance of the wild west that is associated with the Carson City mint makes any coin from this mint popular with collectors, and the large double eagles particularly so. This AU55 has a wonderful look with deep orange-gold color, vibrant luster and just a hint of friction that we see in the fields and on the high points. There are some minor friction lines which we note, but this coin is certainly not hacked up or conserved as normally seen.

PCGS 75, NGC 75. The current PCGS Price Guide value is listed at \$7,500. While the most recent example brought only \$4,800 sold in July 2017 for \$5,875 and one sold in January 2017 for \$6,463. This is a very popular issue and the presently offered coin is worthy of any gold coin collection.

PCGS# 8963 | ESTIMATE: \$5,000+

LOT 372

\$20 1898-S PCGS MS64 CAC

A lovely, fresh, borderline GEM Liberty \$20. High end for the assigned grade, with a bold, frosty luster and very pleasing surfaces. Just a few bag marks are noted, which account for the grade, none of which affect the eye appeal overall.

PCGS 1490, NGC 1176, CAC 187. The current CU value is listed at \$2,300 and the most recent PCGS/CAC example to sell in auction brought \$2,640 in the recent ANA auction. Very scarce in GEM, this coin will make a nice addition to any collection of gold coins.

PCGS# 9034 | ESTIMATE: \$2,200+

LOT 373

\$20 1900 PCGS MS65 CAC

Superb surfaces are semi satiny and are surprisingly clean overall. There are a few light frost breaks and a small scuff/frost break you can only see using a strong glass. A strong glowing luster shows off totally original yellow/pale greenish gold colors. There are NO spots or discolorations save for a tiny speck of mint grease on the obverse. Miss Liberty and the details are frosty and are well struck. We grade the reverse an easy MS65+. The eye appeal is super!

PCGS 357, NGC 345, CAC 36. The last PCGS CAC sold in auction brought \$4,080 in the 2018 ANA auction; prior to that, there has not been one sold in auction since March 2015 for \$5,170. There is no big premium for this date over the 1904, which has a much bigger population in GEM. Gold bugs know the timing is right to buy coins like these.

\$20 1903 PCGS MS66+

Here is a truly SUPERB and special \$20 Liberty! It is also the SOLE FINEST graded for the date.

Thick satiny surfaces are remarkably free of any major marks. Only using a strong glass and really looking around can you find a light scuff or two—NONE are visible to the naked eye. We grade the reverse a full MS67. A thick satiny luster is unbroken and beams from all over. The colors are a rich original gold/deeper gold. Miss Liberty and the details are frosty and are fully struck. The eye appeal is mesmerizing!

PCGS 1, NGC 0. Not even a non-→ MS66 has ever sold in auction. The current Collectors Universe Value shows \$75,000. This coin will be a major addition to any GEM set of \$20 Libs!

PCGS# 9043 ESTIMATE: \$50,000+

LOT 375

\$20 1906 PCGS MS66

An ULTRA HIGH END '06 \$20—vastly superior to virtually all 1906 double eagles we have seen. Tied for SECOND FINEST graded, there is just one coin graded finer at PCGS

The surfaces are exceptionally clean and devoid of any marks, lines, or ticks of any size. The wonderful, velvety surfaces show off a dramatic luster that brings out a totally ORIGINAL rich, orange-gold patina. The well struck devices are extremely frosty. The eye appeal is beyond reproach and impeccable!

PCGS 2, NGC 1. The most recent example to sell was CAC approved and sold for \$64,625 in our July 2018 Regency Auction. Prior to that, there has not been one sold since September 2006! The current Collector's Universe value is listed at \$75,000. A real prize for the advanced Liberty Head double eagle collector and a very important opportunity that is not to be missed!

PCGS# 9049 ESTIMATE: \$65,000+

**LOT 376****\$20 1872 PCGS PR63 DCAM**

There is something truly majestic looking at deep cameo Proof double eagles. The visual impression these large gold coins leave you with is quite striking, and you really have to be ultra jaded to not sit in awe. Most collectors, if they are lucky enough to even hold one, usually see the more "common" dates of 1896-1900, or the ultra rare Proof-Only dates of 1881-1884. The 1872 is an unsung rarity, with about 10-12 known from an original mintage of 30 pieces. The current certification figures of NGC and PCGS prove this, as there are 11 certified in all grades and designations between the two firms combined. We are proud to offer this wildly contrasted, visually stunning double eagle.

Upon first impression, this coin has a MONSTER look.

Deeply mirrored fields are blindingly reflective and provide a dramatic and eye-arresting contrast with the frosted golden devices. The fields have a superb orange-peel texture and rich orange-gold coloration. A patch of lines, we are calling "cabinet friction" on the cheek and in the field facing Liberty's profile account for the assigned grade, BUT, these lines are only visible at certain angles.

Do not let the grade fool you, the eye appeal is simply stunning, despite the more modest grade, it really is a seductive and highly enticing coin of great numismatic importance!

PCGS 2, NGC 0. There is only one auction record in the 2010 decade, when this coin sold for \$58,750 in the 2015 FUN auction; that sale was held during a weak market.

Prior to that, one sold in July 2009 for \$71,875. The current PCGS Price Guide value is listed at \$78,500. This extremely rare coin is even rarer in any higher grade, with just 2 DCAMs graded finer at PCGS, a 64 DCAM and a 66 DCAM, neither of which have ever sold in auction, and none of which are approved by CAC. This is an incredibly important opportunity for the advanced collector of Proof gold to acquire a major, underrated rarity; there is no reason why a coin like this should be valued less than \$100,000!

PCGS 530, NGC 389, CAC 64 The last NGC/CAC coin sold in November 2014 for \$4,406 We just sold a PCGS/CAC coin for \$4,818 in our September Regency Auction. This coin should see very spirited bidding Keep in mind the value more than doubles in the next step up!

This is a wonderful example of a much tougher date to find in true GEM.

There is no question this coin is totally not messed with The surfaces do offer a strong luster and have no major problems. Both sides are a pleasing natural gold color. There are no spots or discolorations The eye appeal is great!

PCGS 560, NGC 311, CAC 60. PCGS has graded 50 in MS64+. The last one to sell in auction brought \$5,760 August 2018 Prior to that, one sold in December 2017 for \$7,800 The current PCGS Price Guide value is listed at \$6,250. Keep in mind that this date is VERY RARE in GEM, with a PCGS MS65 CAC going to cost \$20,000-\$25,000. This near-GEM presents a great opportunity for the collector!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

\$20 1916-S PCGS MS66+ CAC

Tied for **FINEST** and what a very **HIGH END** Premium Quality **GEM** this is! It really is **SPECTACULAR**! While not a rare date, there are not, after over 30 years of grading, any **MS67s** at **PCGS**!

This coin has a wonderful, high end luster that glows all over the impressive, clean, and beautifully colored surfaces. A rich orange-gold, with subtle greenish hues that comes to life at certain angles in a light. Careful inspection reveals nothing but the slightest tiny tick or two, seen only under strong magnification. This coin is truly beautiful! This coin is about as close to **SUPERB** as you are going to get, and the quality and eye appeal are all there and then some!

PCGS 192, NGC 146, CAC 30. Of those at **PCGS**, just four are graded **MS66+**, **NONE** have ever sold in auction, and keep this in mind, of the four, one is impounded in the Bob Simpson Collection and the other in the D.L. Hansen Collection, immediately making the possible population of 4 really no more than 2! This remarkable **GEM** will sell for very strong money. If you are building a **SUPERB** set of **Saints**, you need this coin. Being tied with the Simpson and Hansen coins, you know it is in rarified company indeed! Good luck!

LOT 382

\$20 1924-S PCGS MS64+ CAC

Our sister company, Legend Numismatics, has exclusively built the #1+2 (#2 not listed) Saint sets. We know how they should come. This coin almost never come like this! We do grade it a MS64 8+++ . It IS of full Legend quality!

Remarkable surfaces are exceedingly clean and smooth looking. In fact, they have a thick satiny texture. Even when using a strong glass, all you can find if you look hard are a few tiny frost breaks. It is amazing this coin is not bag marked up like many of the others we see.

A strong (for a 24-S) luster beams from all over. Both sides are a fully original gold color. There are no spots or discolorations anywhere. Miss Liberty and the details are frosty and are well struck. The eye appeal is wonderful!

PCGS 116, NGC 118, CAC 23. PCGS has graded 12 in MS64 + (we'd bet this coin has been tried more than once). NOTE: PCGS has graded 6 in MS65 and only 1 is beamed. The last PCGS CAC piece to sell in auction brought \$44,063 in March 2013-5 LONG years ago. In today's dry market we can see this bringing much more. Even the low Collectors universe Value of \$43,500 shows this date and grade's value has not been upgraded. If you are building a GEM set, you won't want to miss this coin!

PCGS# 9179 ESTIMATE: \$40,000+

**LOT 383****\$20 1927 PCGS MS65 CAC**

Housed in a first generation PCGS holder, this is what GEMS should look like. Brilliant luster, very clean surfaces, sharply struck devices and a great color all combine to make one gorgeous Saint in a quality that you don't often see in coins that are graded 65 today; indeed we have seen MS66s that do not have the bold eye appeal of this one!

Out of nearly 50,000 graded between PCGS and NGC in MS65, only 1584 are CAC approved, which explains the premium CAC examples command.

PCGS# 9186 | ESTIMATE: \$1,650+

**LOT 384****\$20 1927 PCGS MS66 CAC**

A VERY pleasing MS66 and VERY HIGH END Saint. Superb surfaces are clean and smooth overall. Just a few trivial frost breaks and extremely pinpoint ticks can be found using a strong glass. The luster is strong and is glowing. There is actually some light semi prooflike mirrors on the upper obverse. Both sides are pretty deeper gold/pale pinkish gold color. There are NO spots or stains. Miss Liberty and the details are frosty and are sharply struck. The eye appeal is superb!

PCGS 6278, NGC 2605, CAC 513. The current WHOLESALE BID is \$3,525. All of the sudden there are multiple bidders for these. Looks like demand is picking up again.

PCGS# 9186 | ESTIMATE: \$3,400+

**LOT 385****\$20 1928 PCGS MS67**

Clearly this coin hit CAC on a bad day. We've seen many similar looking coins beamed. BUT they have made their decision and we will all live with it. We do like the coin-or else we would not have taken it for the auction.

The surfaces are surprisingly natty (clean and smooth). Even using a strong glass all you can find a few tiny light frost breaks scattered about. A very good luster beams from all over. Both sides are a beautiful even original deeper yellow gold color. Miss Liberty and the details are frosty and are sharply struck. They even glow with a dusting of pinkish gold. There are NO spots or discolorations. The eye appeal is really wonderful!

PCGS 89, NGC 91. The last PCGS (NO CAC) to sell in auction brought a strong \$15,600 in August 2018. No fluke, another non CAC brought \$14,400 in a different August 2018 auction. We assure you, this coin is at least equal (and probably better) than either of those coins that sold. True SUPERB GEM MS67 Saints are impossible to find these days.

PCGS# 9189 | ESTIMATE: \$10,000+

**LOT 386****25C 1893 ISABELLA. PCGS MS65**

A classic look with multihued antique patina, that shows a very pleasing vibrance on the obverse. Blue tinged, golden-russet surfaces blend nicely and are brought together by the semi-reflective underlying luster. The details are fully rendered on both sides and the eye appeal is very nice.

PCGS 507, NGC 431. Non-CAC examples have sold in 2018 from \$900 to \$2,875 and the current PCGS value is \$1,700. The only quarter in the classic series and this one would fit nicely in any GEM set.

PCGS# 9220 | ESTIMATE: \$1,000+

**LOT 388****\$1 1900 LAFAYETTE. PCGS MS64**

The unique silver dollar commemorative struck in the early years, the Lafayette dollar has always been in demand from collectors. Only 36,026 were struck and the average coin grades in the MS63-MS64 range. This one however does not look like your average example, with a lovely blue, red, gold, pewter melange of color that graces both sides over the sharply struck design elements and satiny lustrous fields.

PCGS 1000, NGC 735. The most recent example realized \$1,680 in the 2018 ANA auction and one sold for \$2,400 in the Central States auction. The current PCGS value is listed at \$2,200 and this one could see bidding to that level when it crosses the block.

PCGS# 9222 | ESTIMATE: \$1,500+

**LOT 387****25C 1893 ISABELLA. PCGS MS66 CAC**

This Isabella's eye appeal is off the charts! A brilliant luster brings out the awe inspiring blue, violet, green, and amber-orange. The luster gleams with bold rolling cartwheels on both sides. Sharply struck up details are full and the eye appeal is quite exceptional.

PCGS 267, NGC 139, CAC 97. The current PCGS value is listed at \$2,650 and this one is truly worthy of a strong bid! Recent PCGS/CAC APRs are in the \$2,500 to \$3,360 range. This coin was crossed from an NGC "*" holder, truly worthy of that accolade for its high end eye appeal.

PCGS# 9220 | ESTIMATE: \$2,000+

**LOT 389****50C 1921 ALABAMA 2X2. PCGS MS66+ CAC**

Among the 20 finest graded 2X2 Alabamas at PCGS, this gorgeous Premium Quality GEM screams originality! A band of beautiful toning forms a partial halo around the obverse, the subtle variations of color show wonderful coppery reds, deep blue, and autumnal brown gold. The remainder of the surfaces are a pearly satiny silver that are boldly awash in a brilliant lustrous sheen. Very well struck up devices stand out and just a few tiny ticks can be found under intense scrutiny with a strong glass. From a mintage of only 6,000 this is one of the scarcer early commemoratives.

PCGS 147, NGC 87, CAC 51. PCGS has only graded 10 examples in MS66+ with a mere 9 coins finer. The most recent PCGS MS66+ CAC to sell in auction realized \$3,300 in our April 2017 Premier Session. A PCGS MS66 CAC (not a +) sold in April 2018 and it did not have the attractive toning this SUPERB quality GEM possesses. The current Collector's Universe value is \$3,100 and it jumps to \$16,500 in MS67. A great coin for any commemorative collector.

PCGS# 9225 | ESTIMATE: \$2,800+

LOT 390

50C 1936 ALBANY. PCGS MS67+ CAC

What can we say about this Albany, other than it is SUPERB! With only three coins finer, this beautiful coin ranks among the VERY FINEST examples available to collectors. Sharply struck throughout, the devices are crisp and the satiny luster is flawlessly drenched on both sides

PCGS 216, NGC 158, CAC 89. There are only 23 graded MS67+ at PCGS. The range of APRs is wide for PCGS/CAC MS67+s, the most recent selling for \$1,440 in the 2018 ANA auction; one sold for \$2,585 in the 2017 FUN auction. The current Collector's Universe value is listed at \$1,650 and this one, with its amazing looks can easily surpass that level. Keep in mind that a 68 will cost \$20,000+!

PCGS# 9227 | ESTIMATE: \$1,400+

LOT 392

50C 1937 ANTIETAM. PCGS MS67+ CAC

Of all the commemorative issues, those that relate to the Civil War are among the most popular. While the designs of many commemoratives are rather plain and in lower relief, the conjoined heads of General Lee and General McClellan and the Burnside Bridge and Antietam Creek are struck in a relief that is higher and they stand out. This beautifully toned example shows nothing but the most insignificant tick or two, which are all only visible with a strong glass. Both sides have a rich, totally original toning imparted from long term storage in the original holder, and the luster booms with an amazing brilliance through the color.

PCGS 400, NGC 199, CAC 140. There are 32 graded MS67+ and only 24 finer. The most recent PCGS/CAC example brought a very strong \$9,000 in the 2018 CSNS auction. A similar toned coin sold in the 2016 ANA auction for \$3,290. This one will see fierce bidding for sure, from any commemorative collector looking for a SUPERB TONED GEM!

PCGS# 9229 | ESTIMATE: \$2,500+

LOT 391

50C 1937 ANTIETAM. PCGS MS67 CAC

This is a great looking Antietam! Awash in iridescent toning on both sides, more so on the obverse than reverse, the eye appeal is awesome! Highly lustrous and well struck, this coin will delight any collector of classic commemoratives.

PCGS 368, NGC 183, CAC 140. The most recent example to sell in auction realized \$3,600 in June 2018 and in the same auction one brought \$1,140. An NGC/CAC sold for \$4,920 in April 2018. CU obviously has not taken into account the eye appeal, and is listed at only \$1,150. This SUPERB GEM will bring fierce bidding for sure!

PCGS# 9229 | ESTIMATE: \$1,000+

LOT 393

50C 1936-S BAY BRIDGE. PCGS MS67 CAC

SUPERB in every respect! A beautifully toned, well struck, and lustrous Bay Bridge. The surfaces are flawless and totally original with a very high end look! One of the more popular issues thanks to a great reverse design.

PCGS 205, NGC 89, CAC 102. The most recent PCGS MS67 CAC examples sold in the April 2018 CSNS auction, realizing \$1,560, \$2,160, and \$2,400 each. We sold one in our July 2017 Regency Auction for \$1,704. This one will see very fierce bidding when it crosses the block.

PCGS# 9254 | ESTIMATE: \$1,500+

**LOT 394****50C 1935-S BOONE. PCGS MS67 CAC**

This is a beautifully toned SUPERB GEM Boone. Rings of rich violet, crimson, royal blue, and deep amber gold ring around frosty silver central reverse devices, while the obverse has just a touch of iridescent silver and touches of gold at the rim. The eye appeal is superb, you will be hard pressed to find another with a look like this!

PCGS 40, NGC 32, CAC 20 The last PCGS/CAC example realized \$2,291 in our May 2017 Regency Auction. This coin's eye appeal is stronger and should realize a stronger price. The current PCGS value does not take into account this coin's stunning looks!

PCGS# 9260 | ESTIMATE: \$1,500+

**LOT 396****50C 1937 BOONE. PCGS MS67+ CAC**

This glorious SUPERB GEM is tied for second finest graded at PCGS and it is truly a very high end example of the type

A screaming luster on the obverse beams from all throughout the fields, giving the portrait of Daniel Boone, with its bold frosted look, a halo of amber-gold and icy-silver blue. The reverse has a nice frosty, pearly silver look. This coin really is one or two tiny ticks away from an even higher grade

PCGS 137, NGC 56, CAC 54. There are 19 graded MS67+ at PCGS and only three coins finer. The most recent example realized \$3,120 in April 2018. If you could find a 68--and that is a big if--it would cost \$10,000 or more!

PCGS# 9270 | ESTIMATE: \$2,200+

**LOT 395****50C 1937 BOONE. PCGS MS67+ CAC**

Bested by only three coins, this SUPERB GEM ranks among the very FINEST known examples, and even a cursory look will prove that! The surfaces are gloriously smooth, and brilliantly lustrous. The superb luster glows in the fields under a dusting of icy blue, steely olive, and pale gold that is richer towards the rims. The devices are sharply struck and the reverse is especially crisp. The eye appeal is simply stunning, and cannot be beat!

PCGS 136, NGC 55, CAC 54. PCGS has graded only 18 in MS67+ and the most recent CAC-approved example realized \$3,120 in April 2018. Prior to that, the only ones to sell in auction were back in 2016. Only three examples, all MS68 are graded finer, and the most recent 68 sold for \$9,106 in 2014. A real prize for any discerning commem collector demanding the best.

PCGS# 9270 | ESTIMATE: \$1,500+

**LOT 397****50C 1937-S BOONE. PCGS MS67 CAC**

A very cool Boone half dollar, with a distinctive, semi-prooflike flash in the fields. Icy-lustrous fields show off a steely-blue and clear gold toning on both sides. Sharply struck up, this SUPERB GEM has a great look that will delight any serious collector.

PCGS 45, NGC 26, CAC 18. EXTREMELY RARE any finer, with just eight such coins graded at PCGS. The last PCGS MS67 CAC to sell brought \$1,440 in the 2018 FUN auction. This coin's great look will make it bring around the current CU value of \$1,500

PCGS# 9272 | ESTIMATE: \$1,100+

**LOT 398****50C 1925-S CALIFORNIA. PCGS MS67 CAC**

Glorious and SUPERB in every way! An incandescent luster glows and swirls in the problem free and smooth surfaces surrounding the sharply impressed devices. Delicate and original pastel iridescent earth tones of gold, pewter, olive, pearl, and tan. Everything is awesome about the eye appeal of this California!

PCGS 121, NGC 138, CAC 73. We sold the most recent PCGS/CAC example for \$2,233; prior to that, one sold in November 2017 for \$3,600. The current PCGS value is \$1,850 and this one is so beautifully preserved that level will be surpassed quickly for sure!

PCGS# 9281 | ESTIMATE: \$2,000+

**LOT 399****50C 1936-D CINCINNATI. PCGS MS67 CAC**

High end and totally original with a light pastel iridescent toning that is brought out by a rich, frosty satin luster. The surfaces are essentially flawless, only a powerful loupe reveals a light tick or two.

Only 5,005 were struck. PCGS 48, NGC 32, CAC 28. The most recent example to sell realized \$2,585 in March 2017. The current PCGS Price is \$2,300 and this date is very difficult to find in any higher grade.

PCGS# 9284 | ESTIMATE: \$2,000+

**LOT 400****50C 1936 CLEVELAND. NGC MS67+ CAC**

A stunning Cleveland! Highly lustrous surfaces gleam bursting forth from below a layer of rose, emerald, and earthy violet tones. The surfaces are the epitome of cleanliness and are totally devoid of any distracting marks of any kind or size. The eye appeal is wonderful.

PCGS 86, NGC 59, CAC 50. NGC has graded only 3 in 67+ and four coins finer. None of the NGC coins have ever sold in auction. A PCGS/CAC coin sold in March 2016 for \$2,115 and the current Collector's Universe value is listed at \$2,600. NGC has graded just four MS68s finer. Bound for a great set of Classic Commemorative half dollars.

PCGS# 9288 | ESTIMATE: \$1,500+

**LOT 401****50C 1936-S COLUMBIA. PCGS MS67+ CAC**

An exquisitely preserved SUPERB GEM. A great looking coin with a flashy luster, sharply struck devices, and touches of golden color at the rims. The eye appeal is amazing.

PCGS 128, NGC 130, CAC 74. There are 14 graded MS67+ at PCGS, and only 13 coins are finer. There has not been one sold in auction since September 2015, where one realized \$999 and the current PCGS value is listed at \$1,400. A great looking coin that is deserving of a place in a high caliber set.

PCGS# 9293 | ESTIMATE: \$1,000+

**LOT 402****50C 1892 COLUMBIAN. NGC MS67**

The Columbian Expo half dollar is the first issue in the extensive series of classic commemorative half dollars; as such it is always popular. Gems are available, but scarcer than the high mintage of nearly 1 million might suggest. In MS67, as here, they are quite rare indeed!

Offering a luster that has both brilliant and semi-prooflike traits, this coin has a wonderful look. The dappled tones on both sides give the sharply struck devices some dimension and the smooth surfaces a depth. The eye appeal is wonderful.

PCGS 31, NGC 35. This is the first NGC MS67 sold in auction since 2016, selling for \$2,400 in February 2018. The current PCGS value is listed at \$3,000. VERY RARE any finer, this superb example will be a great fit in any high grade set!

PCGS# 9296 | ESTIMATE: \$2,000+

**LOT 404****50C 1893 COLUMBIAN PCGS MS66**

Another GEM MS66 from our mini-hoard of 1893 Columbian Expo halves. This is a totally fresh deal of ORIGINAL, well-matched examples, just graded by PCGS. .

Nicely toned with classic melange of color, similar to the lot above, accenting the highly lustrous central surfaces. Every detail bold in its sharpness. We don't understand why CAC did not sticker this GEM!

PCGS 237, NGC 147. A coin like this is truly worthy of a premium bid. With a coin this FRESH, you can toss out the price guide.

PCGS# 9297 | ESTIMATE: \$800+

**LOT 403****50C 1893 COLUMBIAN PCGS MS66**

This is the first of our mini-hoard of 1893 Columbian Expo halves. This is a totally fresh deal of ORIGINAL examples, just graded by PCGS. All have a great, matched look.

Nicely toned with classic blue, gold, russet, olive and tan overtones are evenly dusted over highly lustrous surfaces. Every detail is chiseled in its sharpness and only under a strong glass can we detect a minor scuff or two, which are toned over and cannot be seen without the aid of a glass.

PCGS 237, NGC 147. A coin like this is truly worthy of a premium bid. With a coin this FRESH, you can toss out the price guide.

PCGS# 9297 | ESTIMATE: \$800+

**LOT 405****50C 1893 COLUMBIAN PCGS MS66**

This is a semi-reflective GEM example from our mini-hoard of Columbian Expo halves. The razor sharp devices stand out with a great look. Rich azure and crimson hues blend with violet and gold, particularly at the periphery, the obverse more richly toned than the reverse. The eye appeal is certainly enhanced by the vibrancy of the luster.

PCGS 237, NGC 147. Another ultra fresh gem that is worthy of a premium bid!

PCGS# 9297 | ESTIMATE: \$800+

**LOT 406****50C 1893 COLUMBIAN PCGS MS66**

This example sat undisturbed for a long time in a paper envelope or album where it was able to acquire a wonderful melange of toning on both sides, the reverse deeper than the obverse. The luster brings the subtle differences in hues as you rotate the coin in a light.

PCGS 237, NGC 147. Another highly eye appealing and totally original GEM from this mini-hoard. Worthy of a premium bid!

PCGS# 9297 | ESTIMATE: \$700+

**LOT 407****50C 1893 COLUMBIAN PCGS MS66 CAC**

This is another beautifully toned Columbian Expo half dollar from this same source. The eye appeal is very high end! Richly lustrous, reflective surfaces have a bold look with rich peripheral toning from long term album storage. You can't beat the look for the value.

PCGS 237, NGC 147, CAC 121. The last example sold for \$1,320. A fully GEM + coin like this should bring a strong bid!

PCGS# 9297 | ESTIMATE: \$1,000+

**LOT 408****50C 1893 COLUMBIAN PCGS MS66 CAC**

Here is another wonderful CAC-approved MS66 from this small grouping. Beautifully toned, the eye appeal is very high end! Richly lustrous, reflective surfaces have a bold look with rich peripheral toning from long term album storage. You can't the look for the value.

PCGS 237, NGC 147, CAC 121. The last example sold for \$1,320. A fully GEM + coin like this should bring a strong bid!

PCGS# 9297 | ESTIMATE: \$1,000+

**LOT 409****50C 1893 COLUMBIAN PCGS MS66 CAC**

A borderline-SUPERB example! Everything about this beauty is original and pleasing! Sharply struck and vibrantly satiny with lovely original tone. The surfaces are nice and smooth without any serious marks or scuffs.

PCGS 237, NGC 147, CAC 121. The last example sold for \$1,320. An original coin like this is certainly worthy of a strong bid.

PCGS# 9297 | ESTIMATE: \$1,000+

**LOT 410****50C 1893 COLUMBIAN PCGS MS66+ CAC**

Very high end for the grade, we really do like the look of this impressive GEM. Flashy mint luster on both sides accents the sharply struck devices and multicolored peripheral toning. There are no noticeable marks or scuffs, the eye appeal is great

PCGS 280, NGC 155, CAC 121. Only 43 are graded in MS66+. The current CU value is listed at \$1,500 but this FRESH SUPERB GEM should bring more. The most recent sold for \$2,040 in April 2018. We think a coin like this should bring that much or more!

PCGS# 9297 | ESTIMATE: \$2,000+

**LOT 411****50C 1893 COLUMBIAN PCGS MS66+ CAC**

Another excellent, FRESH GEM + coin! Well matched to the others in this mini hoard, this one boasts lovely toning over the satiny smooth and lustrous surfaces.

PCGS 280, NGC 155, CAC 121. Only 43 are graded in MS66+. The current CU value is listed at \$1,500 but this FRESH SUPERB GEM should bring more. The most recent sold for \$2,040 in April 2018. We think a coin like this should bring that much or more!

PCGS# 9297 | ESTIMATE: \$2,000+

**LOT 412****50C 1893 COLUMBIAN PCGS MS67**

Wow! This is truly a SUPERB example. Even after close examination, we cannot understand what CAC saw that precluded it from getting a green bean! Sometimes they can be so picky!

Highly lustrous surfaces glow and gleam from all over, especially in the central reverse which is a bright untuned silver. The peripheral tone of blue, amber, and gold really does come out with the bold luster. The strike is full and complete and you cannot beat the awesome eye appeal!

PCGS 36, NGC 32. The current Collector's Universe value is listed at \$3,500. VERY RARE any finer, PCGS has just five coins graded finer, all MS67+

PCGS# 9297 | ESTIMATE: \$3,000+

**LOT 413****50C 1893 COLUMBIAN PCGS MS67**

A richly toned and very high end SUPERB GEM example. Satiny lustrous surfaces have a radiating swirl from under the toning. The luster gives life to the variegated hues on both sides and the sharply struck up devices.

PCGS 36, NGC 32. The current Collector's Universe value is listed at \$3,500. VERY RARE any finer, PCGS has just five coins graded finer, all MS67+

PCGS# 9297 | ESTIMATE: \$3,000+

LOT 414
50C 1893 COLUMBIAN PCGS
MS67 CAC

This is a great looking **SUPERB GEM**—truly deserving of its bean from CAC. Highly lustrous surfaces bring out the wonderful toning on both sides. The toning is not dark, it is just rich. Swirling blues and golds blend with violet shades. Possessing a stunning eye appeal, this coin is perfect for any high end set!

PCGS 36, NGC 32, CAC 20. The current Collector's Universe value is listed at \$3,500, but the last PCGS CAC sold for \$4,113 in the 2017

FUN auction.. **VERY RARE** any finer, PCGS has just five coins graded finer, all MS67+.

LOT 415
50C 1893
COLUMBIAN PCGS
MS67+ CAC

Legend Rare Coin Auctions is proud to offer one of the **FINEST** Columbian Expo half dollars to survive. This remarkable **SUPERB GEM** is the final coin from our mini-hoard, and it is a stunning example!

The surfaces are pristine and virtually flawless. A strong luster blazes across the surfaces on both sides, accenting the

SUPERB multicolored toning that is uniform on both sides, well matched in hue to the other coins in this **FRESH** group. You really cannot beat the amazing eye appeal and glorious visual allure of this **SUPERB GEM**!

PCGS 41, NGC 33, CAC 20. This is one of only **FIVE** graded MS67+ at PCGS and none are finer! Think about that: after nearly 33 years of grading, there are so few actual **SUPERB** coins that survive from a mintage of over 1.5 million! No MS67+ has ever sold in auction though the PCGS Price Guide value is listed at \$22,500. If you are building the **FINEST** set of classic commemorative halves, you **NEED** this **SUPERB GEM**. We can see it shattering the previous record for the type, which was achieved in 2003 for a PCGS MS67 for \$16,100! Good luck!

PCGS# 9297 | ESTIMATE: \$15,000+

**LOT 416****50C 1935 CONNECTICUT. PCGS MS67**

A beautifully toned SUPERB GEM Connecticut. Highly lustrous surfaces show off sharply impressed devices. Lovely pastel iridescent toning graces both sides and the surfaces are essentially flawless. We have looked this SLPERB GEM over and again with a strong glass and cannot find anything that would preclude CAC approval—we are not sure what they saw.

PCGS 96, NGC 78 The current PCGS value is listed at \$1,800 and recent auction prices realized fall in the \$1,080 to \$2,280 range. This beauty has a great eye appeal, and this one should bring a strong bid.

PCGS# 9299 | ESTIMATE: \$1,000+

**LOT 417****50C 1935 CONNECTICUT. PCGS MS67 CAC**

A beautifully toned SUPERB GEM. Lots of gorgeous blues, golds, and greens frame both sides, brought out by a vivid luster and adding depth to the details especially among the leaves of the Charter Oak

PCGS 98, NGC 79, CAC 52. This high end and lustrous GEM is truly worthy of a serious bid. A similar coin sold in our July 2018 Regency Auction for \$2,585 and the current PCGS value is listed at only \$1,800 clearly this superior quality SUPERB GEM is worthy of a strong bid!

PCGS# 9299 | ESTIMATE: \$2,000+

**LOT 418****50C 1936 DELAWARE. NGC MS67+ CAC**

This is a truly wonderful, SUPERB GEM tab-toned Delaware. Beautifully toned and awesomely preserved, the details are ultra sharp in definition. A boldly frosted luster blooms in the fields, the eye appeal is essentially unmarred, by all but the most tiny reeding mark. We love the look of this SUPERB GEM and it is worthy of the finest of commemo sets!

PCGS 173, NGC 103, CAC 66. NGC has graded five examples in 67+. Only one has ever sold in auction, realizing \$1,140 in July 2018 and it does not have the stunning eye appeal of this beauty. The current Collector's Universe value is listed at \$2,500. NGC has graded four in MS68 the most recent of which brought \$10,800 in April 2018. This is a great opportunity to buy one of the FINER known examples without breaking the bank!

PCGS# 9301 | ESTIMATE: \$1,300+

**LOT 419****50C 1936 ELGIN. PCGS MS67 CAC**

A beautifully toned SUPERB GEM! This coin has such a great look! A thick, luxurious frosty sheen drenches both sides. The obverse has a ring of seductive coppery-orange, azure, magenta, violet, and gold that surrounds the pioneer's head which has a nearly matte-like frosty texture. The reverse is toned in a more pastel-iridescent hue. This coin is of superior quality and has a very high end look

PCGS 232, NGC 128, CAC 88 This coin brought \$1,140 in December 2017, a testament to its superior eye appeal. We suspect it will bring a similar price today. Good luck.

PCGS# 9303 | ESTIMATE: \$900+

**LOT 420****50C 1936 ELGIN. PCGS MS67+**

Wonderfully and originally toned, this coin clearly sat in an album, with frosty silver centers surrounded by olive, gold, and blue green toning. Lustrous and nicely preserved, the eye appeal is excellent, we cannot find anything more than a tiny tick and a line or two that would keep this SUPERB GEM from receiving a CAC sticker

PCGS 44, NGC 5. The most recent examples, going back over two years were all CAC approved, realizing in the \$1,700 and \$2,100 range, and the current Collector's Universe value is listed at \$1,650. We think this GEM will see very active bidding and it will find itself at home in a great commem collection!

PCGS# 9303 | ESTIMATE: \$1,300+

**LOT 422****50C 1922 GRANT. NGC MS67+**

Tied for FINEST graded Grant without Star at both grading services. There is no question how high end this SUPERB GEM is!

Satiny smooth surfaces show off a frosty satin luster that glows from all over. Even using a strong glass there is not a single tick, mark, or line that we can find even using a strong glass. Both sides show off an original pastel toning that comes out when rotated in a light. The eye appeal is very high end.

PCGS 9, NGC 8. Only two of these have sold in auction, this one being the most recent selling for \$3,055 in the 2016 FUN auction. NONE of the PCGS coins have sold in auction. The current Collector's Universe value is listed at \$12,000 which is speculation, considering no PCGS coin has ever sold in auction.

PCGS# 9306 | ESTIMATE: \$3,500+

**LOT 421****50C 1936 GETTYSBURG. PCGS MS65 CAC**

Commemorating the 75th anniversary of this pivotal battle of the Civil War, the Gettysburg half is always one of the more popular types in the series. Sharply struck and nicely original, with just a touch of golden toning on both sides, this one is housed in an OGH and is worthy of its CAC bean.

PCGS 1824, NGC 1328, CAC 249. The current CU value is \$700 and we sold one for \$798 in our September 2018 Premier Sessions

PCGS# 9305 | ESTIMATE: \$650+

**LOT 423****50C 1922 GRANT STAR. PCGS MS65 CAC**

One of the toughest classic commemorative half dollar issues, the Grant With Star saw a mintage of only 4,256. Gem survivors, like this old holdered coin, are very scarce indeed, and normally come dull and gray. This satiny GEM is the opposite, with considerable gold tone at the rims. The surfaces are devoid of any contact worthy of mention. The devices are sharply struck up and the eye appeal and quality are worthy of the CAC endorsement and will entice strong bidding from commemorative collectors

PCGS 181, NGC 223, CAC 29. Rare any finer, the last PCGS MS65 CAC sold in April 2018 for \$5,280. The current CU value is listed at \$4,700 and remember that in 66 the value jumps to \$8,000.

PCGS# 9307 | ESTIMATE: \$4,000+

**LOT 424****50C 1928 HAWAIIAN. PCGS MS65**

Here is a wonderfully toned and original GEM Hawaiian. This is not a dull or drab looking coin like the way many come, nor does it have that bright yellow-gold tone as seen on so many others. Rich sea-green blends with just a touch of yellow-gold, olive, and lavender-pewter tones. We do think this one may have come from the famed Bank of Hawaii Hoard, which attests to the color. There are a few tiny ticks here and there, but we are not exactly sure why this GEM did not sticker at CAC--the eye appeal is very nice indeed.

PCGS 546, NGC 355. The last two non-CAC examples sold in June 2018 for \$2,640 and \$2,880, the current PCGS value is listed at \$3,750. With a mintage under 10,000 the Hawaiian is a key in the series and always popular thanks to its beautiful design.

PCGS# 9309 | ESTIMATE: \$2,500+

**LOT 425****50C 1928 HAWAIIAN. PCGS MS65 CAC**

A lovely silver lustrous GEM example at this KEY date commem. A glowing, frosty, glossy luster rolls on both sides of this well struck Hawaiian. Worthy of its endorsement by CAC, this coin is high end for the grade and we can see only a tick or two using a strong glass.

PCGS 547, NGC 355, CAC 140. The last one sold for \$3,120 in June 2018. Four others have sold this year for the same amount. We sold one for \$3,878 in our December 2017 Regency Auction and the current Collector's Universe value is listed at \$3,750. Bound for a GEM set of classic commemor.

PCGS# 9309 | ESTIMATE: \$2,800+

**LOT 426****50C 1928 HAWAIIAN. PCGS MS65+ CAC**

A delightfully toned GEM! Everything about this GEM is original and very pleasing. High end everything!

Sharply struck devices are brought out by a glittering underlying luster. Shades of yellow gold, paste green, crimson, amber, olive, russet-tan. The eye appeal is excellent.

PCGS 562, NGC 360, CAC 140. Only 15 examples have graded in MS65+ at PCGS. Totally original and wonderfully toned, this GEM is worth more than the \$4,250 listed by CU. A great looking coin for any set!

PCGS# 9309 | ESTIMATE: \$5,000+

**LOT 427****50C 1935 HUDSON. PCGS MS66 CAC**

Ex. AGW Collection, as noted on the insert.

A very pretty and high end GEM Hudson. Ultra-lustrous, surfaces are very clean and free of any distracting marks. Brick-red tone clings to the peripheries and adds to the wonderful eye appeal.

PCGS 286, NGC 153, CAC 114. We sold one in our Regency Auction 27 for \$1,410, and the current PCGS value is listed at \$1,300. With its great look, this one is worthy of a strong bid.

PCGS# 9312 | ESTIMATE: \$1,200+

**LOT 428****LOT OF TWO GOLD CAC STICKER CLASSIC COMMEMORATIVES**

Lot includes:

50C 1924 HUGUENOT PCGS MS63 GOLD CAC in an OGH-- Spectacular toning for a Huguenot half and an amazing eye appeal for a 63, clearly a coin that is ultra conservatively graded--there are 65s that don't look this good!

1936 YORK NGC MS65 GOLD CAC "fatty" holder--Exceptionally lustrous with a brilliant satin sheen with rich gold tab toning. We have seen MS66s without such a great look!

This pair is destined to start off a collection of awesome classic commemoratives. They are not the finest graded, but they are truly SUPERB! This lot will see very active bidding!

PCGS# 9314 | ESTIMATE: \$800+

**LOT 429****50C 1946 IOWA. NGC MS68 CAC**

For a lack of better term, and not to sound cliché, this coin is SUPERB and is unbelievably high end and wonderful!

Brilliant swirling mint luster beams from all over giving life to the beautiful reds and blues and brings out the subtle greens and golds that blend in. The mixture of colors is extremely eye appealing and the grade is spot on! We see no flaws of any kind and the devices are very sharply struck up.

PCGS 75, NGC 40, CAC 48. Prices are all over the place, based on the eye appeal. We know this one will bring a strong price for sure! The current Collector's Universe value is listed at \$1,800. A somewhat more dappled but beautifully toned PCGS MS68 CAC sold for \$2,300 in our June 2017 Regency Auction. This great coin should sell for close to that. Good luck!

PCGS# 9316 | ESTIMATE: \$1,200+

LOT 430**50C 1925 LEXINGTON. PCGS MS66+ CAC**

Truly a superior quality Lexington. The surfaces are brilliantly lustrous and the devices are especially crisp and sharply rendered. The fields are free of any distracting marks or ticks. There is just a touch of iridescent toning across the surfaces. This is a great example with a full complete strike.

PCGS 459, NGC 224, CAC 123. There are only 41 coins graded MS66+ at PCGS, 15 at NGC. RARE any finer, with just 28 graded (MS67+ finest). There is a very wide range of APRs in MS66+ for PCGS/CAC coins: recent examples have sold in the \$840-\$2,350 range, with the most recent selling in June 2018 for \$1,800. The \$2,350 was realized in our May 2016 Regency Auction. The current PCGS value is listed at \$1,200 and this one should easily surpass that level.

PCGS# 9318 | ESTIMATE: \$1,200+

**LOT 431****50C 1918 LINCOLN. NGC MS67++**

One of the absolute **FINEST** Lincoln's we have seen! The surfaces are blindingly brilliant with bold cartwheels and hints of semi prooflike reflection, particularly in the obverse fields. Lincoln's portrait stands out with a very bold definition and the reverse eagle and arms are all beautifully defined as well. Every detail is crisply defined. The obverse is beautifully toned with rich reddish-copper tones that really highlight the awesome quality of the surfaces. Truly a prize for the commemorative collector, and well deserving of its lofty designation.

PCGS 139, NGC 70. This is the **ONLY** NGC MS67+ graded and is not the one that sold in 2015. The most recent example PCGS graded example sold for \$4,080 in the 2018 FUN auction. The current Collector's Universe value is listed at \$3,750. NGC has graded 4 in MS68 finer, none of which have sold since 2007! This is one of the **FINEST** that exists and should see a very strong price realized based solely on its amazing look!

PCGS# 9320 | ESTIMATE: \$2,500+

**LOT 433****50C 1934 MARYLAND. PCGS MS67**

The obverse is beautifully toned with soft pastel blue at the rims and a coppery-peach hue in the center all brought out by a brilliant mint luster. The reverse has a light dusting of the faintest gold tone adding dimension to the **SUPERB** surfaces and well struck devices.

PCGS 70, NGC 87. The current PCGS Price Guide value is listed at \$1,750 and the most recent example we sold was CAC approved and realized \$2,115 in our July 2018 Regency Auction. Only 12 coins are graded finer at PCGS, all MS67+. A great coin for any serious collector of classic commemoratives!

PCGS# 9328 | ESTIMATE: \$1,000+

**LOT 432****50C 1936 LYNCHBURG. PCGS MS67+**

Ex San Diego Collection. With just a single coin graded finer, this beautifully toned Lynchburg is a more vividly toned than the beauty that we sold in our recent Regency Auction 28 sale. Wonderful orange and gold tone is met with pearly-silver-sea green color and brought out by the **SUPERB** underlying luster. The sharply struck devices stand out against the smooth surfaces and there is just a single line worthy of mention, visible with a glass.

PCGS 134, NGC 103. There are only 15 graded in MS67+. The most recent examples were CAC approved, you have to go back over three years to get a non-CAC coin. The current Collector's Universe value is listed at \$3,000. Only a single MS68 finer, a coin that never sold in auction, making this beauty one of the **FINEST** available to collectors. We anticipate strong bidding for this colorful **SUPERB GEM**!

PCGS# 9324 | ESTIMATE: \$2,500+

**LOT 434****50C 1921 MISSOURI. PCGS MS65+ CAC**

This is not your typical dull, lackluster Missouri! Sharply struck devices stand out with the aid of highly frosted fields. A light dusting of golden tan, and olive gold toning graces the surfaces of both the obverse and reverse. The surfaces are especially clean and very attractive—this coin is **PQ**!

PCGS 305, NGC 307, CAC 63. There are only 14 coins graded in MS65+ at PCGS. The last three PCGS/CAC examples sold in the \$2,585 to \$2,820, these sold from October 2014 to April 2018. Keep in mind that a PCGS/CAC MS66 would likely cost \$6,000+ if you can find one, making this one a great value for a collector of **GEM** commems!

PCGS# 9330 | ESTIMATE: \$2,200+

LOT 435

50C 1923-S MONROE. PCGS MS66

A true GEM Monroe half. This is a commemorative that often is highly lacking in terms of quality and eye appeal. This one is highly eye appealing with a satin luster and delicate, delightful pastel toning. As you rotate the surfaces in a light, peach-orange, aqua-blue, and olive-gold accent the smooth, problem free surfaces. The strike is better than usually seen on this notoriously FLAT type. This one is an exception with full detail on the reverse.

PCGS 108, NGC 60. The current PCGS value is listed at \$2,000 and there is a wide range of prices realized in the last two years, ranging from \$1,080 to \$2,585, the most recent selling for \$1,920 in April 2018. A beauty like this will realize a strong price for sure, this is a great coin for the Commemorative collector, VERY RARE finer!

PCGS# 9333 | ESTIMATE: \$1,200+

LOT 436

50C 1938 NEW ROCHELLE. PCGS MS67+

A beautiful TAB toned SUPERB GEM. The original holder imparted magenta, gold, orange, and sea-green tone about the peripheries on the obverse, while the reverse is blanketed by a dusting of sky blue and clear gold. The central obverse is a brilliant silver that gleams with a strong brilliance. The eye appeal is excellent and we are not sure why CAC did not bear it.

PCGS 257, NGC 86. PCGS has graded 47 in 67+, which must represent much duplication of submissions. This impeccable SUPERB GEM realized \$2,400 when it sold in April 2018. The current PCGS price is listed at \$2,750. While there are 7 coins graded numerically higher at PCGS, NONE have ever sold in auction. This is a wonderfully original coin worthy of a premium bid and inclusion in a great commem set.

PCGS# 9335 | ESTIMATE: \$2,000+

LOT 437

50C 1938 NEW ROCHELLE. PCGS SP66+ CAC

We have been honored to offer a good number of these Specimen Strike New Rochelle half dollars over the last few years, and each time we marvel at the dramatic flash the surfaces have!

A very rare variant to the New Rochelle half dollar. During the production run, mint employees struck 50 examples on polished planchets after polishing the dies. What keeps them from being full PROOFS, is that each coin was struck only once, rather

than two or more times as required for striking proofs. As expected for the 66+ grade level, this coin has no hairlines, ticks, marks or carbon spotting. The strike is full and the fields are fully PL and display deep mirrors.

PCGS 3, NGC 4, CAC 4. There are just two graded SP66+ at PCGS. We sold the other one in February 2017 for \$12,925. A great coin to add to any advanced classic commemorative set, and we anticipate strong bidding when it comes to the block. Good luck!

PCGS# 99335 | ESTIMATE: \$9,000+

**LOT 438****50C 1936 NORFOLK. PCGS MS68 CAC**

Virtual perfection in every way! Rich copper-gold with colorful tinges of greenish and pinkish iridescence is noted at the rims giving this SUPERB GEM a beautiful look. Put a loupe to this one if you want to know what spectacular quality really is, for few coins of any series come this well preserved. There simply are no distracting marks to be found. The strike is full and complete, and the eye appeal unending.

PCGS 201, NGC 88, CAC 86. The most recent example sold for \$1,680 in the 2018 ANA auction, and before that, one sold for \$1,800 in June 2018. This coin will certainly bring well above the CU value of \$1,250. A wonderful addition to any set!

PCGS# 9337 | ESTIMATE: \$1,500+

**LOT 439****50C 1926-S OREGON. PCGS MS67+ CAC**

We love this design! It is one of the most beautiful of the classic commems, and when they are of exceptional quality as here, you will be hard pressed not to love it too. The impressive album toning is the first thing that catches your eye! Blue, gold, and orange peripheral tone accents the sharply struck up devices and boldly lustrous surfaces. We cannot find anything worthy of mention anywhere. This is such an amazing looking SUPERB GEM that will delight any commem collector!

PCGS 201, NGC 173, CAC 129. There are only 26 graded MS67+ at PCGS. The most recent PCGS/CAC example to sell brought \$4,320 in April 2018. A non-CAC NGC coin brought the same in the 2018 FUN auction. Clearly of late, this date/grade has demand that exceeds the supply and the \$1,800 CU value needs to be updated. Only a dozen are finer, with a 68 being worth around \$10,000. Good luck!

PCGS# 9341 | ESTIMATE: \$2,000+

**LOT 440****50C 1937-D OREGON. PCGS MS67 CAC**

High end for the grade, and totally original we love the look of this well struck and frosty SUPERB GEM housed in a first generation PCGS holder.

PCGS 703, 540, 344. The current CU value is \$525 and keep in mind that we sold a marginally higher grade example for \$1,375 in our August 2018 Premier Session internet only auction.

PCGS# 9347 | ESTIMATE: \$500+

**LOT 441****50C 1937-D OREGON. PCGS MS68 CAC**

The word superb just does not convey the message for this 37-D Oregon. It is a killer piece! Sharply struck up devices and uber-smooth surfaces are enhanced by a satiny mint frost. The luster is wonderful, giving off a pearlescent look over the majority of the surfaces yielding to vivid blue and burnt orange at the periphery. The eye appeal is exceptional in every way.

PCGS 61, NGC 73, CAC 36. PCGS/CAC coins, when you do not count the \$9,106 that the superbly toned Bruce Schur- Aurora Borealis coin brought in our July 2018 Regency Auction, sales are in the \$1,500-\$2,500 range. Collector's Universe is listed at \$1,750 and this one should bring well in excess of that amount. Good luck!

PCGS# 9347 | ESTIMATE: \$1,750+

LOT 442

50C 1938-S OREGON. PCGS MS66 CAC

A lovely PQ GEM in a first generation PCGS slab. Frosty mint luster accents the sharply struck devices and original toned surfaces. The eye appeal is quite nice.

PCGS 600, NGC 513, CAC 115. The last PCGS/CAC example brought \$300 and the current CU value is \$285; this one should bring more.

PCGS# 9350 | ESTIMATE: \$250+

LOT 443

50C 1939-S OREGON. PCGS MS65 CAC GOLD STICKER

Conservatively graded in a first generation PCGS encapsulation, this GEM really has a look that rivals MS67s that we have seen in the market (no guarantees). What we can attest to is the wonderful original look, razor sharp strike, and satin mint frost. The eye appeal is amazing.

PCGS 416, NGC 238, CAC 42. CAC has given FIVE CAC-gold stickers at this grade level. The CU grade in MS66 is \$675 and a similar looking MS67 sold for \$1,145 in our July 2018 Regency Auction. This GEM looks great and will see strong bidding for sure. Good luck!

PCGS# 9354 | ESTIMATE \$600+

LOT 444

50C 1915-S PAN-PAC. PCGS MS65+ CAC

A beautiful GEM! The central devices are brilliantly lustrous and bright silver while the peripheries have a band of teal, olive, and gold hues that bring out the definition to the sharply struck devices. The eye appeal is great

PCGS 582, NGC 502, CAC 127 There are only 14 in MS65+ at PCGS, 15 at NGC. The current PCGS value is listed at \$1,650 and this one should see fierce bidding for its great quality

PCGS# 9357 | ESTIMATE: \$1,100+

LOT 445

50C 1920 PILGRIM. PCGS MS67

For a Pilgrim, the present example is SUPERB. We are not exactly sure why CAC did not sticker this one. Its surfaces are of wonderful quality and eye appeal, imparted by a bold satin bloom, sharp strike, and totally original color.

PCGS 51, NGC 20 The most recent to sell was a similarly toned CAC-approved coin that realized \$2,703 in the July 2018 Regency Auction. The most recent non CAC coin sold for \$2,040 in April 2018 and the current CU value is listed at \$2,000. VERY RARE any finer, this one will delight any serious commem collector for sure!

PCGS# 9359 | ESTIMATE. \$1,500+

**LOT 446****50C 1936-D RHODE ISLAND. PCGS MS67 CAC**

What an amazing SUPERB GEM Rhode Island half dollar! It is incredible to think that there are seven coins finer at PCGS! Every detail is exquisite in its execution and definition. Bold and brilliant, the luster simply sparkles all over with a strong vibrance. Stupendous rainbow bands are seen at the peripheries, and the eye appeal is just gorgeous. An AMAZING coin!

PCGS 72, NGC 38, CAC 33. More beautiful than the ex Paul Derby coin that we sold in our July 2018 Regency Auction for \$1,234. This SUPERB coin is a real prize for any colorfully toned commemorative coin collector!

PCGS# 9364 | ESTIMATE \$1,000+

**LOT 448****50C 1937 ROANOKE. NGC MS68 CAC**

Everything about this coin is beautiful! It is essentially perfect in every way. Well struck, highly lustrous, and richly toned and with a superb look, this Roanoke has it all! Red, orange, royal blue, and deep violet are brought to life by the radiating luster that gleams and beams in the fields. Taking a close look at the surfaces with a strong glass proves that this coin is as close to perfection as you can hope to get, we see no marks anywhere. Needless to say, the eye appeal is stunning—you will have a hard time putting this beauty down.

PCGS 26, NGC 29, CAC 16. This coin has a great look. The most recent CAC-approved coin was PCGS graded and sold for \$7,800 in the 2018 ANA auction. The only NGC/CAC coin to ever sell in auction realized \$4,259 in the 2014 FUN auction, and we think this one has a better look. The current Collector's Universe value is listed at \$4,500. NONE ARE GRADED FINER at NGC.

PCGS# 9367 | ESTIMATE: \$3,000+

**LOT 447****50C 1936-D RHODE ISLAND. PCGS MS67+ CAC**

One of the sharpest struck 36-D Rhode Island we have seen and the quality is excellent! A bold glowing luster beams from all over amplifying the subtle gold and icy blue that accent the pearly silver surfaces. The eye appeal is just amazing and deservingly sits near the top of the PCGS Population Report!

PCGS 78, NGC 39, CAC 34. Only 5 have been graded with a "67+." No PCGS MS67+ has ever sold in auction. There is a giant gap between the last MS67 and MS68 that have sold in auction, both in recent LRCA auctions. The last PCGS/CAC MS67 old for \$1,234 in July 2018 and the only MS68 PCGS/CAC sold for \$43,475 in our May 2018 Regency Auction. The current Price Guide value in 67+ is listed at \$2,500 and this one will likely surpass that amount easily! Bound for one of the FINEST sets that exists!

PCGS# 9364 | ESTIMATE: \$1,800+

**LOT 449****50C 1936 ROBINSON. PCGS MS67 CAC**

Lovely pastel iridescent toned surfaces are brought out by a vivid satin luster giving both sides a supple, velvety look. Violet tinges blend with pewter in the centers and a dusting of golden tan at the peripheries, the color is certainly richer on the reverse than on the obverse. The surfaces are totally devoid of any marks that we can find. Under inspection with a glass, there is nothing that impairs the exceptional eye appeal.

PCGS 88, NGC 30, CAC 27. The most recent example to sell in auction realized \$2,040 in ANA 2018 auction, and prior to that, one sold in April 2018 for \$1,920. Only a half dozen examples graded finer at PCGS, NONE of which have sold since February 2005! This one will clearly see fierce bidding from the advanced collector when it crosses the block!

PCGS# 9369 | ESTIMATE: \$1,600+

**LOT 450****50C 1936-D SAN DIEGO. PCGS MS67 CAC**

We wish all San Diego half dollars looked like this! Blisteringly lustrous with a vibrance that grabs the viewer from across the room. But its glorious luster is just part of the story of this stunner—the other is the gorgeous toning at the rims on both sides that display the full spectrum of rainbow color that frames the brilliant silver centers. The eye appeal really is off the charts with this one!

PCGS 102, NGC 49, CAC 62. The most recent PCGS coin to sell was CAC approved and sold for \$3,840 and was the Bruce Schur coin. This amazing coin has a very similar look and is worthy of a premium bid.

PCGS# 9372 | ESTIMATE: \$2,000+

**LOT 451****50C 1926 SESQUICENTENNIAL. PCGS MS65+ CAC**

A beautifully toned GEM example of this popular and important condition rarity in the classic commemorative series. While 141,120 pieces were struck, they do not survive in great quantity in MS65 or finer grades. Even fewer have killer original toning. Lustrous surfaces are smooth and defect free.

PCGS 389, NGC 294, CAC 94. In MS65+, PCGS has graded 19 pieces, the most recent of which sold for \$3,525 in our July 2018 Regency Auction. Prior to that one sold for \$7,500 in April 2018. The current PCGS Price Guide value is \$4,500. Only a dozen examples are graded finer at PCGS, all MS66. We sold a CAC-approved example for \$22,325 in our December 2017 Regency Auction. This one will see considerable bidding when it crosses the block, the eye appeal is SUPERB!

PCGS# 9374 | ESTIMATE \$3,200+

**LOT 452****50C 1935 SPANISH TRAIL. PCGS MS67+**

This piece is seriously above and beyond what you typically see. We rank this as a VERY high end MS67+.

Virtually perfect surfaces are smooth all over. A moderate (good) luster glistens from the surfaces. Light pastel like colors of lilac, pale green, amber swirl all over. There are no discolorations or spots. All of the details are sharply struck and stand out. The eye appeal is gorgeous!

PCGS 164, NGC 107. PCGS has graded 21 coins in MS67+. The last MS67+ to sell in auction brought \$2,880 in December 2017. The current Collector's Universe Value is \$3,500. We predict strong bidding for this marvelous Commem!

PCGS# 9376 | ESTIMATE: \$3,000+

**LOT 453****50C 1925 STONE MOUNTAIN. NGC MS67+ CAC**

VERY HIGH END! Satin, frosty mint luster blooms in the fields. The surfaces are clean and free of any distracting marks, as you would expect for a SUPERB GEM of this lofty grade. The details are very sharply struck up with all the details of Stonewall Jackson and Robert E. Lee crisply defined. Pleasing pale gold tone attests to the awesome originality!

PCGS 290, NGC 186, CAC 98. There are only seven MS67+'s graded at NGC and none have sold in auction since March 2011. More recently a PCGS/CAC example sold in the 2018 FUN auction for \$2,040 and the current Collector's Universe value is listed at \$2,500. There are 13 graded MS68 at NGC finer. What a great opportunity to add a wonderful example without spending \$5,000+.

PCGS# 9378 | ESTIMATE \$1,800+

**LOT 454****50C 1934 TEXAS. PCGS MS67+ CAC**

This is a truly stunning Texas half, indeed the eye appeal is as huge as the state this coin commemorates!

This coin is about as high end and beautifully toned as you could hope for. A narrow band of rainbow toning at the extreme periphery blends to golden-lavender in the center. Sharply struck up, the eye appeal is very high end and very pleasing.

PCGS 110, NGC 65, CAC 61. There are only 14 graded MS67+. The last one to sell realized \$3,995 in the 2017 FUN auction; prior to that one sold for \$2,820 in August 2013. The current PCGS Price Guide value is listed at \$1,600. Only two coins are finer, and none have sold in auction in the last 14 years!

PCGS# 9381 | ESTIMATE: \$1,000+

**LOT 456****50C 1937 TEXAS. PCGS MS67+ CAC**

A brilliantly satiny SUPERB GEM is virtually perfect. Using a strong glass we cannot find a single mark worthy of mention on the lustrous, pearly hued surfaces. Nicely struck up, the eye appeal is great.

PCGS 148, NGC 81, CAC 80. There are 20 coins on the PCGS Population Report as MS67+. The most recent example brought \$1,080 and prior to that, these were selling between \$1,175 and \$1,645 and the current PCGS Price Guide value is listed at \$1,500. Only five coins are graded higher, with a single MS68+ as finest. This very appealing coin will see extremely strong bidding from numismatists.

PCGS# 9390 | ESTIMATE: \$1,000+

**LOT 455****50C 1935-D TEXAS. PCGS MS67+ CAC**

Flashy! The obverse fields have a distinct, semi-PL reflection to the luster. The eagle and star stand out with a dramatic 3-D effect. The reverse is very well struck and each detail is frosty and boldly rendered. The obverse is framed with a lovely original halo of toning.

PCGS 288, NGC 174, CAC 156. Three are 26 reported in MS67+ at PCGS. Only 10,007 were struck, so we think there is a lot of duplication in the population figures. We sold two in June 2015 for \$1,469 and \$2,468. This SUPERB coin has a great look and should realize well in excess of the \$1,000 PCGS value.

PCGS# 9383 | ESTIMATE: \$1,000+

**LOT 457****50C 1925 VANCOUVER. NGC MS67+ CAC**

A SUPERB looking Vancouver. Totally original in all respects, a dusting of coppery-tan, powder-blue, rosy-peach, and pale lilac toning that clings to the sharply struck devices and satin smooth fields. A bold luster shows a strong vibrance throughout imparting a stunning visual allure. No doubt that this coin is clearly worthy of being tied for FINEST at NGC!

PCGS 78, NGC 54, CAC 37. NGC has graded four in 67+ and none are finer. The only NGC 67+ that ever sold in auction was in our October 2017 Regency Auction. In July 2018 we sold a PCGS example for \$4,348. The current Collector's Universe value is listed at \$5,750. Only three PCGS graded coins are finer, and none have sold in the last seven plus years, making this one of the FINEST available to collectors! Good luck!

PCGS# 9399 | ESTIMATE: \$2,500+

**LOT 458****50C 1927 VERMONT. NGC MS67***

One look at this SUPREB GEM and it is readily apparent why NGC bestowed it with its star designation for eye appeal! A frosty satin silver luster gleams all over, bringing out the sensational golden overtones and accents of reddish-orange and pastel iridescence on the obverse. The surfaces are free of all but the most insignificant marks, visible only with a strong glass. The eye appeal is great!

PCGS 58, NGC 24 We sold a PCGS/CAC coin that did not have the beautiful toning of this coin for \$6,169 in our July 2017 Regency Auction. The current Collector's Universe value is \$4,500 Superior in eye appeal to many that we have seen and will bring a strong price

**LOT 459****50C 1946-D BOOKER T. WASHINGTON. PCGS MS66+ CAC**

An amazing Booker T! Brilliant silver centers contrast with a stunning violet-brick toning at the rims. Sharply struck up, highly lustrous, and SUPERB quality surfaces all combine to make this one stunning B.T.W

PCGS 406, NGC 278, CAC 79. There are only 21 in 66+ graded at PCGS. This beautiful coin is worthy of any collection of spectacular toned commems, pay no attention to the previous APRs or CU value, this coin will bring a very strong bid!

**LOT 460****50C 1946-D BOOKER T. WASHINGTON. PCGS MS67 CAC**

A magnificently toned Booker T. Washington! One of the more common classic commems, but they are anything but when they possess the vivid toning on both sides like this one. Reds, golds, greens, and blues blend beautifully across the entire obverse. Impressively struck devices are accented by the bold underlying frost and the entire "package" is exceptional!

PCGS 55, NGC 47, CAC 68. This is the NGC/CAC coin that brought a very strong \$2,280 in the 2018 Central States auction, and another dramatically toned PCGS/CAC coin sold for \$3,840, both well beyond the current CU value of \$800

PCGS# 9405 | ESTIMATE: \$2,000+

**LOT 461****50C 1952 WASHINGTON-CARVER. NGC MS67**

A very pretty blend of blue, violet, rose, and red hues are evenly dusted across the SUPERB GEM surfaces on both sides. Sharply struck, this is a very well preserved Washington-Carver half. The eye appeal is exceptional.

PCGS 24, NGC 26. The last NGC coin to sell brought \$684, but it did NOT have the stunning eye appeal of this one. The current Collector's Universe value is listed at \$1,500 and this one with its great look should bring a very serious bid Good luck!

Ranking at the top of the PCGS Population Report, this STUNNING example is the final issue of the classic commemorative series. Only 8,006 were distributed and NONE have graded higher than this coin! Not only is it high end in terms of grade, in terms of eye appeal this coin CANNOT BE BEAT!

Rich aubergine tone with accents of peach and emerald is all brought to life by a gleaming, brilliant, swirling mint luster. Every detail is fully struck up and the surfaces are totally and completely without flaw. The eye appeal is simply stunning!

PCGS 13, NGC 23, CAC 17. There are three graded MS67+ at PCGS and NONE are graded finer. None of these three have ever sold in auction. A wonderfully toned MS67 without CAC sold for \$11,163 in March 2013. In MS67+, the current Collector's Universe value is listed at \$12,500. Worthy of the FINEST classic commemorative set! Good luck!

LOT 463
50C 1936 WISCONSIN. PCGS MS67 CAC

This Wisconsin is SUPER HIGH END! At one time this colorful GEM traded for \$7,500! At the very least it should have been a MS67+ (PCGS obviously does not think so).

The main attraction of this coin are its dramatic colors. It is close to being the equivalent of any Northern Lights Dollar. You can see plenty of GEM original red/purple/pearl green/gold and other "Christmas" like colors swirling around all over. We do rank the colors a 8+ on our 1-10 color scale (10 is the best). You know that Wisconsins RARELY come with this kind of original color.

PCGS 512, NGC 361, CAC 243. Realizing a strong price, this SUPERB GEM realized \$3,410 in our May 2018 Premier Session. Again, this coin is about the colors, if you are building a very pretty colorful commem set, this is a coin you do not want to miss!

Absolutely PRISTINE! This remarkable SUPERB GEM is visual perfection. A wonderful cartwheel luster glows with an unusual amount of vivacity. A delicate sky blue iridescence blends with the clearest of gold toning around the peripheries. The simple details are sharply impressed with razor sharp definition. The eye appeal is AMAZING!

PCGS 31, NGC 31, CAC 13. Remarkably, PCGS reports four coins graded higher. The most recent PCGS/CAC example to sell in auction realized \$3,302 back in the January 2015 FUN auction—a sale that took place during a weak point in the market. Prior to that, one sold in September 2014 for \$4,113. The eye appeal is exceptional and we can see this coin selling for way more than the current \$2,200 PCGS Price Guide value. NOTHING FINER has ever sold in auction! Bound for a world class commem set!

PCGS 143, NGC 93, CAC 60. There are 13 coins graded MS67+ at PCGS, with **NONE** finer. We believe that a number of these represent the same coin being submitted a few times in hopes of a higher grade. NGC has graded 2 in MS67+ and a MS68 finer. The current CU value is listed at \$7,000 and the most recent CAC example in 67+ to sell realized \$6,169 in the 2016 ANA auction. The record for one selling is \$8,226 in the 2016 CSNS. The sole NGC 68 sold for \$15,600 in September 2017. We sold one in our January 2018 Regency Auction for \$7,931. A visually and technically
STUNNING superb GEM.
This little jewel is just oozing
with rich originality. Among
the finest graded by PCGS, this
piece boasts a brilliant golden
surface that drips with a reddish
hue over exceptionally gorgeous
gold color. Every tiny detail is
struck up with full precision and
is exacting in its definition. Even
the tiny mint made die polish
lines are visible in the fields,
suggesting an early striking
before they wore off the surface.

Although 125,000 were initially authorized, the reported net mintage is listed at 17,500 and the remaining pieces were melted due to poor sales.

PCGS 132, NGC 120, CAC 66. PCGS has graded 11 in MS67+ with a mere two coins finer (the most recent MS68 to sell brought a robust \$25,850 last year). The current PCGS Price Guide value is listed at \$8,500 and this coin is truly worthy of a premium bid! If you are working on a top quality set, this coin should definitely be added to your collection!

PCGS# 7444 | ESTIMATE: \$7,000+

**LOT 467****\$2.50 1926 SESQUICENTENNIAL. PCGS MS64**

Conservatively graded, we are not sure why CAC chose not to bean this one--we have seen coins in MS65 that do not look as CHOICE! Needless to say, this coin is very high end for the grade. Brilliantly lustrous, great color, and needle sharp strikes. There are a few tiny marks, but none that are inappropriate for the grade, and we have seen higher graded coins that do not look this nice!

PCGS 4505, NGC 2619. While the CU value of a 64 is \$650, we really think this coin will end up around the prices realized for MS65s, which is in the \$1,000-\$1,500 range.

PCGS# 7466 | ESTIMATE. \$800+

LOT 468**\$2.50 1926 SESQUICENTENNIAL. NGC MS66 CAC**

A truly GLORIOUS GEM Sesqui quarter eagle. Bold, satin frosty mint luster blooms all over, and has a brilliant radiance over the smooth surfaces that are found on both sides. Totally original golden-orange with a rose-gold sheen that accents the crisply struck up devices. The eye appeal is wonderful and totally original. Housed in an NGC "Fatty" holder.

PCGS 183, NGC 108, CAC 17. Only a single CAC-coin has ever sold in auction, realizing \$10,925 way back in July 2009! That coin was PCGS graded. These have really been beaten in value over the last few years, but this impressive GEM is truly worthy of a great collection of gold commems. This is a type that is excessively rare any finer, and we suspect that a good number of the coins on the pops are duplicate submissions.

PCGS# 7466 | ESTIMATE: \$6,250+

**LOT 469****\$2.50 1926****SESQUICENTENNIAL.****PCGS MS66+ CAC**

What an AMAZING, superb GEM quality Sesqui quarter eagle! A brilliant satin luster blooms from all over with very flashy, radiating cartwheel luster. Every design element is sharply struck showing full definition. A medium orange golden-glow shows some areas of light rose toning, giving this beauty a stunning look. Only under the magnification of a strong loupe can you see any tiny ticks.

PCGS 190, NGC 108, CAC 17. Only six coins have been graded 66+ at PCGS, none at NGC. The ONLY CAC approved one sold in January 2018 for \$19,200. There is a SINGLE MS67 graded finer at PCGS, a coin that has not sold in auction in over 18 years! This is a great coin, a real prize for the gold commem collector!

PCGS# 7466 | ESTIMATE: \$16,000+

**LOT 470****\$50 1915-S PANAMA-PACIFIC. OCTAGONAL. PCGS MS62**

Regardless of grade, the Pan-Pac \$50 gold pieces are impressive—one of the most impressive of all U.S. coin designs. The design, with allegorical representations of wisdom, strength, power are presented with Minerva on the obverse and her owl on a pine branch on the reverse. In the corners are swimming dolphins representing the connecting of the Atlantic and Pacific via the newly opened canal in Panama. Only 645 of these octagonal “slugs” were sold at the Pan Pac expo, and after. With such a low mintage and unique design, this is one of the “blue chips” of American numismatics.

For such a modest grade Mint State coin, this coin has a great deal of eye appeal. A heavy coin like this (contains nearly 2.5 ounces of gold), is bound to obtain some minor marks and ticks, and there are a few microscopic ones that can only be seen with a glass. The eye appeal is very choice for the grade!

PCGS 105, NGC 63. The last example realized \$75,000 in July 2018 and prior to that, in the 2018 FUN auction, two NGC coins sold for \$75,000 and \$87,000. The current PCGS value is listed at \$80,000. This impressive coin will delight any commemorative collector or someone building a collection of great gold type coins. Good luck!

PCGS# 7452 ESTIMATE: \$62,500+

**LOT 471****GS\$1 1852 J-145. PCGS PR66 CAC**

An intriguing concept. In an effort to make the gold dollar a bit easier to handle, the mint experimented with this annular form design. The mint made the planchet wider and punched a hole in the center to make the weight proper for the \$1 denomination. With so little metal, the design elements are simple, UNITED STATES OF AMERICA and 1852 around the obverse with a scalloped border around the hole, and DOLLAR at the top of the reverse with a tight wreath at the bottom. There are a number of restrikes known, but the present coin struck on a thick planchet is considered to be one of the originals. Listed as Low R-6, this is a very rare type, but is one of the few "common" patterns struck in gold.

The present SUPERB GEM is one of the finer known examples. A wealth of coppery-orange gold color is seen on the tiny bit of actual planchet. The even smaller amount of open fields has a bold beaming mirrored golden finish.

Everything about this coin is very cool and high end, a delight for any pattern collection!

PCGS 2, NGC 0, CAC 1. The current PCGS Price Guide value is listed at \$40,000 and there is just a single PR67+ finer, a coin which has never sold in auction. This is a real prize for any collector of gold patterns!

**LOT 472****10C 1863 J-326, PCGS PR65 CAC**

This piece is an R-8 with 1-3 known. This is struck in copper. It is what is known as a "Postage Pattern". These were struck to one day be exchanged for postage.

We marvel at this coin every time we see it. The coin is nothing less than AWESOME! We do not see why PCGS only grade it a 65. At minimum a + would be very fitting in our opinion. Seeing is believing (note the image may not fully represent the pop and colors of this coin)

Outrageous mirrors beam intensely from all over. Even though this is a smaller coin, you can see the flash from yards away. There is for sure an electricity about this coin. The mirrors are also very clean and have remarkably clarity. Phenomenal totally original iridescent colors of pale lime/purple/violet/tangerine/gold colors swirl all over. There are some tiny TONING dots scattered around-not flecks or problems. Every detail is fully struck and appears boldly. The eye appeal is incredible!

PCGS 1, NGC 0, CAC 1. A mystery PR64 sold in 2014 for \$17,625. All we can say if by any long shot this was the coin-it sure should NOT have been graded a 64. We think this coin should be an MS65+ (no promise made though). There is a Collector's Universe Value of \$17,500 for a 64 NONE for a 65. The rarity of this coin cannot be overstated. We consider this a once in a life time opportunity!

25C 1869 J-729, PCGS PR66 RD CAC

This is an R-7 (4-12 minted) Standard Pattern Type. This coin is struck in copper.

We believe this coin is tired for finest graded.

True GEM RD Patterns are VERY rare-even for Standards. This coin has remarkable surfaces that are clean and do exhibit strong reflection. There is no haze anywhere. The color is a full original GEM soft Mint Red. Miss Liberty and the details are needle sharp in strike. The eye appeal is pretty neat!

PCGS 2, NGC 0, CAC 1. There is not a Collectors Universe Guide value for this coin. We do know similar patterns in copper sell for \$5,000-\$6,000. We know whatever is paid for this coin will be the market price! Adding a wicked cool different metal pattern to any collection is value and neatness added!

A very rare, R-7- (7-12 minted). Liberty head right with no star on diadem. Standard Silver reverse. Struck in aluminum with a reeded edge.

A very neat Standard Silver pattern. First the mirrors are strong and beaming with only a touch of iridescence visible, not at all hazy like many aluminum patterns ended up. The strike is bold throughout with just a hint of weakness on the coronet and hair curls. Struck from a cracked reverse die and there are some mint made planchet flaws on the reverse. High end for a 64 and approaching a cameo like contrast.

PCGS 5, NGC 1, CAC 1. This is the NGC/CAC coin we sold in May 2018, where it brought \$2,468. The collector who bought it has changed directions. It has since clearly crossed over. The current Collector's Universe value is listed at \$3,250 and this is a very rare opportunity to acquire this RARE pattern! Worthy of a great pattern collection!

R 7+ (4-6 minted). Liberty head right, no star on tiara, Standard Silver agricultural wreath reverse. Struck in aluminum with a plain edge.

Extremely RARE. This coin has no oxidation or haze (atypical to aluminum coins) to impact the deep, clean, clear mirrors that boast a powerful reflection. There actually is decent contrast, although a near miss CAMEO. Miss Liberty and the details are fully struck and have gorgeous thick frosting. The eye appeal is great!

PCGS 2, NGC 2, CAC 4. Only two coins have ever sold in auction. A PR66 (ex Simpson-Stonewall Collections) sold for \$5,875 in November 2012 and an NGC coin sold in July 2008 for \$12,650. The current PCGS Price Guide value is listed at \$5,500 and one coin, a PR66+ is finer. Good luck!

A SUPERB J-888, the FINEST graded by PCGS and a real prize for the Pattern collector!

This is an R-5 (31-75 minted) Standard Silver quarter. Capped head of Liberty with 3 stars. Standard Silver agricultural wreath reverse. Struck in silver with a reeded edge.

Ultra high end quality with deep beaming mirrors that gleam from all over. They are bold and watery giving the wonderful

toning a great backlit effect when viewed in a light. Wonderful, rich, totally original toning from old paper envelope storage. You cannot find a single flaw with the naked eye and the quality holds up under close inspection.

PCGS 1, NGC 1, CAC 2. This coin does not appear to have sold in auction previously and there are no recent records for the NGC-graded coin. The **FINEST KNOWN** example of this very rare R-7+ Standard Silver Pattern. Struck in aluminum with a plain edge. There were many varieties of Standard Silver coins produced between 1869 and 1871 in various different metals and with differing designs. This variety has a capped bust of Liberty facing right with three stars on the band. The reverse wreath

is made of one branch each of laurel and oak. This simple design looks fantastic on the highly reflective and contrasted aluminum planchet. Indeed, the coin is blinding when viewed under a light. Most of these off metal strikings were produced as part of special sets made for VIP mint clients to a very limited extent. Untoned and only the slightest bit of haze, but never dipped or conserved. As pretty today as the moment it was carefully removed from the dies.

PCGS 1, NGC 0, CAC 1. This is the finest example known, and sold in our Regency XI Auction as lot 347 for \$7,931. In January 2016's Regency Auction XX, the Bob Simpson example, graded PR65 CAC sold for \$7,931. This coin is a very high R-7 (4-7 Minted). Struck in aluminum with a plain edge. It is the FINEST known.

There are less than half a dozen known of this issue and this coin is the finest certified!

For a trial striking, a lot of effort went into making this exceptional quality piece.

Overall, the planchet was problem free, so when it was struck, there are practically NO imperfections. Glorious watery mirror fields that offer extraordinary quality and preservation. This issue has a plain edge and is boldly struck on all the devices with snow white frost glistening over the mirror fields. No spots or lines detract! Undoubtedly this is the finest known of this rare and seldom seen pattern issue.

This is undoubtedly, by a long margin, the **FINEST J-1018** and there are just **TWO** graded at PCGS of this Ranty-8 Longacre dollar.

Struck aluminum with a reeded edge, this beautiful pattern dollar has Longacre's gorgeous Seated Indian Princess design paired with the regular proof reverse die.

First, as noted, the design is gorgeous. Longacre's creation, showing Lady Liberty dressed as an Indian Princess sits on a rock, supporting a globe inscribed **LIBERTY** and holding a pole with a liberty cap on top. What an improvement this design would have been if it had been adopted!

The mirrors are sleek, and have a stunning deep flashing bold reflection that is just fantastic. While aluminum is a soft and reactive metal, there is not a single hairline, scratch, mark, or any type of corrosion that often plague coins struck in this metallic content. Every detail stands out in its full, higher relief definition. They are frosted, and this coin is truly a borderline **CAMEO** with impeccable surface contrast.

There are a number of old auction appearances listed in the Pollock pattern reference, but the old photo plates (if they even have plates) make it hard to trace the provenance. For the entire J-1018, PCGS has graded two examples, this one the absolute finest, and the PR64 that is impounded in the Simpson Collection.

PCGS 1, NGC 1, CAC 1. We do not doubt that this and the NGC coin are both the same coin. NGC has two coins in PR64 reported, likely the same example which is now in the Simpson collection. This may very well be a once in a generation opportunity for any advanced pattern dollar collector. There are no accurate guides nor is any fifteen year old APR relevant today for a coin graded much lower! The 10th edition of Judd (2009) has a value of \$52,500 in PR65 and nothing is priced higher. This is a very cool coin that we have had a hard time putting down since it came in, and we think you will have the same problem when you see it!

LOT 485

\$1 1871 J-1148. PCGS PR66 RB CAC

Too bad this design never made it into coinage—it is beautiful! The obverse features James Longacre's Seated Indian figure of Liberty and the reverse is the standard proof die for the year. This coin is extremely high end.

R-7+ 4-6 Minted. Struck in copper with a plain edge

Outstanding deep mirrors vividly beam from all over. Copper coins rarely offer powerful mirrors like this—totally clean and clear. A bold mix of violet, red, and magenta hues are totally original and blaze from both sides. Very similar surfaces to bronzed copper medals produced at the mint.

There are NO spots or discolorations. Miss Liberty and every detail is sharply struck and have thick frost. The eye appeal is awesome!

PCGS 3, NGC 1, CAC 3. You can't top the electricity of the colors and the flash of the mirrors here. A near twin to the one that sold in our July 2017 Regency Auction for \$31,725 and the current Collector's Universe value is listed at \$34,500. This is a supreme example of a tough Longacre design that was a near miss to become a regular US coin design. This will be a stunning fit in any superb pattern collection.

PCGS# 71410 ESTIMATE. \$23,000+

**LOT 486****10C 1879 J-1589. PCGS PR65+ RB CAC**

A beautiful Morgan dime pattern. The famous Morgan Liberty head on the obverse makes this look like a mini-Morgan dollar in copper. The reverse has ONE DIME inside a beaded circle with E PLURIBUS UNUM above and an olive wreath around. Struck in copper with a reeded edge, it is listed as Low R-7, with fewer than 12 examples believed to have been minted.

This AMAZING looking pattern dime is the CoinFacts plate coin and for good reason! Its look is dramatic. Rich red mirrored fields have a bold contrast against the frosted devices. Violet overtones can be seen when rotated in a light, but coin is mostly brilliant RED. Sharply struck up, every detail is sharply rendered. The beauty and elegance of this design makes us wish that the mint adopted it.

PCGS 2, NGC 2, CAC 3. This is the only 65+ RB graded, and we think that the populations reflect this coin as both a 65 and 65+. PCGS has graded 8 in all color and CAMEO designations total, this one among the FINEST numerically graded and is a true prize for any pattern collector. The Collector's Universe Price Guide does not list a value in 65+RB, but is listed at \$11,500 in 65 and \$16,500 in 66 RB; we think this GEM will cause the price guide to be rewritten when the hammer falls. Good luck!
